## INTRODUCTION

Lexicon Management Institute of Leadership and Excellence, (Lexicon MILE) is a part of the Pune-based Lexicon Group of Institutions, established in 2006. The Lexicon Group of Institutions includes Schools, Pre-schools, and Therapy Centre for specially abled students along with the Lexicon Management Institute of Leadership and Excellence.

Lexicon Management Institute of Leadership and Excellence, Wagholi, Pune was established in 2010. Lexicon MILE is a part of the Sukhdev and Kamal Sharma Educational Trust, having state-of-the-art teaching aids and the 'Innovation & Incubation Centre' to promote entrepreneurship and start-up culture.

Lexicon Management Institute of Leadership and Excellence operates a Centre for Excellence to strengthen academia-industry interface through research and consultation work beneficial for industries involving its students with experienced Professors/Researchers, Lexicon Centre of MSME Excellence is a leading centre dedicated to empowering Micro, Small and Medium Enterprises (MSMEs) in India and Lexicon Centre of Research and Innovation aims to provide data based, actionable insights, solutions and strategy to real life business issues across functions to the decision maker across the government, the industry, and the community.

Lexicon Management Institute of Leadership and Excellence has recently inaugurated The Lexicon Centre for Community Engagement and Social Immersion and The Lexicon Centre for Design Thinking, Innovation and Entrepreneurship in the year 2025.

Lexicon Management Institute of Leadership and Excellence believes in the "One Student at a Time" approach to build exclusivity in students through fundamental academic processes, robust evaluation methods, innovative induction, strong internship systems, and exposure to managing world-class events. Lexicon Management Institute of Leadership and Excellence prepares the students to be industry-ready through various academic and extra-curricular exposures.

### **1.1. Vision and Mission Statements (5)**

The Lexicon Group recognized that creating a vision and mission statement for a Post Graduate Diploma in Management (PGDM) Institute would be a crucial step in defining its purpose, values, and long-term goals that is inclusive of all its student-stakeholders. The Institute recognized that its vision statement should strengthen its strategic planning, decision-making and outline the aspirational future and provide a concise statement of what the academic program would achieve for its students.

In this regard, the key milestones in the development of the Vision and Mission Statements included –

- Inspiration: The institute defined the process that would be a source of inspiration and motivation for all stakeholders.
- Future-oriented: The primary focus was towards the students' future state that could be sustainable, recognize the need to keep changing and grow on current realities.
- Broad and Ambitious: The initiative helped create a broad process that encompassed various ambitions of students and their families along with their future organizations.
- Global: The students would recognize their place within a global management community as future leaders with character and competence.

The Academic program therefore had specific perspectives in its approach to a holistic vision and mission.

***Vision – To be a globally recognized Institute for management education and leadership excellence, fostering innovative leaders who contribute to sustainable business practices and their organizations.***

Lexicon recognized that the Mission Statement would define the Institute's fundamental purpose, its core values that guide all actions and the primary activities undertaken to fulfill its vision. Therefore, the key components are defined by its –

- Purpose: That clearly articulates the reason for the Institute to strengthen the PGDM program
- Values: The stakeholders are always informed and take pride in the core principles and values that guide all aspects of decision-making within the Institute
- Scope: Students, faculty and management are made aware of the wide-ranging functions of all Program Educational Objectives (PEOs).

***Mission – Our mission is to provide a transformative learning process for aspiring global leaders in industry, management and the human community, bringing together academic rigor with real-world relevance and experiences. Lexicon MILE is therefore committed to fostering an environment of sustained academic progress, innovation, and inclusivity. This is enabled with***

*strong research and industry internships, industry collaboration and experiential learning. Thus, the Institute aims to develop socially responsible leaders to address the challenges of the rapidly changing global industrial environment.*

The primary aspects of the Vision and Mission at Lexicon MILE that enable the Institute to align with the scope of the AICTE are:

**Excellence in Teaching Pedagogy:** To provide world-class education through innovative teaching methods, cutting-edge technology, and experienced faculty to equip students with the latest management skills and knowledge.

**Strong Course Syllabus and Curriculum:** To offer a comprehensive and adaptable curriculum that reflects the dynamic business environment, encompassing core management principles, emerging trends, and industry-specific expertise.

**Holistic Learning Environment:** To foster a holistic personal and professional learning environment among students, nurturing qualities such as leadership, ethical decision-making, and effective communication, alongside academic knowledge.

**Industry Relevance:** To maintain strong ties with industry partners and update the course content regularly, ensuring that students are well-prepared to meet the demands of the ever-evolving business world.

**Placement Assistance:** To facilitate robust placement and career support, connecting students with a network of corporate recruiters, and guiding them in achieving their career aspirations.

**Entrepreneurial Focus:** To encourage an entrepreneurial mindset by providing resources, mentorship, and incubation support for students interested in starting their own ventures.

**Research and Innovation:** To promote a culture of research and innovation, encouraging students and faculty to contribute to the advancement of knowledge in the field of management.

**Alumni Engagement:** To maintain an active and engaged alumni network, offering opportunities for ongoing learning, mentorship, and professional connections.

**Social Responsibility:** To instill a sense of social responsibility in students, encouraging them to use their management skills for the betterment of society through corporate social responsibility initiatives.

## 1.2. PEOs Statements (5)

The Lexicon MILE academic program has aligned its **Program Educational Objectives** (PEOs) towards strengthening its students through the following –

|       |  |
|-------|--|
| PEO-1 | Equip students with the competencies required to manage people, resources and projects to achieve organizational objectives. |
| PEO-2 | Enable students with the requisite knowledge, skills and attitudes to emerge as effective managers.                          |
| PEO-3 | Empower students with the essential skills, abilities to succeed and excel   |

|       |   |
|-------|---|
|       | in the workforce and make meaningful contributions to their organization.   |
| PEO-4 | Distinguish students with critical thinking skills and encourage the application of management concepts through analytical paradigms. |

### 1.3. Dissemination among stakeholders (10)

Lexicon MILE recognized that an all-inclusive process for development of its vision and mission statements was more important than a prescriptive document. This process included –

- **Stakeholder involvement:** The institute engaged its faculty, students, alumni and industry partners in the vision and mission development process.
- **SWOT analysis:** The process conducted a thorough analysis of the institute's strengths, weaknesses, opportunities, and threats to inform the stakeholders of the development of a realistic and aspirational vision and mission.
- **Alignment with goals and objectives:** The participatory process ensured that the approach to define the vision and mission aligned with the Institute's strategic goals and objectives.
- **Uniqueness:** The stakeholder groups were instructed to distinctly identify and emphasize their unique qualities and strengths that actually set the institute apart from similar ones.
- **Feedback and Revision:** The management teams worked with current students and alumni in seeking feedback from internal and external stakeholders and emphasized the need to be open to refining the vision and mission based on inputs and the recognition of future changing industrial environments.
- **Communication:** At all stages, it was emphasized that the evolving document would be communicated to help strengthen the finalized vision and mission, thereby ensuring understanding and alignment with the objectives of the Institute and its PGDM program.

#### Stakeholder involvement at Lexicon MILE PGDM

At Lexicon MILE, the focus on serving stakeholders is paramount. These stakeholders encompass both internal and external entities, including students, faculty, staff, the Board of Governors, the Academic Council, government bodies, industry partners, alumni, guardians of students, and society at large. These stakeholders form the foundation of Lexicon MILE, and the effectiveness of its governance is measured by the value it generates for them.

Each stakeholder group is supported and guided through various activities aimed at delivering value. The success of these activities is evaluated based on their execution and their impact on the stakeholders' well-being.

The objective of ensuring that stakeholders understand the Vision and Mission of Lexicon MILE is to enhance their engagement in achieving the organization's goals and objectives. This engagement is vital for the overall attainment of Program Outcomes (POs) and Program Educational Objectives (PEOs).

## **Process of Disseminating the Vision and Mission to Stakeholders at Lexicon MILE**

Ensuring a comprehensive understanding of Vision, Mission, and PEOs among stakeholders is a priority at Lexicon MILE. Efforts are consistently made to promote widespread awareness and recall of these principles among stakeholders.

### Display

- The Vision, Mission, and PEO statements are prominently displayed throughout the campus, including locations such as the Director and senior faculty offices, Reception Area, Lobby, Library, Faculty Rooms, and other prominent areas.
- Additionally, these statements are readily accessible on the official website of Lexicon MILE ([www.lexiconmile.com](http://www.lexiconmile.com)).
- They are also incorporated into relevant written materials, such as the Prospectus and Student Documentation.

### **Internalization of Vision and Mission statements**

The inclusive integration of the Vision and Mission at Lexicon MILE was achieved through deliberate efforts by the management, which took responsibility for ensuring these statements permeated every section of the organization. This was reinforced through relevant print and online content, as well as through meetings and conferences. Lexicon MILE believed that a stated vision or mission was ineffective unless it was internalized by the entire team and all relevant stakeholders of the business school.

Internal stakeholders were encouraged to engage in deliberation and discussions, ensuring the Vision, Mission, and PEO were consistently communicated and reiterated through academic and administrative systems. Lexicon MILE aimed for outcomes that aligned with its overarching Vision, Mission, and PEO. This alignment was assimilated within the process of setting objectives for each department and activity, ultimately leading to the achievement of the overall PEOs.

### **Objectives for Integration of Vision and Mission Statements**

At Lexicon MILE, departmental goals and objectives are intrinsically linked to the Program Educational Objectives (PEOs).

- The objective-setting exercise, along with performance review standards and regular monitoring of initiatives, is designed to achieve the stated objectives, which in turn help realize the Vision, Mission, and PEOs of the organization.
- Campus events are strategically aligned with the Vision, Mission, and PEOs, underscoring their relevance and serving as constant reminders to the team of their purpose and goals.

These steps are intended to energize and direct the actions of stakeholders, ensuring their efforts are aligned with the management's vision. Initiating goals and objectives to create actionable plans is the first step toward building a cohesive team and a stronger workforce, unified in their pursuit of common objectives.

## Taking Vision and Mission ahead as core functions

The Vision, Mission, and core ideology of Lexicon MILE are embedded in the culture and governance practices of the institute. These elements are reflected through the following functional and governance actions:

- **Compassionate Interaction:** Tolerance and patience are emphasized when dealing with students and colleagues, promoting a culture of compassionate behavior.
- **Academic Support:** Students who are weak in academics, English language proficiency, and related areas receive additional sessions to help them compete effectively with their peers.
- **Industry Exposure:** All students are required to participate in industry projects, ensuring they are well-prepared for the corporate world.
- **Mentorship Programs:** Faculty conduct mentoring sessions with students in smaller batches to provide personalized guidance and support.
- **Social Awareness:** Students are encouraged to participate in and initiate social initiatives, fostering a sense of social responsibility.
- **Entrepreneurial Values:** The institute promotes the value of becoming employment generators rather than employment seekers, crucial for an economy that needs to employ a large number of youths. This is reinforced through associations with various entrepreneurial networks.
- **Global Commitment:** Lexicon MILE appreciates global principles and United Nations initiatives encouraging Sustainable Development Goals (SDGs).
- **Corporate Interaction:** Seminars and corporate interactions are held regularly with industry professionals to raise awareness about business practices.
- **Community Development:** Administrative decisions are made to strengthen the link between students and community development through various initiatives aimed at community upliftment.

By integrating these practices, Lexicon MILE ensures that the Vision and Mission statements are actively pursued through daily actions and strategic decisions.

### 1.4. Formulation process (15)

#### The process in defining Vision and Mission at Lexicon MILE

In defining Vision and Mission at Lexicon MILE, a comprehensive self-assessment is crucial. This involves gathering input from various segments that contribute to the institution's framework, ensuring it effectively serves the purpose of a business school. Lexicon MILE believes that creating this framework requires a consultative process involving all relevant stakeholders. The process is detailed as follows:

##### *A) The Environment*

- **Management Insights:** Representatives from the management provided comprehensive information about the environment in which the business school operates.
- **Program Details:** Detailed information regarding the program and its unique features was gathered.
- **Student and Regulatory Requirements:** The requirements of students, legal and regulatory frameworks, certification procedures, and the status of certifications were thoroughly assessed.

*B) Historical Context*

- **Institutional History:** The management provided a brief history of the Lexicon Group of Institutes since its inception, summarizing key events, creation of programs and teams, student enrollment numbers, teaching and support staff, facilities, premises, and budgetary details.
- **Competitive Landscape:** Descriptions of the competitive environment and constraints were compiled, including information on key stakeholders, funding agencies, competitors, industry interfaces, job markets, prevailing quality norms, constraints (if any), freedom to innovate, access to resources and support, and student access.

*C) Evolution of the First Draft*

- **Vision Conceptualization:** The management conceptualized an effective Vision for the business management program, considering the business environment, student benefits, and interests of other stakeholders.
- **Mission Development:** Essentials needed to fulfill the Vision were identified and articulated through Mission statements.
- **Quality Assurance:** These initial drafts were reviewed and updated by the Internal Quality Assurance Cell (IQAC).
- **Stakeholder Feedback:** The first draft was presented to stakeholders for their feedback to further refine the Vision and Mission statements.

By following this structured approach, Lexicon MILE ensures that its Vision and Mission are not only aspirational but also rooted in practical insights and stakeholder needs, driving the institution forward in its educational and strategic objectives.

*D) Stakeholders Meeting*

A meeting with relevant stakeholders was convened to conduct a SWOT analysis. This meeting included internal stakeholders such as representatives of faculty, staff, and students, as well as external stakeholders like members of the Academic Council and alumni.

This gathering provided a platform for each segment to share their perspectives on what is critical for a business school in its pursuit of quality education, highlighting the opportunities and

challenges present in the environment. The insights gathered from this exercise led to the consideration of the following aspects in the process of further refining the Vision and Mission:

- **Strategic and Operational Planning:** Discussing how the draft Vision could be translated into strategic and operational plans and ensuring the coherence of the Mission across all levels and activities.
- **Strategic Objectives:** Demonstrating how Vision could be embodied in strategic objectives through the mix of programs, selection of activities, and establishment of priorities.
- **Resource Availability:** Examining the relationship between the business school's strategic objectives and the availability of resources.
- **Identifying Constraints:** Identifying key constraints that may limit future performance.
- **Recent Achievements:** Highlighting recent achievements in the pursuit of strategic objectives.
- **Mission Identity:** Describing the formulated Mission and explaining how it relates to the school's identity.

The second draft of the Vision and Mission was then adopted by the Internal Quality Assurance Cell (IQAC) for finalization.

### Final Draft of Vision and Mission

- **IQAC Finalization:** The IQAC created the final draft of Vision and Mission.
- **Board of Governors:** The final draft was presented to the Board of Governors to provide Apex Management recognition of Vision and Mission.

By following this meticulous process, Lexicon MILE ensured that its Vision and Mission are well-defined, strategically aligned, and supported by all stakeholders, guiding the institution towards its goals of providing quality education and achieving excellence in business management.

### 1.5. Consistency of PEOs with the mission (15)

#### The process and framework of defining the PEOs at Lexicon MILE

An organization formulates a Vision from which a Mission statement emerges. The Mission aims to reinforce the Vision through affirmative actions, operationalized through the Program Educational Objectives (PEOs).

#### Framework for Defining PEOs

The Program Educational Objectives (PEOs) are broad statements defining the aims of the program. These objectives help fulfill the mission of the program, ensuring that students graduating from it lead meaningful lives and contribute positively to societal development. The program prepares students to become professionals in the business world, making it essential for these objectives to align with current business scenarios and industry needs. Lexicon MILE

achieved this alignment through active involvement with industry personnel and feedback from various operational bodies on campus. The framework for defining PEOs at Lexicon MILE is as follows:

- **Initiation by IQAC:** The Internal Quality Assurance Cell (IQAC) initiated the framing of PEOs based on recommendations from the Board of Governors.
- **Stakeholder Consideration:** The expected outcomes for stakeholders were considered, leading the IQAC to align the Vision and Mission of the institute as a foundation for developing the PEOs draft.
- **Stakeholder Consultation:** Both internal and external stakeholders were consulted to understand their expectations from the management program. The first draft was presented to representatives of various stakeholder groups, including:
  - a. Students
  - b. Faculty
  - c. Academic Council /Industry /Employers
  - d. Alumni
- **Feedback Incorporation:** Suggestions from stakeholders were considered, and the PEOs were established and ratified by the IQAC.
- **Final Approval:** The PEOs were then submitted to the Board of Governors for final approval and incorporation.

This structured approach ensured that the PEOs were well-defined, aligned with the Vision and Mission of Lexicon MILE, and met the needs and expectations of all stakeholders involved in the program.

| Statement                  | M1  | M2   | M3  | M4   | M5   | M6  |
|----------------------------|---|--|---|--|--|---|
|                            | <b>Create Student-Centric Stakeholder Involvement</b> | <b>Encourage critical thinking (e.g. SWOT)</b> | <b>Recognizing diversity and alignment with goals</b> | <b>Evaluate feedback and enable evolving revisions</b> | <b>Enabling revisions to strengthen strategic planning</b> | <b>Appreciation of Team Feedback and Declaration of Mission</b> |
| PEO 1: Learning Experience | 2   | 3  | 3   | 3  | 3  | 3   |
| PEO 2: Apply knowledge     | 3   | 2  | 3   | 3  | 3  | 3   |
| PEO 3: Lifelong Learning   | 2   | 3  | 3   | 3  | 3  | 3   |

|                                    |   |   |   |   |   |   |
|------------------------------------|---|---|---|---|---|---|
| PEO 4:<br>Contribute to<br>Society | 3 | 2 | 3 | 3 | 3 | 3 |
|------------------------------------|---|---|---|---|---|---|

### Justification of the parameters in the PEO Matrix

Several cornerstones of the Lexicon MILE PGDM program's Mission had been aligned with the PEOs, including problem-solving ability, proficient communication skills, decision-making ability, social responsibility, professional ethics, multidisciplinary knowledge, self-learning ability, and leadership qualities. The consistency of each PEO with the mission of the program is described in the following paragraphs:

- **Domain and Multidisciplinary Knowledge:** Dedicated hours of curricular teaching had been provided so that graduates could master fundamentals and acquire proficiency for working in the industry. Students are exposed to myriad learning exposures like case studies, news, media, role plays, quizzes, etc. to make the students understand, appreciate and acknowledge that the learning can be through various experiences and not necessarily a PowerPoint presentation or a whiteboard.
- **Decision Making, Problem Solving, and Self-Learning Ability:** These skills had been imparted through a foundational pedagogy mix, including case studies, simulations, projects, Corporate Research and Learning Internship (CRLI) / Summer Internship Program (SIP), Career Learning Development Plan (CLDP) training, and certification workshops. Application of knowledge is of paramount importance evidenced through the long-term internship projects showcasing both industry-academia interfaces and on field learnings through active projects and assignments.
- **Communication Skill Development:** Effective articulation skills had been developed through intensive training in English and the use of language labs and multimedia resources. The diversity of learning exposures creates a fundamental platform or benchmark in students that stands them in good stead in their careers. They evolve with 360-degree personality overviews which makes them better contributors to the organization, society and nation.
- **Teamwork and Leadership Skills:** Students developed teamwork and leadership skills by participating in committees and driving activities in collaboration with student teams. They had interacted with industry personnel during on-campus sessions and the recruitment process, organized conferences involving industry personnel and academicians, and participated in management competitions, cultural events, sports, and other tech-fests. Presenting research papers in conferences had also been encouraged.
- **Faculty Engagement:** Faculty had been engaged in providing the latest management tools and techniques in the classroom. Research and consultancy had been highly encouraged and recommended for faculty members.

The consistency of the PEOs with the Mission of the institute and the resultant matrix had been obtained by availing feedback from relevant stakeholders, including students, faculty, alumni,

and industry representatives. This feedback had been utilized to ensure the mentioned consistency and thereby justified correlation. Such fortification ensured that the PGDM program is working in the right direction for administering teaching and learning on campus.

|--------------------|---|------------|

## **2.1. Governance and Leadership (60)**

### **2.1.1. Governance Structure and Policies (30)**

#### **2.1.1.1. Governing Structure (10)**

**Lexicon Management Institute of Leadership and Excellence (Lexicon MILE)** was established in 2010 by the Sukhdev and Kamal Sharma Educational Trust, a part of Lexicon Group of Institutes that also includes pre-schools, schools, and a therapy centre for specially abled children. The Lexicon MILE also has a functional Innovation and Incubation Centre to promote entrepreneurship and start-ups. The Lexicon MILE is recognized for three PGDM programs (with reference to the purview of this report):

1. PGDM (Marketing and Finance) with 180 intake.
2. PGDM (Research and Business Analytics) with 60 intake.
3. PGDM (Finance, Marketing and Human Resource Management) with 60 intake.

Lexicon MILE is set up under the aegis of its parent body, Sukhdev and Kamal Sharma Education Trust, which is a registered Trust in Maharashtra and is devoted to promoting quality education. It was founded and promoted by Shri Sukhdev Sharma in his capacity as the Chairman of the Trust. Shri. Pankaj Sharma is Trustee and President of the Lexicon Group. Shri. Neeraj Sharma is Trustee and Vice President of the Lexicon Group.

The Chairman of the Trust, Shri. Sukhdev Sharma nominates the Chairman of the Board of Governors and the Chairman of the Academic Council of Lexicon MILE along with the various other members of both the academic bodies that work within the ambit of inclusive administration. The participatory mode of governance within Lexicon MILE is inclusive of (a) academic, (b) administrative and (c) management governance.

**Academic Governance** includes the Board of Trustees (BoT), Board of Governors (BoG), Academic Council (AC), and the Board of Studies (BoS) for the respective PGDM programs. The various internal academic, administrative and redressal committees function as per their statutory mandate within the institution.

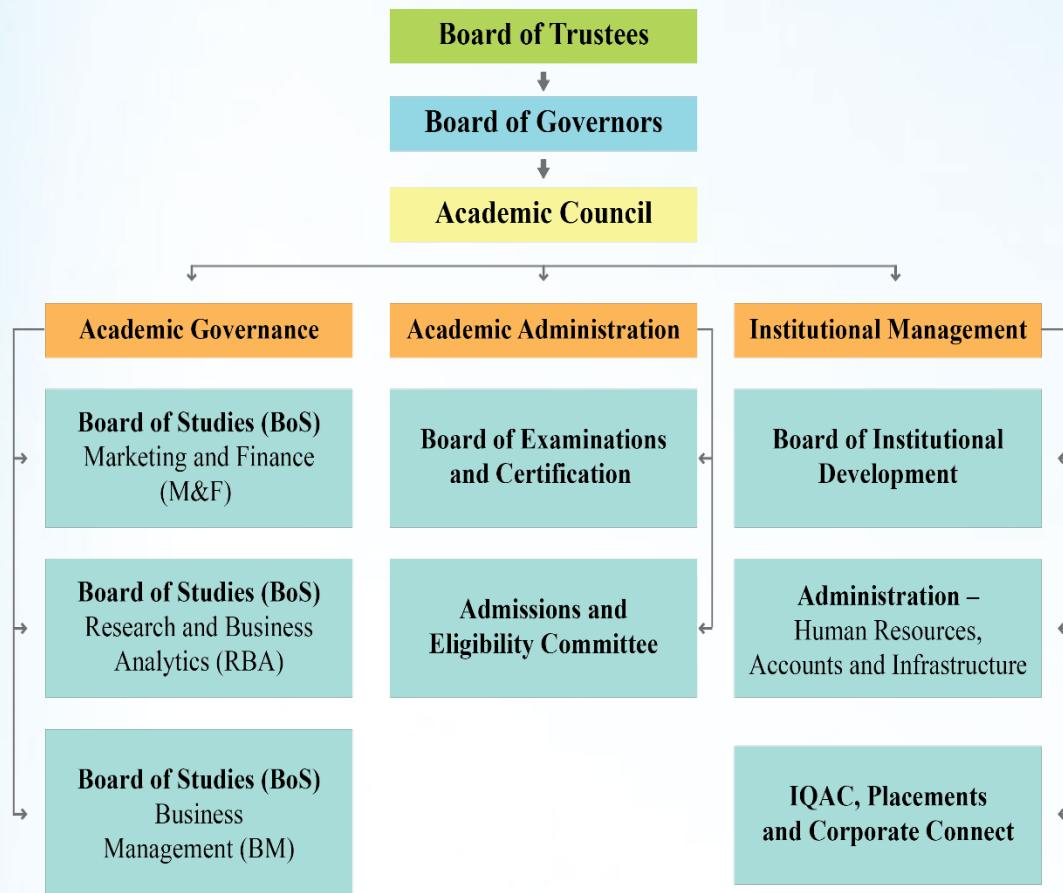

#### **Board of Governors**

The Board of Governors at Lexicon MILE includes representatives from the academic fraternity, industry, a nominated member of AICTE, a nominated member of DTE, and faculty and staff of Lexicon MILE. All major policy decisions impacting the functioning of Lexicon MILE are ratified by the Board of Governors. Meetings are held regularly, where an overview of the institution's progress is presented, suggestions are taken for further development, and records are systematically maintained. The Board derives its objectives from the Vision and Mission of the Institute.

The Board of Governors necessarily meets at least twice in a year with additional meetings convened as and when required. A quorum of  $\frac{2}{3}$  members are required to be present for conduct of the meeting.

**Functions** The core activity of providing strategic direction revolves around the Institute's Vision. The Vision of the institute clearly spells out the institute's dedication to developing its students as professionals who will serve the industry with the right knowledge and skills. To equip the students with the right knowledge and skills, the Board of Governors ensures that the quality of the offered program aligns with current industry needs.

The quality of the program is maintained with the active involvement of industry experts, academicians, faculty members, and alumni who are members of either the Board of Governors or the Academic Council at Lexicon MILE. The directives and observations of the Board of Governors are executed through the Academic Council and the Director. The Director, in turn, ensures that the overall functioning of the institute is as per the sanctions of the Academic Council and the Board of Governors.

### **The composition and the members of the Board of Governors:**

The Board of Governors at Lexicon MILE ensures the efficacy of operational decisions and safeguards student and stakeholder welfare through various functions:

- Providing strategic direction to the institute: The Board of Governors guides Lexicon MILE by setting long-term goals and defining the overall vision for the institution, ensuring alignment with its mission and values.
- Approving strategic and perspective plans: The Board meticulously reviews and endorses comprehensive plans that outline the institute's objectives, priorities, and strategies for achieving academic excellence and organizational growth.
- Allocating and monitoring budgets and reviewing audited income and expenditure accounts for approval: The Board diligently manages financial resources by allocating funds to various departments and initiatives, while closely monitoring expenditures and ensuring fiscal responsibility through regular audits and reviews.
- Institutionalizing scholarships and enhancing other amenities for staff and students: Committed to promoting accessibility and excellence in education, the Board establishes scholarship programs and continuously improves campus facilities and services to support the academic and personal growth of both students and staff.
- Monitoring development programs for students and faculty: The Board oversees the implementation and effectiveness of various educational and professional development initiatives aimed at enhancing the learning experience and career advancement opportunities for students and faculty members alike.
- Deliberating and deciding on additional matters affecting the governance of the institution: The Board engages in thorough deliberation and decision-making on a wide range of governance issues, ensuring transparent and accountable management practices that uphold the institution's integrity and reputation.
- Planning for developmental and expansion initiatives: With a forward-thinking approach, the Board formulates strategic plans for institutional development and growth, identifying opportunities for expansion, innovation, and strategic partnerships to further enhance Lexicon MILE's impact and reach.
- Defining the scope of infrastructure development based on needs: By assessing current and future requirements, the Board determines the scope and priorities for infrastructure development projects, ensuring that facilities and resources align with the evolving needs of the academic community.
- Considering recommendations of the staff selection committee for faculty recruitment: The Board carefully evaluates recommendations from the staff selection committee to ensure the recruitment of highly qualified and dedicated faculty members who contribute to the institute's academic excellence and student success.
- Reviewing and considering important communications and policy decisions received from the University, Government, AICTE, and similar bodies: The Board stays informed and

responsive to regulatory and policy developments, actively engaging with relevant authorities and stakeholders to uphold compliance and best practices in higher education.

- Fixing the fee payable by students based on recommendations from relevant bodies: In setting tuition fees, the Board takes into account factors such as educational costs, financial aid availability, and market trends, striving to maintain affordability while sustaining the institute's financial stability and quality of education.

### **Academic Council of the Lexicon MILE**

The Academic Council of Lexicon MILE serves as a pivotal body responsible for overseeing and enhancing the academic standards and integrity of the PGDM program. As a key constituent of the institution's governance framework, the Academic Council plays a crucial role in shaping the academic policies, curriculum design, and educational initiatives that define the student experience at Lexicon MILE. Reporting directly to the Board of Governors, the Academic Council operates with a mandate to uphold the institution's mission and values while fostering a culture of academic excellence and innovation.

Comprised of distinguished faculty members, academic leaders, and representatives from relevant stakeholders, the Academic Council embodies a diverse range of perspectives and expertise essential for informed decision-making. Drawing upon their collective insights and experiences, the council collaboratively develops and implements strategic initiatives aimed at advancing the quality, relevance, and rigor of the PGDM program. By fostering an inclusive and participatory approach, the council ensures that academic policies and programs align closely with the evolving needs of students, faculty, industry partners, and other stakeholders.

One of the primary functions of the Academic Council is to establish and oversee the various Boards of Studies (BoS) that govern specific disciplines and subject areas of the PGDM programs, their syllabi and curriculum. These BoS, composed of subject matter experts and faculty members, are entrusted with the responsibility of designing, reviewing, and refining the academic content, learning outcomes, and assessment strategies for their respective domains. Through rigorous deliberation and continuous evaluation, the Boards of Studies strive to maintain current relevance, and coherence of the PGDM curriculum, ensuring that it remains responsive to emerging trends, industry demands, and academic best practices.

Furthermore, the Academic Council serves as a forum for fostering interdisciplinary collaboration, pedagogical innovation, and scholarly inquiry among faculty members and academic units. By facilitating meaningful dialogue and exchange of ideas, the council encourages faculty development initiatives, research endeavors, and cross-disciplinary initiatives that enrich the teaching and learning experience at Lexicon MILE. With a steadfast commitment to academic excellence, integrity, and student success, the Academic Council exemplifies Lexicon MILE's dedication to fostering a dynamic and transformative learning environment that empowers future business leaders to thrive in a rapidly evolving global landscape.

### Committees at the Institute level

At Lexicon MILE, a structured governance system has been organized and managed to ensure the effective administration of the institute. This governance structure has significantly contributed to meeting the institute's objectives. At the execution level, the Director executes planned activities through various Committees formed for specific purposes. The Director's office, by virtue of its position, coordinates these committees. This has ensured that the Director is always informed about ongoing activities within the institute, thereby facilitating the monitoring of all activities across all levels of hierarchy.

The academic administrative committees, as per AICTE guidance, have been framed at both the institute and program levels, depending on the specific requirements of each program. These bodies are guided by policies and standard operating procedures (SOPs) that assist in the execution of their activities. Some bodies are for mandatory compliance, while others have been established as per the needs of the institute or program. The presence of faculty in-charges has been necessary for holding meetings as required for each respective committee.

By implementing this comprehensive governance framework, Lexicon MILE has ensured that all its functional and governance actions align with its Vision and Mission Statements. This alignment has been crucial in maintaining a coherent and effective governance structure that supports the institute's strategic direction and operational efficacy. Through this structured approach, Lexicon MILE has demonstrated its commitment to upholding high standards of academic and administrative excellence.

The Mandatory Committees established at Lexicon MILE include (presented in brief detail) -

1. Anti-Ragging Committee
2. Committee for SC/ ST
3. Internal Committee
4. Grievance Redressal Committee for Faculty/Staff (GRC)
5. Student Grievance Redressal Committee (SGRC)
6. Internal Quality Assurance Cell (IQAC)

The Academic Administration Committees established at Lexicon MILE include -

1. Admission Committee
2. Library Committee

3. Student Council
4. Student Counseling Committee
5. Sports Committee
6. Cultural Committee
7. Placement Cell
8. Entrepreneurship Cell
9. Alumni Committee
10. Industry Institution Cell

The description of the Mandatory Committees, its functions and composition are presented -

### **Anti-Ragging Committee**

The Anti-Ragging Committee at Lexicon MILE has been established to safeguard the interests of students regarding any acts or activities directly or indirectly associated with ragging. Lexicon MILE follows a zero-tolerance policy against ragging and any activity resembling it. Ragging is totally banned, and anyone found guilty of ragging and/or abetting ragging is liable to be punished. Ragging is also prohibited as per the decisions of the Honourable Supreme Court of India. AICTE has formulated detailed norms *vide* No. 37-3/Legal/AICTE/2009 dated 01.07.2009 for the steps to be taken by educational institutes to prevent ragging, and these norms form the basis for the formation of this committee.

The core purpose of the committee is to ensure compliance with the norms established by the governing institution. For this committee, the governing institution is AICTE and its subsidiaries, if any.

The chief objectives are:

- To establish and implement mechanisms for a ragging-free environment for students on campus.
- To ensure compliance with existing norms, acts, and legislation set forward by the governing body.

### **Functions:**

- To ensure compliance with the provisions of the regulations as well as any law currently in force concerning ragging, and to monitor and oversee the performance of the Anti-Ragging Squad in preventing ragging within the institution.
- To review the efforts made by the institution to publicize anti-ragging measures, solicit affidavits from parents/guardians and students each academic year to abstain from ragging activities, and to demonstrate willingness to penalize those concerned for any violations. The committee also functions as the prime mover for initiating action to amend statutes, ordinances, or bylaws to facilitate the implementation of anti-ragging measures at the institutional level.

- To make the community at large and the students aware of the dehumanizing effects of ragging and the institution's approach towards those indulging in ragging.
- To identify and properly illuminate and manage all vulnerable locations and take every action necessary to curb ragging.
- To ensure that the Mentoring Cell and Squad are working to achieve the desired objectives of the act/regulation.
- The committee will ensure compliance with existing norms and the formation of any other sub-committee or group. For the purpose of this committee, such subgroups have been termed as the Anti-Ragging Squad.

Through these measures, Lexicon MILE demonstrates its commitment to maintaining a safe and respectful environment for all students.

### Committee for SC/ST

The University Grants Commission (UGC) has prioritized the support of downtrodden students and staff and has directed all universities to establish SC/ST Cells. Since its inception, Lexicon MILE has consistently worked on the principles of sustainable, equitable, and participatory development, social welfare, and social justice. With this objective and in line with the guidelines stated by the UGC, the Scheduled Caste and Scheduled Tribes Committee (SC/ST Committee) has been established at the institute. The primary aim of the Committee has been to monitor the guidelines issued from time to time.

The functions of the Committee have been outlined as follows:

- **To circulate Government of India and Commission's decisions:** The Committee has regularly disseminated decisions and directives to ensure compliance. This includes data on course-wise admissions of candidates belonging to the Scheduled Castes and Scheduled Tribes in the program.
- **To collect information regarding appointments and training:** The Committee has been responsible for circulating decisions, collecting information on the appointment and training of these communities in both teaching and non-teaching posts.
- **To compile reports on education, training, and employment:** The Committee has regularly gathered reports and information concerning Government of India orders on various aspects of education, training, and employment for SC/ST communities. These reports have been prepared for onward transmission to relevant authorities as required.
- **To address representations from SC/ST candidates:** The Committee is required to address representations received from Scheduled Castes and Scheduled Tribes candidates regarding their admission, recruitment, promotion, and other related matters. It acts as a Grievances Redressal Committee for SC/ST students and employees, providing necessary assistance in resolving their academic and administrative issues.

- **To function exclusively on SC/ST matters:** The SC/ST Committee has been dedicated solely to handling matters related to SC/STs and has not been assigned any other work. This exclusivity has ensured focused attention on the welfare and development of SC/ST students and staff.

The Committee for SC/ST at Lexicon MILE has thus played a crucial role in upholding the institute's commitment to social justice, equity, and inclusive development, aligning with the Vision and Mission Statements.

### **Committee for SC/ST**

As per the Scheduled Castes and the Scheduled Tribes (Prevention of Atrocities) Act, 1989, No. 33 of 1989, dated 11.09.1989, the **SC / ST Committee** is reconstituted w.e.f. 15<sup>th</sup> October 2025 for the Academic Year 2024-2025 and 2025-2026 as under:

| <b>Sr. No.</b> | <b>Name of the Member</b> | <b>Category</b>                        | <b>Mobile No.</b> | <b>Email Address</b>            |

### **Internal Committee**

Lexicon MILE has constituted the Internal Committee (IC) to address activities with the broad purpose of creating a fair workplace with gender equality. The IC has been specifically created to prevent and deter acts of gender inequality and sexual harassment, and to provide a procedure for the resolution, settlement, or prosecution of such acts by taking all necessary steps. According to the Constitution of India, the Right to Equality is a Fundamental Right that includes the right to equality before the law, prohibition of discrimination, and equality of opportunities in matters of public employment. Equality between men and women, the right to work, to education, and to public assistance in case of unemployment, old age, sickness, and disablement, and the provision of just and humane conditions for work and maternity relief, are important. It has been obligatory for every employer and responsible person to follow the guidelines to constitute an Internal Committee to combat sexual harassment at the workplace. Educational institutions have been bound by the same directive. In compliance with the mandate, Lexicon MILE has adopted this policy to prevent, prohibit, and redress sexual harassment of women. Lexicon MILE has

been committed to providing all women within its jurisdiction, including its academic and non-academic staff, a place of work and study free from sexual harassment, intimidation, and exploitation. Every woman has had the Right to be free from Sexual Harassment and the Right to Work in an environment free from any form of Sexual Harassment.

The functions of the Internal Committee (IC) have been detailed as follows:

- **Providing a neutral, confidential, and supportive environment:** The IC has aimed to create a safe and supportive environment for all members of the campus community who may have been sexually harassed. This includes ensuring that complainants feel secure and supported throughout the resolution process.
- **Advising complainants on means of resolution:** The IC has guided complainants on the various means of resolution as specified by legislation, helping them understand their options and the processes available for addressing their complaints.
- **Ensuring fair and timely resolution of complaints:** The IC has been responsible for ensuring that all sexual harassment complaints are resolved fairly and in a timely manner, maintaining the integrity and credibility of the complaint process.
- **Providing counselling and support services:** The IC has offered counselling and support services on campus, assisting victims of sexual harassment with emotional and psychological support to help them cope with their experiences.
- **Disseminating comprehensive materials on sexual harassment:** The IC has ensured that students, faculty, and staff are provided with current and comprehensive materials on sexual harassment. This has included information on what constitutes sexual harassment, how to report it, and the support services available.
- **Promoting awareness through educational initiatives:** The IC has actively promoted awareness about sexual harassment through various educational initiatives. These initiatives have encouraged and fostered a respectful and safe campus environment, informing the campus community of their right to a respectful work and learning environment.

The committee has sought to inform the campus community of their right to a respectful work and learning environment. It has believed that practicing respect and exercising empathy in interactions with others can create a campus that is free of sexual harassment.

As per section 4, All India Council for Technical Education (Gender Sensitization, Prevention and Prohibition of Sexual Harassment of Women Employees and Students and Redressal of Grievances in Technical Institutions) Regulations, 2016

### **Grievance Redressal Committee for Faculty/Staff (GRC)**

The Grievance Redressal Committee at Lexicon MILE has aimed to encourage employees and students to voice their complaints constructively. This committee has also encouraged feedback and suggestions from staff and students as stakeholders to proactively resolve hindrances in campus operations. Lexicon MILE has employed a fair grievance procedure to minimize and avoid conflicts by constituting the Grievance Committee. The Grievance Committee has been established to provide a formal channel of communication to voice concerns. The Student's Grievance Committee has included faculty in charge, non-teaching staff members, and the student's council members as representatives of the students.

### **Grievance Redressal Committee for Faculty/Staff (GRC) Functions**

- Providing a communication channel to the staff members:** The committee has facilitated a platform for staff members to express their grievances, ensuring their voices are heard in a structured manner.
- Making channels of communication available:** The committee has made communication channels available for staff, such as sending emails to the secretary of the committee or registering grievances in the register kept in the administration department.
- Imparting objectivity and fairness:** By considering grievances with a degree of objectivity and fair play, the committee will ensure that all issues are addressed justly.
- Ensuring prompt consideration and decisions:** The committee will strive for the smooth functioning of the grievance process by ensuring prompt consideration and decision-making regarding grievances.

- **Maintaining a feedback mechanism:** A proper feedback mechanism has been maintained so that all employees are aware of the status of their registered complaints and can trust the committee's process.
- **Encouraging participative governance:** The committee has promoted a participative governance model where staff members are free to put forward their suggestions and engage in open discussions about them.
- **Planning and executing recreational activities:** The secretary will also plan and execute various recreational and welfare activities for the staff to ensure a healthy work environment.
- **Constitution duration:** The Staff Grievance Committee has been constituted for a fixed term, ensuring consistent and stable governance.

Through these measures, the Grievance Redressal Committee at Lexicon MILE has established a robust system to address and resolve grievances, aligning with the institute's Vision and Mission Statements.

#### **Grievance Redressal Committee for Faculty/Staff (GRG)**

As per All India Council for Technical Education guidelines mentioned in APH 24-27 in lined with the guideline of **GRG for faculty/staff** is reconstituted w.e.f. 8<sup>th</sup> January 2026 for the Academic Year 2025-2026 as under:

| Sr. No. | Name of the Member    | Category                  | Mobile No. | Email Address                       |
|---------|-----------------------|---------------------------|------------|-------------------------------------|
| 1       | Dr. Raju Varghese     | Chairman                  | 9325019055 | grievancedressalcell@mile.education |
| 2       | Dr. Prajakta Yawalkar | Member (Nominated by HOI) | 8830864736 |                                     |
| 3       | Mr. Harshal Kamble    | Member (Nominated by HOI) | 8087140783 |                                     |
| 4       | Ms. Kavita Pareek     | Member (Nominated by HOI) | 9560160676 |                                     |
| 5       | Ms. Pratibha Mandage  | Member (Nominated by HOI) | 9860902550 |                                     |

Frequency of Meetings: Two meetings, preferably in different trimesters.

Quorum: Minimum  $\frac{2}{3}$  members to be present.

#### **Students Grievance Redressal Committee**

The Student Grievance Committee at Lexicon MILE provides a forum for students to express their grievances relating to all their academic and non-academic matters. This committee has

been established to ensure that student concerns are addressed in a structured and fair manner. The committee's functions have included the following:

### Student Grievance Redressal Committee Functions

- **Providing a forum for students:** The committee has offered a platform for students to express their grievances concerning all academic and non-academic matters, ensuring that their concerns are heard and considered.
- **Imparting objectivity and fairness:** By considering grievances with a degree of objectivity and fair play, the committee has ensured that all issues are addressed justly and without bias.
- **Ensuring prompt consideration and decision-making:** The committee has strived to address grievances promptly, ensuring that students receive timely resolutions to their concerns.
- **Encouraging participative governance:** The committee has promoted a participative governance model where students are free to put forward their suggestions before management and engage in open discussions about them.

Through these measures, the Student Grievance Committee at Lexicon MILE has established a robust system to address and resolve student grievances, aligning with the institute's Vision and Mission Statements.

As per All India Council for Technical Education guidelines mentioned in APH 24-27 for establishment of **Student Grievance Redressal Committee**.

The Student Grievance Redressal Committee is reconstituted w.e.f. 8<sup>th</sup> January 2026 for the Academic Year 2025-2026 as under:

| Sr. No . | Name of the Member    | Category                  | Mobile No. | Email Address                                   |
|----------|-----------------------|---------------------------|------------|---|
| 1        | Dr. Raju Varghese     | Chairman                  | 9325019055 |   |
| 2        | Dr. Prajakta Yawalkar | Member (Nominated by HOI) | 8830864736 |   |
| 3        | Mr. Harshal Kamble    | Member (Nominated by HOI) | 8087140783 | studentgrievancedressalcommittee@mile.education |

| 6        | Mr. Rohit             | Special Invitee           | 9588620508 |   |

|   |                  |                                    |            |  |
|---|------------------|------------------------------------|------------|--|
|   | Keshawat         | (Nominated by HOI)                 |            |  |
| 7 | Ms. Anusha Kanna | Special Invitee (Nominated by HOI) | 7666847518 |  |

Frequency of Meetings: Two meetings, preferably in different trimesters.

Quorum: Minimum  $\frac{2}{3}$  members to be present.

### **Internal Quality Assurance Cell (IQAC)**

The Internal Quality Assurance Cell (IQAC) at Lexicon MILE has taken on the responsibility of auditing internal operational processes. The primary objective has been to standardize and ensure compliance with academic and administrative processes for the institute's smooth functioning. The IQAC has reviewed performance to achieve the quality envisioned in the quality policy, which states:

"To pursue standards of excellence in all our endeavors namely teaching, research, consultancy, and continuing education, and to remain accountable in our core and support functions through processes of self-evaluation and continuous improvement."

The purpose of the committee has been to continuously monitor and periodically review or audit all processes relevant to governance at Lexicon MILE and to advocate further action or deliberation as needed. The Board of Governors is informed about the IQAC's deliberations. The activities of the cell have been coordinated by an internal faculty member.

### **Functions of IQAC**

- Standardizing Processes: The IQAC focuses on standardizing both academic and administrative processes currently operated in the institute to ensure smooth functioning.
- Periodic Reviews and Audits: The IQAC periodically reviews and audits all processes relevant to governance at Lexicon MILE, providing recommendations for further action or deliberation as needed.
- Supporting the Board of Governors: The IQAC aids the Board of Governors in formulating teaching-learning objectives, program outcomes, policies, and other forms of planning.
- Holding Periodic Reviews: The IQAC holds periodic reviews of all working processes, including the functioning of committees, to ensure ongoing improvement and adherence to standards.
- Supervising Activities: The IQAC exercises supervision over the institute's activities by ensuring periodic meetings with all internal stakeholders, led by the Director and Faculty, to improve and develop functions as stated in its SOP.
- Stakeholder Interaction: The IQAC interacts with stakeholders of Lexicon MILE from time to time to gather feedback and ensure their needs are met.
- Planning and Monitoring Budgets: The IQAC plans and monitors the budget and its consumption for effective utilization of resources.

- Forwarding Recommendations: The IQAC forwards recommendations and observations to the Chairperson for appraising the Board of Governors.
- Maintaining Records: The IQAC maintains records of actions taken or to be taken for review, ensuring accountability and transparency in its operations.

Through these functions, the IQAC at Lexicon MILE has consistently worked towards maintaining high standards of quality in all aspects of the institute's operations, in alignment with its Vision and Mission Statements.

### 2.1.1.2. Service Rules (10)

The Service Rules of Lexicon MILE are approved and mandated by the Board of Governors of Lexicon MILE and employees are made aware of these. Compliance of these rules are regulated

at various stages of employment at each level. The approved copy of the Service Rules of Lexicon MILE is made available at the Office of Registrar, Lexicon MILE, and provided for perusal within the Intranet network for faculty and employees.

### **2.1.1.3. Policies (5)**

At Lexicon MILE Institute, the **Leave Policy** is designed to provide employees participating in the PGDM program with flexibility and support to manage their personal and professional commitments effectively. This policy outlines various types of leave such as annual leave, sick leave, and maternity leave, along with the procedures for requesting and approving leave. It also details the eligibility criteria, accrual rates, and any restrictions or special considerations. Additionally, it may include provisions for compensatory time off and the process for carryover or encashment of unused leave days. By ensuring clarity and fairness in leave administration, this policy contributes to employee satisfaction and well-being while maintaining operational efficiency.

**The Probation Policy** at Lexicon MILE Institute establishes a structured framework for assessing the performance and suitability of newly hired employees during the probationary period. This policy defines the duration of probation, performance expectations, and evaluation criteria. It also outlines the support and feedback mechanisms available to probationary employees to facilitate their professional development and integration into the institute. Additionally, it may specify the conditions under which probation can be extended or terminated, ensuring transparency and fairness in the process. By setting clear expectations and providing guidance for both supervisors and probationary employees, this policy supports effective talent management and organizational success.

**The Onboarding Policy** plays a crucial role in ensuring a smooth and productive transition for new employees joining the PGDM program at Lexicon MILE Institute. This policy encompasses a comprehensive orientation process that familiarizes new hires with the institute's culture, values, policies, and procedures. It may include information on employee induction programs, orientation schedules, and resources available to support new employees during their initial days. Additionally, it outlines the roles and responsibilities of various stakeholders involved in the onboarding process, such as HR personnel, supervisors, and mentors. By facilitating early engagement and integration, this policy contributes to higher employee satisfaction, faster time-to-productivity, and improved retention rates.

**The Discipline Policy** at Lexicon MILE Institute provides guidelines and procedures for addressing misconduct, violations of institute policies, and performance issues among employees in the PGDM program. This policy establishes a fair and consistent approach to disciplinary actions, including warnings, counseling, and progressive disciplinary measures. It also outlines the rights of employees to due process and appeal mechanisms in disciplinary proceedings. Additionally, it may include provisions for rehabilitation, training, or support services to help employees improve their behavior or performance. By promoting accountability and maintaining a positive work environment, this policy contributes to upholding institute standards and fostering a culture of professionalism and mutual respect.

**The Performance Policy** at Lexicon MILE Institute establishes the framework for assessing, recognizing, and rewarding the contributions of employees participating in the PGDM program.

This policy defines performance expectations, evaluation criteria, and performance review processes. It may include provisions for goal setting, feedback mechanisms, and performance appraisal techniques such as self-assessment, peer review, and supervisor evaluations. Additionally, it may outline the criteria and procedures for merit-based promotions, bonuses, or other forms of recognition. By aligning individual performance with organizational goals and values, this policy supports continuous improvement, employee engagement, and organizational success.

**The Policy Related to Compensatory Offs, Working Hours, and Saturday Working** at Lexicon MILE Institute is established to regulate employee schedules and ensure operational efficiency while maintaining work-life balance. The Compensatory Off policy outlines the procedures for compensating employees for overtime work or work on designated holidays through time off in lieu. Similarly, the Working Hours policy specifies the standard work hours, break schedules, and any flexibility arrangements available to employees. Additionally, the Saturday Working policy, if applicable, defines the terms and conditions for employees required to work on Saturdays, including compensation and scheduling considerations. By providing clarity on these aspects, this policy promotes fairness and consistency in workforce management while addressing employees' needs for rest and recreation.

**The Equal Opportunity Policy** at Lexicon MILE Institute underscores the commitment to creating a diverse, inclusive, and equitable environment for all participants in the PGDM program. This policy advocates equal treatment and opportunities regardless of gender, race, ethnicity, religion, disability, or other protected characteristics. In the context of gender neutrality, the Equal Opportunity Policy aims to eliminate discrimination and bias in recruitment, hiring, promotion, and other employment practices. It also includes measures to address gender disparities in pay, representation, and career advancement. By fostering a culture of respect, diversity, and meritocracy, this policy contributes to a positive work environment where all individuals can thrive and contribute their fullest potential.

**HR Policy** under the legal framework at Lexicon MILE Institute ensures compliance with relevant laws, regulations, and statutory requirements governing employment practices and labor relations. This policy encompasses a range of legal considerations such as labor laws, employment contracts, data protection regulations, and health and safety standards. HR Policy under the Legal Framework provides guidance on issues such as recruitment procedures, employee classifications, wage and hour regulations, and workplace accommodations. Additionally, it may outline the institute's obligations and responsibilities as an employer, as well as the rights and protections afforded to employees. By adhering to legal standards and best practices, this policy mitigates legal risks and upholds the rights and interests of both the institute and its employees.

**The Code of Conduct Policy** at Lexicon MILE Institute establishes ethical principles, standards of behavior, and expectations for professional conduct for all individuals participating in the PGDM program. This policy articulates core values such as integrity, honesty, respect, fairness, and accountability that guide interactions within the institute community. The Code of Conduct outlines prohibited behaviors such as discrimination, harassment, fraud, conflicts of interest, and unethical practices. It also delineates the reporting mechanisms and consequences for violations

of the code, including disciplinary actions up to and including termination of enrollment or employment. By promoting a culture of integrity and ethical behavior, the Code of Conduct Policy fosters trust, credibility, and mutual respect among all stakeholders at Lexicon MILE Institute.

**The Employee Benefit Policy** at Lexicon MILE Institute is designed to enhance the overall well-being, satisfaction, and engagement of employees participating in the PGDM program. This policy encompasses a range of benefits such as health insurance, retirement plans, paid time off, wellness programs, and professional development opportunities. Employee Benefit Policy provides details on eligibility criteria, enrollment procedures, coverage options, and any cost-sharing arrangements. It also communicates the institute's commitment to supporting employees' physical, mental, and financial wellness. By offering competitive and comprehensive benefits, this policy attracts and retains top talent, promotes employee loyalty and productivity, and contributes to a positive organizational culture focused on employee care and support.

**The Exit Policy** at Lexicon MILE Institute outlines the procedures and requirements for employees leaving the PGDM program, whether due to resignation, termination, or completion of contract. This policy specifies the steps employees must follow to resign or provide notice, including any documentation or clearance procedures. Exit Policy also addresses issues such as return of company property, settlement of dues, and exit interviews to gather feedback and insights for continuous improvement. By ensuring a systematic and respectful exit process, this policy supports smooth transitions for departing employees while safeguarding the institute's interests and maintaining positive relationships.

**The Gate Pass Policy** at Lexicon MILE Institute governs the issuance and use of gate passes for access to institute premises by employees, students, visitors, and other authorized individuals. This policy establishes the criteria and procedures for requesting gate passes, including identification requirements and approval processes. Gate Pass Policy also defines the purposes for which gate passes may be issued, such as attendance at events, meetings, or official business. Additionally, it outlines the responsibilities of individuals holding gate passes, including compliance with institute rules.

**Leaves for Office Assistants** at Lexicon MILE Institute recognize the importance of supporting the well-being and work-life balance of office assistants who play essential roles in administrative and support functions. This policy specifies the types of leave available to office assistants, such as annual leave, sick leave, and special leave. It also outlines the procedures for requesting and approving leave, including advance notice requirements and documentation procedures. Additionally, Leave for Office Assistants may address provisions for compensatory time off or flexible work arrangements to accommodate their workload and responsibilities. By providing adequate leave benefits, this policy promotes job satisfaction, productivity, and retention among office assistants, contributing to overall organizational effectiveness.

**Policy for Recruitment, Selection, and Training for Teachers** at Lexicon MILE Institute ensures the recruitment of qualified and competent faculty members who uphold the institute's academic standards and contribute to student success in the PGDM program. This policy outlines the recruitment process, including job postings, application screening, interviews, and selection criteria. Recruitment, Selection, and Training Policy also address the orientation and training

programs available to new faculty members to familiarize them with institute policies, curriculum, teaching methodologies, and student support services. Additionally, it may include provisions for ongoing professional development and performance evaluation for teachers. By investing in effective recruitment and training practices, this policy supports the delivery of high-quality education and fosters a culture of excellence in teaching and learning.

**The Employee Service Rule Book** at Lexicon MILE Institute serves as a comprehensive guidebook for employees participating in the PGDM program, providing information on their rights, responsibilities, entitlements, and expectations. This rule book covers a wide range of topics such as employment terms and conditions, code of conduct, disciplinary procedures, leave policy, benefits, and grievance redressal mechanisms. Employee Service Rule Book also communicates the institute's mission, values, and vision, reinforcing a sense of belonging and alignment with organizational goals. Additionally, it may include relevant legal and regulatory information to ensure compliance and mitigate risks. By centralizing important policies and information, the Employee Service Rule Book promotes transparency, consistency, and fairness in employee relations at Lexicon MILE Institute.

**Service Rules** at Lexicon MILE Institute provide updates and revisions to HR policies and procedures for the respective years, reflecting changes in organizational needs, regulatory requirements, and industry standards. These service rules outline any amendments or additions to existing policies, such as leave entitlements, performance evaluation criteria, and benefits packages. They may also introduce new policies or initiatives aimed at enhancing employee engagement, well-being, and productivity. Additionally, Service Rules for 2019 & 2020 clarify any transitional arrangements or clauses for existing employees affected by policy changes. By keeping employees informed about the latest policies and practices, these service rules promote compliance and alignment with institute objectives, fostering a culture of continuous improvement and adaptability.

**The Travel Policy** at Lexicon MILE Institute governs employee travel for official purposes, ensuring compliance with budgetary constraints, safety regulations, and operational requirements. This policy outlines the procedures for requesting and approving travel, including pre-authorization requirements, travel booking procedures, and expense reimbursement guidelines. Travel Policy also addresses issues such as travel insurance, per diem allowances, and travel documentation requirements. Additionally, it may provide guidance on travel safety protocols, emergency procedures, and protocols for international travel. By establishing clear guidelines and expectations, Travel Policy supports efficient and cost-effective travel arrangements while ensuring the safety and well-being of employees during their journeys.

**The Dress Code Policy** at Lexicon MILE Institute defines the standards of attire expected from employees participating in the PGDM program, reflecting the institute's professional image and culture. This policy specifies appropriate dress codes for different settings such as classrooms, offices, meetings, and events. Dress Code Policy may include guidelines on attire colors, styles, accessories, and grooming standards. It also addresses special dress requirements for occasions such as presentations, interviews, or formal functions. Additionally, Dress Code Policy communicates expectations regarding personal hygiene, cleanliness, and adherence to cultural sensitivities. By promoting a professional appearance, Dress Code Policy contributes to creating

a positive impression, maintaining discipline, and fostering a conducive learning and working environment at Lexicon MILE Institute.

**The Gift Policy** at Lexicon MILE Institute establishes guidelines for giving and receiving gifts among faculty, staff, students, and external stakeholders involved in the PGDM program. This policy outlines acceptable practices to ensure transparency, integrity, and compliance with ethical standards. It may specify the types of gifts permitted, monetary limits, disclosure requirements, and procedures for seeking approval or reporting gifts received. Additionally, the Gift Policy emphasizes the importance of avoiding conflicts of interest and undue influence in professional relationships. By promoting accountability and maintaining ethical conduct, this policy safeguards the institute's reputation and fosters trust among stakeholders.

**Library Rules and Policy** at Lexicon MILE Institute governs the use of library resources and facilities to support academic research, teaching, and learning activities in the PGDM program. These rules outline guidelines for borrowing, returning, and renewing library materials, as well as accessing electronic resources and databases. Library Rules and Policy also address issues such as noise levels, study room reservations, and copyright compliance. Additionally, they may include procedures for interlibrary loan services, lost or damaged items, and code of conduct expectations for library users. By ensuring equitable access to information and maintaining a conducive learning environment, this policy enhances the effectiveness of the institute's library services.

**The Prevention of Sexual Harassment Policy** at Lexicon MILE Institute underscores the institute's commitment to providing a safe and respectful environment free from harassment, intimidation, and discrimination. This policy defines sexual harassment, including verbal, non-verbal, and physical conduct of a sexual nature, and prohibits such behavior in any form. It outlines procedures for reporting complaints, conducting investigations, and imposing disciplinary actions against perpetrators of sexual harassment. Additionally, the Prevention of Sexual Harassment Policy includes provisions for awareness training, support services for victims, and confidentiality safeguards. By fostering a culture of zero tolerance for sexual harassment, this policy promotes dignity, equity, and inclusion for all members of the institute community.

**The Communication Guideline Policy** at Lexicon MILE Institute provides guidelines and best practices for effective communication among faculty, staff, students, and external stakeholders involved in the PGDM program. This policy addresses various modes of communication, including email, phone calls, meetings, and written correspondence. Communication Guideline Policy may specify protocols for professional etiquette, confidentiality, and data security when communicating sensitive information. It also encourages clarity, brevity, and respect in all communications to minimize misunderstandings and promote constructive dialogue. Additionally, this policy may include guidelines for using communication technologies and platforms effectively. By promoting clear and professional communication practices, this policy enhances collaboration, productivity, and relationship-building within the institute community.

**The Social Media Policy** at Lexicon MILE Institute establishes guidelines for faculty, staff, students, and the institute's official social media accounts to maintain a positive and professional online presence. This policy outlines expectations for responsible use of social media platforms,

including privacy settings, content moderation, and adherence to institute values and policies. It may provide guidance on representing the institute accurately and respectfully in online interactions, avoiding offensive or inflammatory content, and protecting confidential information. Additionally, the social media policy addresses issues such as copyright infringement, cyberbullying, and reputation management. By promoting responsible social media usage, this policy helps safeguard the institute's brand reputation and integrity.

**The Media Interaction and Engagement Policy** at Lexicon MILE Institute govern interactions with the media and external stakeholders to ensure consistent messaging, accurate representation, and positive public relations for the PGDM program. This policy outlines procedures for responding to media inquiries, granting interviews, and participating in public events or press conferences. Media Interaction and Engagement Policy may designate official spokespersons or media liaisons responsible for coordinating media relations activities. Additionally, it may provide guidelines for preparing press releases, media kits, and other communication materials. By maintaining control over media interactions and messaging, this policy helps protect the institute's reputation and promote its strategic goals and initiatives.

**The Prevention of Corrupt Practices Policy** at Lexicon MILE Institute underscores the institute's commitment to integrity, transparency, and ethical conduct in all its activities and dealings. This policy prohibits bribery, extortion, fraud, and other forms of corrupt behavior, whether involving institute personnel, students, vendors, or other stakeholders. It outlines procedures for reporting suspected corrupt practices, conducting investigations, and imposing disciplinary actions against violators. Additionally, the Prevention of Corrupt Practices Policy includes measures to raise awareness, provide training, and establish internal controls to prevent corruption. By upholding high ethical standards, this policy protects the institute's reputation, fosters trust, and ensures compliance with legal and regulatory requirements.

**The Covid-19 Policy** at Lexicon MILE Institute outlines measures and protocols to mitigate the risks associated with the Covid-19 pandemic and ensure the health and safety of everyone involved in the PGDM program. This policy aligns with guidelines from health authorities and government regulations and addresses issues such as hygiene practices, social distancing, face mask requirements, and sanitation protocols. Covid-19 Policy may include procedures for symptom screening, testing, contact tracing, and quarantine or isolation protocols for suspected or confirmed cases. Additionally, it may provide guidance for remote learning, flexible work arrangements, and contingency planning for disruptions caused by the pandemic. By prioritizing health and safety, this policy supports the continuity of academic and administrative operations while minimizing the spread of Covid-19.

**The Hostel Policy** at Lexicon MILE Institute governs the rules and regulations for students residing in institute-hosted accommodation facilities as part of the PGDM program. This policy covers various aspects of hostel life, including accommodation allocation, room occupancy, and roommate assignments. Hostel Policy also outlines expectations for behavior, noise levels, cleanliness, and safety within the hostel premises. Additionally, it may address issues such as curfew hours, guest visitation policies, and restrictions on alcohol or substance use. By providing clear guidelines and expectations, this policy creates a conducive and secure living environment that promotes students' well-being, academic focus, and personal development during their stay.

at the institute.

**The Travel Allowance Policy** at Lexicon MILE Institute governs the reimbursement of travel expenses incurred by faculty, staff, or students traveling for official institute-related purposes as part of the PGDM program. This policy specifies eligible travel expenses such as transportation, accommodation, meals, and incidentals, as well as the documentation requirements for reimbursement claims. Travel Allowance Policy may establish per diem rates, mileage allowances, and other reimbursement limits based on the destination and duration of travel. Additionally, it may outline procedures for obtaining advance travel approval, submitting expense reports, and processing reimbursement requests in a timely manner. By providing equitable and transparent guidelines for travel expenses, this policy ensures responsible use of institute funds while facilitating necessary travel for academic and professional purposes.

#### **2.1.1.4. Strategic Plan (5)**

Strategic plans have formed an essential component for accomplishing the vision and mission at Lexicon MILE, constituting both long-term and short-term goals. These goals have been framed to achieve a long-term perspective of about five years. The Board of Governors has taken the prerogative for strategic planning, and its precepts have flowed from that body, normally revolving around the following aspects:

- **Expanding educational facilities** to provide education to a larger section of the population. This involves developing new campuses and enhancing existing ones to accommodate more students. The goal is to increase accessibility to high-quality education for diverse demographics. Furthermore, there is an emphasis on incorporating advanced educational technologies to improve learning outcomes. Continuous improvement of faculty and staff facilities is also prioritized to support the expanding student body.
- **Providing immersion and exposure** for students and faculty. Lexicon MILE has established partnerships with global institutions to facilitate student and faculty exchanges. This exposure helps students gain a broader understanding of global business practices and cultures. Faculty members are encouraged to participate in international conferences and research collaborations. These initiatives aim to foster a global perspective within the campus community.
- **Seeking accreditation** for the programs. Obtaining national accreditations ensures that Lexicon MILE meets high educational standards. The process involves rigorous evaluations of curricula, faculty qualifications, and institutional resources. Accreditation not only enhances the institute's reputation but also improves student recruitment and employability. Continuous monitoring and updating of programs are conducted to maintain these standards.
- **Maximizing student employment** opportunities. Lexicon MILE focuses on building strong industry connections to enhance placement prospects for graduates. Career services are continuously upgraded to offer better guidance and resources to students. Internship programs are expanded to provide practical experience in relevant industries.

Workshops and seminars with industry leaders are regularly conducted to keep students updated with current market trends.

- Offering admissions to weaker sections of society through reservation policies and scholarships. The institute is committed to **promoting inclusivity** by providing financial assistance and reserved seats for underprivileged students. Scholarship programs are regularly reviewed and enhanced to support deserving candidates. Outreach programs are conducted to raise awareness about these opportunities among marginalized communities. Special mentoring programs are also established to help these students succeed academically.
- Facilitating **interface between academics and industry**. Lexicon MILE has developed robust platforms for interaction between students, faculty, and industry professionals. Industry experts are invited as guest lecturers to bridge the gap between theoretical knowledge and practical application. Collaborative projects and research with industry partners are encouraged to provide real-world experience. Regular feedback from industry stakeholders helps in updating and refining academic programs.
- Providing **quality infrastructure** to train students in the use of contemporary technology and business processes. State-of-the-art laboratories, libraries, and classrooms are established to support advanced learning. Investments are made in modern software and tools that are relevant to current business practices. Regular upgrades and maintenance ensure that the infrastructure meets the evolving needs of students and faculty. Simulation labs and innovation hubs are also created to foster creativity and hands-on learning.
- **Sensitizing students** towards their responsibility to society and the community. Community service programs and social responsibility projects are integral parts of the curriculum. Students are encouraged to participate in initiatives that address social issues and contribute positively to the community. Workshops and seminars on ethical practices and social responsibility are regularly conducted. These activities aim to develop a sense of civic duty and empathy among students.
- Giving **impetus to research** and increasing quality research publications. The institute has established research centers dedicated to various fields of study. Faculty and students are encouraged to undertake research projects that contribute to academic and industry knowledge. Financial and infrastructural support is provided for high-quality research activities. Efforts are made to publish research findings in reputable journals and present them at international conferences.

Long-term goals have guided the team at Lexicon MILE to plan short-term goals to achieve the precedents indicated by long-term planning. Lexicon MILE has engaged in progression planning, and its implementation has been reviewed annually for progress and revision if necessary. The last plan had been envisaged in August 2019, and the current plan under consideration was established in August 2023.

### 2.1.2. Faculty Empowerment (15)

### 2.1.2.1. Faculty Development Policies (5)

Faculty Development Policy at Lexicon MILE PGDM aims to assist faculty members in improving performance in teaching, scholarly activity, and consultancy service. The various administrative officers implemented the Faculty Development Policy at Lexicon MILE PGDM. Such development plans are supported by Lexicon MILE PGDM and may include provisions for travel, teaching improvement activities, alternate work from teaching, assistance in proposing and conducting unpaid research, support for publication, consulting and management development programs, computer access, and other such institutional support as may be reasonably expected to enhance faculty development. The objective of this policy is to further the goals of Lexicon MILE PGDM towards education and dissemination of knowledge through research and development, which engages in the following initiatives:

1. Fostering continued development and excellence of the faculty.
2. Aiding the administration at Lexicon MILE PGDM in understanding the motivations, strengths, accomplishments, goals, and plans of individual faculty members.
3. Furtherance of communication and understanding between the faculty and department.

**Implementation of Faculty Development on Campus:** Lexicon MILE PGDM has an administrative hierarchy designed to thoroughly understand the faculty's motivations, strengths, and interests. This comprehensive understanding aids in planning the Faculty Development Program (FDP) at both the department and institute levels. The following points detail the methods by which faculty development is undertaken:

1. **Academic Planning Context:** Faculty members are encouraged to understand the academic planning context within their department, which is crucial for building teaching quality. This transparency in the Faculty Development process allows for the identification of specific development needs, fostering both individual growth and the cohesive development of each department. By aligning personal goals with departmental objectives, faculty members can contribute more effectively to the overall mission of Lexicon MILE PGDM.
2. **Role of the HOD:** The Head of Department (HOD) is accountable for encouraging and facilitating the development of faculty members within the department. The HOD and their team work diligently to achieve excellence in research and teaching. This involves identifying opportunities for professional growth, providing resources for development, and supporting faculty members in their scholarly and teaching endeavors.
3. **Non-Coercive Policy:** The current policy and its implementation are non-coercive, ensuring that the freedom of each faculty member to pursue their individual goals is respected. Faculty members are encouraged to set their own objectives and work towards them without feeling pressured, which fosters a supportive and empowering environment for professional growth.
4. **Self-Assessment:** Self-assessment is a vital component of identifying the training needs of faculty members. By reflecting on their own strengths and areas for improvement, faculty can tailor their development plans to meet their specific needs. This process

ensures that the training provided is relevant and effective, leading to continuous improvement in teaching and research capabilities.

5. **Aligning Needs:** The needs of both the department and the institution are assimilated to ensure that talent is nurtured according to the teaching and learning requirements on campus. This alignment ensures that faculty development is not only beneficial for individual members but also contributes to the strategic goals of Lexicon MILE PGDM, enhancing the overall educational environment.
6. **Training Hours:** A minimum number of training hours is suggested for each faculty member. This ensures that all faculty engage in continuous professional development, staying updated with the latest teaching methods and research advancements. Regular training helps maintain high standards of education and fosters a culture of lifelong learning.
7. **Faculty Coach:** A faculty coach is available for those who wish to have a mentor to address personal challenges in teaching. This mentorship provides personalized support, helping faculty members overcome obstacles and enhance their teaching effectiveness. The faculty coach offers guidance, feedback, and encouragement, contributing to overall professional growth.
8. **Development Budgets:** Budgets are allocated for each faculty member to identify and participate in programs that aid in their development. This financial support enables faculty to attend conferences, workshops, and other professional development activities that enhance their skills and knowledge, benefiting both their personal growth and the institution.
9. **Further Qualifications:** Pursuing further qualifications, such as a Ph.D., is encouraged and facilitated by providing official research time off. This support allows faculty members to advance their academic credentials without compromising their teaching responsibilities, fostering a culture of continuous academic advancement.
10. **Promotions and Salary:** Promotions and salary variations are based on achieving higher qualifications. This policy rewards faculty members for their commitment to professional growth and academic excellence, motivating them to pursue advanced degrees and certifications that enhance their teaching and research capabilities.
11. **Research Publications:** Publications in research journals are highly encouraged, and faculty recognition for publication are established through annual cash awards. This incentive motivates faculty members to engage in high-quality research and contribute to the academic community, enhancing the reputation of Lexicon MILE PGDM.
12. **Research Compendium:** All published papers are bound and presented in a compendium, titled 'Lexipedia', for reference, review, and critique by faculty colleagues and students. This practice promotes scholarly dialogue and continuous improvement, providing a valuable resource for ongoing research and teaching development.
13. **Sabbatical Leave:** Sabbatical leave, with provisions for educational leaves, represents a major form of faculty development. These leaves are not granted automatically;

considerations for approval include the totality of circumstances surrounding the requests. Sabbatical leave allows faculty members to engage in in-depth research or study, returning with enhanced knowledge and expertise that benefit the entire institution.

### 2.1.2.2. Decentralization, delegation of Power and Collective Decision Making (10)

**Delegation of Power and Collective Decision Making:** At Lexicon MILE PGDM, a structured governance system is organized and managed to facilitate administrative decisions. Lexicon MILE PGDM promotes decentralization by distributing or delegating the activities of the institute, particularly regarding planning, execution, and decision-making, away from the central office of the Director. This decentralization encourages a participative form of governance, which enhances internal stakeholder satisfaction and the team's competence.

**Structured Framework for Administration:** Decentralization has led to the creation of a structured framework for administration at Lexicon MILE PGDM. Procedures for accomplishing decentralization are established through the formation of various committees. These committees contribute significantly to the overall effectiveness of the institute and are crucial for Lexicon MILE PGDM's ability to meet its objectives. By involving faculty members in these committees, the institute ensures a broad base of input and shared responsibility in decision-making processes.

**Role of the Director and Committees:** At the execution level, the Director oversees the planned activities through the various committees and councils formed for specific administrative purposes. The Director, by virtue of their position, heads or participates in the committees, ensures they are well-informed about the ongoing activities within the institute. This oversight enables effective monitoring of all activities across different levels of the hierarchy, fostering a cohesive and well-coordinated approach to administration.

**Policies and Standard Operating Procedures (SOPs):** The councils and committees are composed primarily of faculty members and are guided by policies and standard operating procedures (SOPs). These SOPs assist in the execution of activities to achieve the objectives for which the committees have been established. The structured approach provided by the SOPs ensures consistency and clarity in the execution of tasks, enhancing the efficiency and effectiveness of the committees.

**Budget Allocation and Utilization:** Committees are allocated funds based on the budgetary requirements of each activity. The involved teams are given the liberty to utilize these funds to achieve the established outcomes for their respective activities. This financial autonomy empowers committees to make timely and effective decisions, driving innovation and responsiveness within their areas of responsibility.

**Annual Reviews:** Reviews at the end of the academic year are conducted to measure the effectiveness of the performing teams in each committee. These reviews provide valuable feedback and insights, helping to assess the success of the committees in achieving their objectives. The findings from these reviews are used to make informed decisions about future plans and improvements, ensuring continuous enhancement of the governance system at Lexicon MILE PGDM.

### Financial and Administrative Powers at Lexicon MILE PGDM

At Lexicon MILE PGDM, financial and administrative powers are delegated to the Director, Heads of Department (HOD), and relevant in-charges. The Director of Lexicon MILE PGDM, by virtue of being the principal office for governance, coordinates the implementation of policies and procedures, suggests functioning committees, and propose budgets to facilitate the institution's operations and governance. This authority includes both financial and administrative powers, which the Director delegates to HODs and relevant faculty in-charges, enabling them to execute their assigned administrative responsibilities and manage associated financial allocations.

**Participative Governance and Decentralization:** Lexicon MILE PGDM encourages a participative form of governance to enhance internal stakeholder satisfaction and team competence. Decentralization has resulted in a structured framework for administration, where procedures are established through the formation of various committees. These committees, primarily composed of HODs and faculty members, operate under policies and standard operating procedures (SOPs) that guide their activities. Committees are allocated funds based on the budgetary requirements of each activity, granting them the autonomy to plan and utilize these funds effectively, adhering to established disbursement procedures.

**Annual Budgetary Planning:** Annual budgetary plans are developed for all activities essential to the effective functioning of the institute, involving HODs, faculty, and staff. The following points outline the essence of the financial and administrative powers delegated to the Heads of Department and relevant in-charges:

- Budget Submission:** Relevant faculty in-charges and administrative in-charges must submit their budgetary requirements to the Director's office within specified time schedules. This process ensures that all financial needs are identified and considered in a timely manner.
- Supplementary Budgets:** Additional budgets are allocated to activities based on their supplementary value. This means that activities demonstrating significant value addition are given extra financial support to enhance their impact.
- Director's Discussions:** The Director holds discussions with relevant faculty in-charges and HODs regarding the administrative and budgetary allocations submitted. These discussions ensure that the budget allocations align with the institute's strategic goals and operational needs.
- Assessment of Past Trends:** Past trends in budget utilization serve as an important criterion for assessing the impact of previously utilized budgets and making provisions for future activities. This assessment helps in making informed decisions about budget allocations.
- Execution and Implementation:** Once the viability of administrative and financial allocations is ascertained, the execution and implementation of the activities are initiated. This ensures that all planned activities are carried out efficiently and effectively.

**Budgets for Teaching and Learning:** The Director and HODs are provided with the lien to propose budgets for executing teaching and learning activities on campus, which include:

1. **Industry Involvement:** Involving industry professionals to impart knowledge through sessions, workshops, and projects. This engagement ensures that students receive practical insights and up-to-date industry knowledge.
2. **Faculty Appointments:** Requisitioning appointments for relevant full-time faculty and visiting faculty. This ensures that the institute has the necessary teaching staff to deliver quality education.
3. **Teaching Tools and Pedagogy:** Planning budgets for various teaching tools and pedagogical methods to enhance the learning experience. This includes investing in innovative teaching technologies and methodologies.
4. **Industry Visits and Research Initiatives:** Organizing industry visits, study tours, and research-related initiatives for students and staff. These activities provide experiential learning opportunities and foster a culture of research.
5. **Faculty Development:** Ensuring adequate budgets for faculty development and research work. This supports the continuous professional growth of faculty members and their engagement in research activities.

**Committee and Administrative Budgets:** Faculty in charge of committees and other administrative initiatives can propose budgets for executing and implementing their plans. These allocations are based on the presentation of detailed plans and the demonstrated need for financial support.

**Control and Review:** Controls are built into the system for administrative implementation and financial utilization through periodic reviews of progress. These reviews help to monitor the effectiveness of the activities and ensure that financial resources are being used efficiently. This continuous monitoring and evaluation process ensures accountability and fosters continuous improvement in the administration and governance of Lexicon MILE PGDM.

### Decision Making on Strategic Development and Resourcing

The strategic development and resourcing at Lexicon MILE PGDM are deliberated by the Board of Governors based on available educational resources. Progressive planning translates strategic objectives into a realistic mix of programs, activities, and priorities. Achievements in pursuit of these strategic objectives are demonstrated by observing budgetary allocation across various elements. The following outlines the procedure for decision-making on resourcing for strategic development and educational provisions:

1. **Identifying Developmental Initiatives:** The Board of Governors advocates for the institution's futuristic advancement regarding aspects such as student intake progression, infrastructure provision, and overall quality and positioning. Identifying these developmental aspects is the initial step in the decision-making process for strategic development and resources. This includes assessing the long-term benefits for the institution and its stakeholders.

2. **Relevance to Stakeholders:** Developmental aspects are determined with clear foresight on their relevance to concerned stakeholders. For instance, increasing student intake at Lexicon MILE PGDM is considered from the perspective of providing education to a larger number of students and enhancing their employability. Financial feasibility is also considered to ensure the sustainability of such decisions, balancing growth with available resources.
3. **Value Judgment and Information Access:** The management body makes value judgments by determining access to relevant information, understanding the people and processes involved, and identifying any constraints on decision-making. This comprehensive analysis ensures that all factors are considered before proceeding with strategic initiatives.
4. **Solution Development and Prioritization:** Once the relevance of a decision is clearly understood, various solutions are explored concerning program provision, recruitment, brand communication, and activity choices. Establishing priorities helps in selecting the most viable and impactful solutions for implementation.
5. **Budgetary Allocation:** Budgetary allocation for different elements is a critical consideration for successful program implementation and operation. Ensuring that financial resources are distributed effectively supports the strategic objectives and operational needs of Lexicon MILE PGDM.
6. **Implementation Planning and Review:** A detailed implementation plan is created, and regular reviews are conducted to evaluate the decision's effectiveness. Strategic plans are assessed, and budgetary allocations are set aside for executing these plans. This ongoing evaluation helps in making necessary adjustments and improvements.
7. **Annual Budgetary Planning:** Annual budgetary plans are developed involving HODs, faculty, and staff to cover all activities essential for the effective functioning of the institute. This collaborative approach ensures that all relevant needs are considered and funded appropriately.
8. **Assessment of Past Trends:** Past trends in budget utilization serve as a critical criterion for assessing the impact of previous budgets and informing future provisions. This analysis helps in making data-driven decisions for better financial management.
9. **Budget Draft and Approval:** The final draft of the budget is prepared and presented to the central accounts department of The Lexicon Group Trust before the start of the financial year. After approval from the Chief Managing Trustee's office, the budget is presented to the Board of Governors at Lexicon MILE PGDM for dissemination.
10. **Fund Distribution:** The sanctioned budget is distributed across the financial year to ensure adequate funds are available as needed on campus. This phased approach supports continuous and smooth operation.
11. **Periodic Reviews:** Effective control over budgetary allocation and utilization is maintained through periodic reviews submitted by Lexicon MILE PGDM to The Lexicon

Group Trust's accounts department. These reviews ensure transparency, accountability, and efficient use of financial resources.

This comprehensive approach to strategic development and resourcing ensures that Lexicon MILE PGDM can achieve its objectives effectively, fostering growth and maintaining high standards of education and administration.

### **2.1.3. Effective Governance Indicators (15)**

#### **2.1.3.1. Grievance Redressal Mechanism (2)**

##### **Grievance Redressal Policy at Lexicon MILE PGDM**

The Grievance Redressal Policy at Lexicon MILE PGDM aims to provide a constructive platform for employees and students to voice their complaints and suggestions. This policy encourages feedback from all stakeholders to proactively resolve any operational hindrances on campus. Lexicon MILE PGDM employs a fair grievance procedure managed by the Grievance Committee, which ensures conflicts are minimized and resolved effectively.

**Grievance Committee Composition and Function:** The Grievance Committee at Lexicon MILE PGDM is established for both students and staff, providing a formal channel to voice concerns. The committee includes the Director as an Ex-officio member, Faculty in Charge, non-teaching staff members nominated by the Director, and, for the Student Grievance Committee, student council members. This structure ensures comprehensive representation and fair consideration of all grievances.

##### **Staff Grievance Committee Functions:**

- Communication Channel:** The committee provides a formal communication channel for staff to express their grievances. This includes submitting complaints via email to the committee's secretary or registering them in a dedicated register within the administration department.
- Objectivity and Fairness:** The committee ensures a fair and objective consideration of grievances, promoting trust in the grievance process.
- Prompt Resolution:** The committee ensures that grievances are addressed promptly and decisions are made efficiently, facilitating smooth functioning.
- Feedback Mechanism:** A robust feedback mechanism keeps staff informed about the status of their complaints, reinforcing their trust in the committee.
- Participative Governance:** The committee encourages staff participation in governance, welcoming suggestions and open discussions to improve campus operations.
- Welfare Activities:** The concerned HoD, in agreement with the Director, plans and executes recreational and welfare activities to maintain a healthy work environment.

##### **Meeting Frequency and Quorum:**

- Biannual Meetings:** The committee meets twice a year, preferably once in separate trimesters, to review and address grievances.
- Required Quorum:** A minimum of two-thirds of the committee members must be present to proceed with the meetings.

### Process Flow for Staff Grievance Redressal:

- Meeting Chaired by Director:** Meetings are chaired by the Director and attended by all committee members.
- Minutes Recording:** The Secretary prepares and records minutes of all meetings.
- Grievance Registration:** The Lexicon MILE PGDM website serves as a platform for registering grievances related to campus operations.
- Special Meetings:** In case of grievances against a specific department, a special meeting is organized, and a representative from the department concerned is informed to attend.
- Follow-up:** The Secretary ensures timely follow-up on registered grievances and maintains an adequate feedback mechanism to keep employees informed of actions taken.
- Committee Member Resignation:** If a committee member resigns from their institute position, their role in the committee is also terminated.
- Recreational Activities:** The Secretary also organizes recreational and welfare activities to promote a positive work environment.

### Students Grievance Committee Functions:

- Forum for Student Grievances:** The committee provides a forum for students to express grievances related to academic and non-academic matters.
- Objectivity and Fairness:** The committee ensures fair consideration and impartiality in addressing student grievances.
- Prompt Decision-making:** The committee ensures timely consideration and resolution of grievances.
- Participative Governance:** The committee encourages students to put forward suggestions and engage in open discussions with management.

### Process Flow for Student Grievance Redressal:

- Biannual Review Meetings:** The committee meets twice a year to review the grievance cell's functioning.
- Meeting Attendance:** Meetings are chaired by the Director and attended by all committee members, including representatives from IT, Library, and Administration departments.
- Student Council Participation:** All student council members are invited to attend the meetings of the Grievance Cell.
- Online Grievance Mechanism:** As per AICTE norms, an online grievance redressal mechanism has been established.
- Grievance Categories:** Student grievances are categorized into Hostel, Library, Security, Canteen, Mess, Academics, Transport, Exam, and Others.
- Monthly Reports:** Monthly reports of grievances are generated, and MIS is circulated if required.
- Immediate Action:** The Grievance Committee Secretary addresses grievances immediately upon receiving them online, discusses with relevant authorities, and updates the status online.

### Meeting Frequency and Quorum for Student Committee:

- **Tenure and Meeting Schedule:** The committee's tenure is one year, with meetings held twice an academic year. Additional meetings may be called by the Chairperson /Secretary if needed.
- **Quorum Requirement:** Two-thirds of management and student members must be present to proceed with the meeting.

This comprehensive approach ensures that the Grievance Redressal Policy at Lexicon MILE PGDM effectively addresses and resolves grievances, fostering a positive and collaborative environment for both staff and students.

### **Internal Committee (IC) at Lexicon MILE PGDM**

**Introduction** The Internal Committee (IC) at Lexicon MILE PGDM, constituted by the Director, aims to create a fair workplace with gender equality. The IC's primary focus is to prevent and address acts of gender inequality and sexual harassment, ensuring a safe and respectful environment for all. The committee is empowered to handle complaints through resolution, settlement, or prosecution of such acts, following the guidelines set forth by the Ministry and UGC, in compliance with the Constitution of India, which guarantees the Right to Equality.

#### **Functions of the Internal Committee (IC)**

1. **Promotion of Gender Equality:** The IC promotes gender equality by fostering an inclusive environment where all individuals are treated with dignity and respect, regardless of their gender.
2. **Gender Sensitization:** The committee takes proactive measures to sensitize the Lexicon MILE PGDM community on gender issues, raising awareness and understanding to prevent discriminatory behaviors.
3. **Timely Resolution of Complaints:** The IC ensures that cases of sexual harassment are addressed promptly, taking appropriate action to resolve them effectively.
4. **Upholding Dignity:** The committee strives to create an environment where women are treated with respect and their rights to work in a harassment-free setting are upheld.
5. **Promoting Diversity and Equality:** The IC monitors and promotes diversity, ensuring that no woman is disadvantaged due to gender-based policies or actions within the institution.
6. **Compliance with Legal Directives:** The IC fulfills the directive of the Supreme Court of India by developing and implementing policies against sexual harassment at the workplace.
7. **Awareness and Deterrence:** The committee works to promote a safe social, physical, and psychological environment that raises awareness and deters acts of sexual harassment.
8. **Norm Implementation:** The IC ensures the implementation of norms for gender sensitization and conducts inquiries into complaints of sexual harassment.
9. **Recommending Punitive Actions:** The committee recommends appropriate punitive actions against those found guilty of harassment.

- 10. Catering to Special Needs:** The IC addresses the special needs of women staff on the Lexicon MILE PGDM campus, providing necessary support and facilities.
- 11. Counseling Support:** The committee offers counseling support to staff members as needed, helping them cope with any issues related to harassment.
- 12. Workshops and Awareness Programs:** Regular workshops and awareness programs are organized to educate employees about the provisions of relevant regulations and to train IC members.
- 13. Safe Working Environment:** The IC ensures that the workplace is safe and conducive to productivity and well-being.

### Process Flow

- 1. Visibility of Policies:** The penal consequences of sexual harassment and the order constituting the IC are displayed prominently in the workplace.
- 2. Support for Local Committee:** The IC provides necessary facilities for the Local Committee to handle complaints and conduct inquiries.
- 3. Assistance in Attendance:** The IC assists in securing the attendance of respondents and witnesses for inquiries.
- 4. Information Provision:** The committee makes available any required information for addressing complaints.
- 5. Assistance in Filing Complaints:** The IC helps women file complaints related to offenses under the Indian Penal Code or other relevant laws.
- 6. Initiating Legal Action:** If the perpetrator is not an employee, the IC initiates action under the relevant laws if desired by the aggrieved woman.
- 7. Misconduct Treatment:** Sexual harassment is treated as misconduct under service rules, and appropriate action is initiated.
- 8. Confidentiality:** The committee ensures the confidentiality of complaints and inquiry proceedings.
- 9. Penalty for Disclosure:** There are penalties for unauthorized disclosure of complaint and inquiry details.

The IC at Lexicon MILE PGDM is dedicated to creating a safe, respectful, and equitable environment for all women, ensuring their right to work and study free from any form of harassment.

#### 2.1.3.2. Transparency (5)

Lexicon MILE PGDM places a high priority on ensuring transparency by disseminating critical information to all relevant stakeholders. Information regarding policies, rules, and processes is readily available on the Lexicon MILE PGDM official website. Additionally, information is

communicated in several other ways to ensure comprehensive understanding and accessibility:

- **Student Induction:** Students are introduced to policies, rules, and processes during their induction. This information is also made available through various documents such as the Prospectus, Handbook, and the Lexicon MILE PGDM website. This ensures that students are well-informed from the beginning of their academic journey.
- **Faculty Awareness:** Faculty members are informed about institutional policies, rules, and processes at the time of their joining. They also actively participate in the formulation of these rules and policies, which helps in disseminating the information effectively among staff.
- **Periodic Reminders:** To reinforce understanding and compliance, periodic reminders are issued through circulars, ensuring that everyone stays updated on the latest policies and procedures.
- **Stakeholder Communication:** All relevant information for stakeholders is available on the official Lexicon MILE PGDM website. Additionally, periodic communications are sent to parents and guardians to inform them about the governance policies affecting students on campus.
- **Administrative Documentation:** The administrative rules and regulations applicable to all staff are detailed in a manual, providing clear guidelines for operational conduct.
- **Academic Transparency:** The program syllabus book, available in the library, offers transparency regarding academic plans, current regulations, courses, marks, attendance, and examination procedures.
- **Recruitment Practices:** The recruitment and interview processes for all staff are conducted by issuing advertisements and adhering to the regulations set forth by AICTE, ensuring fairness and transparency.

#### 2.1.3.3. Leader and Faculty Selection Process (5)

**Introduction:** The recruitment of faculty members at Lexicon MILE PGDM follows a standardized procedure conducted through the Local Selection Committee, ensuring adherence to the eligibility norms set by AICTE. This structured process is critical for maintaining high academic standards and institutional integrity.

##### Composition of the Selection Committee for the Director:

- **Chairperson:** The Chairperson of the Board of Governors or their nominee acts as the Chairperson.
- **Nominees:** Two nominees from the Board of Governors or the Academic Council participate in the selection.
- **Academic Expert:** An academic expert, either a Director from another institute or an accomplished educationist not below the rank of Professor, is included to provide an objective assessment.

##### Composition of the Selection Committee for Faculty Positions (Assistant Professor,

### Associate Professor, Professor, and Librarian):

- **Chairperson:** The Chairperson of the Board of Governors or their nominee serves as the Chairperson.
- **Experts:** Two experts, including the Director of another institute.
- **Director:** The Director of Lexicon MILE PGDM.
- **Subject Experts:** Two subject matter experts relevant to the positions being filled.

### Recruitment Process:

1. **Notification of Vacancy:** Vacancies are advertised in newspapers and on the Lexicon MILE PGDM website. Prospective candidates can also send inquiries or walk in if they meet the eligibility norms.
2. **Preliminary Assessment and Shortlisting:** Applications are screened based on AICTE eligibility criteria. Suitable candidates are shortlisted and invited to present themselves during the Local Selection Committee process.
3. **Recommendation by Local Selection Committee:** The selection process is conducted by the Local Selection Committee, which includes both internal and external experts. Candidates may be asked to conduct demonstration sessions if they have limited academic experience. The committee submits an assessment report with recommendations.
4. **Recruitment by the Board of Governors:** Final recruitment and validation of permanent faculty appointments are carried out by the Board of Governors based on AICTE guidelines. The process is conducted annually to fill vacant positions. Ad-hoc, adjunct, and visiting faculty appointments are managed by the Director in consultation with the respective HODs, based on the specific needs of the semester.

This detailed process ensures that the selection and recruitment of faculty and leadership positions at Lexicon MILE PGDM are conducted transparently, with a commitment to maintaining high standards and providing a fair and equitable working environment.

#### 2.1.3.4. Stability of the Academic Leaders (3)

The stability of the academic leaders can be evidenced from their longevity at Lexicon MILE

| Sr. No. | Name of the Faculty          | Associated since |
|---------|------------------------------|------------------|
| 1       | Dr. Raju Varghese Vazhapilly | 2016             |
| 2       | Dr. Jitender Sharma          | 2019             |
| 3       | Mr. Parmeshwar Kawale        | 2013             |
| 4       | Ms. Pratibha Mandage         | 2010             |
| 5       | Mr. Rahul Wagh               | 2015             |
| 6       | Ms. Tanushree Chaudhry       | 2019             |

|    |                         |      |
|----|-------------------------|------|
| 7  | Mr. Vikram Singh        | 2016 |
| 8  | Ms. Anju Raheja         | 2018 |
| 9  | Ms. Shagufta Ashraf     | 2018 |
| 10 | Ms. Saumya Mishra       | 2018 |
| 11 | Dr. Kashmira Lonkar     | 2016 |
| 12 | Ms. Farheen Belgaumwala | 2019 |
| 13 | Mr Nikit Jadhav         | 2019 |
| 14 | Mr. Gurudas Sinalkar    | 2021 |
| 15 | Ms. Kavita Pareek       | 2022 |

### 2.2.1.1. Adequacy of budget allocation (15)

#### Rationale of Budgetary Allocation

The rationale for budgetary allocation at Lexicon Management Institute of Leadership and Excellence is grounded in strategic development and resource planning conducted by the Governing Council, leveraging available educational resources. Our approach involves progressive planning to effectively translate strategic objectives into a balanced mix of programs, activities, and priorities.

By closely aligning budgetary allocations with our strategic goals, we ensure that resources are optimally distributed across various elements of our educational programs. This process not only facilitates the realization of our strategic objectives but also allows us to measure and demonstrate our achievements through meticulous budget management.

The rationale for decision making on resourcing and budgetary allocation for strategic development of the PGDM program and related academic and financial provisions are established as listed here -

**Identifying Developmental Initiatives:** The Governing Council at Lexicon MILE champions forward-thinking advancements to foster institutional growth, focusing on areas such as student intake progression, infrastructure development, and overall quality and positioning of the institute. Identifying these developmental initiatives is the starting point in the decision-making process for strategic development and resourcing.

- **Stakeholder-Centric Decisions:** These developmental aspects are evaluated with a clear foresight on their relevance to stakeholders. For instance, any decision to increase student intake for the PGDM program considers the goal of providing education to a larger number of students and enhancing their employability. Simultaneously, the financial feasibility of such decisions is assessed to ensure sustainability.
- **Informed Value Judgments:** This drives the management to make informed value judgments, determining the access to relevant information, identifying the stakeholders and processes involved, and understanding any constraints that may impact the decision-making process.
- **Strategic Solutions and Prioritization:** Once a clear understanding of the decision's relevance is established, various strategic solutions are devised. This includes ensuring a realistic mix of programs, strategic recruitment, effective brand communication, choice of activities, and setting priorities to achieve the desired outcomes.
- **Faculty Excellence:** Investing in the recruitment, retention, and continuous development of high-quality faculty members is crucial. This includes budget allocations for professional development, research grants, and competitive salaries to attract and retain top talent.
- **Technology Integration:** Allocating resources towards the latest educational technologies and digital tools to enhance the learning experience. This includes investments in online learning platforms, classroom technology, and cybersecurity measures to ensure a modern and secure educational environment.

By following this comprehensive approach, Lexicon MILE ensures that all strategic development and resourcing decisions are well-informed, stakeholder-focused, and sustainable.

At Lexicon MILE, the budgetary allocation across various elements is a crucial consideration for the successful implementation and ongoing operation of our programs. Ensuring appropriate financial resourcing is key to maintaining high standards and achieving our strategic objectives.

1. A comprehensive implementation plan is created, and regular reviews are conducted to evaluate the decision and its effectiveness.
2. Strategic plans are reviewed, and budgetary allocations are set aside to execute these plans.
3. Annual budgetary plans are developed for all activities necessary for the effective functioning of the institute, with the involvement of Heads of Departments (HoDs), faculty, and staff.
4. Past trends in budget utilization are analyzed to assess the impact of previously allocated budgets and to inform future budget provisions.
5. The final draft of the budget is prepared and presented to the central accounts department at Lexicon MILE before the start of the financial year.
6. After approval from the office of the chief managing trustee at Lexicon MILE, the budget is presented to the governing council for execution.
7. The sanctioned budget is distributed across the financial year to ensure the supply of adequate funds as needed on campus.
8. Effective control over budgetary allocation and utilization is maintained through periodic reviews submitted by Lexicon MILE to the accounts department.

By following these methods, Lexicon MILE ensures a systematic and transparent approach to budget planning, aligning financial resources with strategic goals and operational needs.

### **Budget Formulation Process at Lexicon MILE**

The strategic development and resourcing at Lexicon MILE, including budget formulation and allocation, are deliberated by the Lexicon MILE Governing Council based on available educational resources. This process involves consideration of Lexicon Group and its policies governing budgetary allocation priorities, which are influenced by the vision and mission of the institution. At this stage, macro affordability is considered. The following outlines the budget formulation procedure for decision-making on resourcing for strategic development and educational provisions:

1. The Governing Council deliberates on strategic development and resourcing, taking into account the available educational resources at Lexicon MILE.

2. Consideration is given to the policies and priorities of Lexicon Group, which are aligned with the institution's vision and mission.
3. Macro affordability is assessed to ensure financial sustainability.
4. The budget formulation procedure is then followed to make informed decisions on resourcing for strategic development and educational provisions.

### **Setting Policies for Budget Outlay for the PGDM Program at Lexicon MILE**

At this stage, the Governing Council at Lexicon MILE establishes broad guidelines for allocating expenditures across various categories essential for fulfilling the institute's objectives. Progressive planning ensures the translation of strategic objectives into a realistic mix of programs, choice of activities, and establishment of priorities.

The Governing Council advocates for the futuristic advancement of the institution, focusing on areas such as student intake progression, infrastructure development, and maintaining high standards of quality and positioning for the institute. Identifying developmental aspects is the initiating step in the process of resourcing and budgetary allocations. Simultaneously, the feasibility of financial resources is considered to ensure the sustainability of these decisions.

### **Planning the Policy for Budget Outlay for the PGDM Program at Lexicon MILE**

**Planning:** In this stage, the Board of Governors of Lexicon MILE are responsible for allocating budgets to support operations and governance within the PGDM program. Adopting a decentralized operational model, working groups and activity in-charges are actively involved in planning relevant activities and determining budgetary requirements. Annual budgetary plans are developed for all activities essential to the institute's effective functioning, with input from Heads of Departments (HoDs), faculty, and staff. The following procedure outlines how budgetary allocations are made by the activity in-charges:

1. **Allocation by the BoG:** The Board of Governors of Lexicon MILE assigns budgets for operational and governance needs within the PGDM program.
2. **Decentralized Model:** Working groups and activity in-charges participate in planning and identifying budgetary requirements for their respective areas.
3. **Collaborative Planning:** Annual budget plans are created with contributions from HoDs, faculty, and staff, ensuring comprehensive coverage of all necessary activities.
4. **Budgetary Allocation:** Specific procedures for budgetary allocations by activity in-charges are followed to ensure funds are appropriately distributed and utilized.

By following this structured planning policy, Lexicon MILE ensures that the budget outlay for the PGDM program is effectively managed and aligned with the institute's strategic objectives.

1. **Submission of Requirements:** Relevant faculty in charge and administration in charge are required to submit the budgetary requirements of their respective administrative responsibilities to the Board of Governors during specified time schedules.
2. **Additional Allocations:** Additional budgets are allocated to activities based on the supplementary value they add.

3. **Consultations:** The Board of Governors holds discussions with the relevant working groups in charge and required HoDs about the administrative and budgetary allocations submitted.
4. **Assessment of Past Trends:** Past trends in the utilization of budgets serve as an important criterion for assessing the impact of previously allocated budgets and determining further provisions for such activities.
5. **Formulation:**
  - Following the submission of information and budgetary requirements by administrative in charge, the Board of Governors undertakes the process of aggregation, examination, and negotiation of the stated financial statements of each activity.
  - Once the viability of administrative and financial allocations is ascertained by the Board of Governors, the execution and implementation of the final draft of budget formulation is initiated.
6. **Presentation to Central Accounts:** The final draft of the budget is presented to the central account unit at Lexicon MILE.
7. **Finalization:** Deliberations by the central account unit at Lexicon MILE and the Board of Governors lead to the finalization of the budget.
8. **Validation:** The final budget is presented to the BoG of Lexicon MILE for validation.
9. **Execution:** The next stage is the execution of the budget, which involves the release of funds, spending, mid-term review, and any necessary revisions.
10. **Evaluation:** The final stage is accountability, which involves accounting, reporting, auditing, and follow-up. Controls are built into the system for administrative implementation and financial utilization through periodic reviews of progress for such activities.

By following this structured budget allocation process, Lexicon MILE ensures that the financial resources for the PGDM program are effectively managed and aligned with the institute's strategic objectives.

### 2.2.1.2. Utilization of Allocated Funds (15)

#### Utilisation of Allocated Funds for the Lexicon MILE PGDM Program

At Lexicon MILE PGDM, the utilization of allocated funds involves the budgetary execution of financial resources as directed by the Board of Governors of Lexicon MILE, aiming to achieve the purposes and objectives for which the budgets have been approved. The utilization process involves compliance with administrative requirements prescribed by the central budgetary committee at Lexicon MILE. This process essentially centres around monitoring, adjusting, and reporting on the current year's budget.

Once the budget is approved, concerned departments and activity in-charges are informed about the allocation under respective heads. The responsibility of apportioning budgets lies

with the Board of Governors and the central budget committee, executed with consideration of institutional and administrative requirements and aligned priorities.

Purchase and expenditure procedures are structured, well-maintained, and executed with respect to the level of allocated funds. However, exceptional priority considerations beyond the allocated funds are ratified by the Board of Governors and the central budget committee. Delegation of financial powers at the institute level is promoted to maintain the institute's autonomy and reduce time lag. All budgetary requirements that assist in student development and are critical to teaching and learning processes are given priority. Fund allocation aims for the optimum utilization of resources for institutional requirements and supports adherence to the stated Vision and Mission of the institute.

### **Summary of Budget Utilization Process at Lexicon MILE PGDM:**

- **Cash Flow Management:** The final sanctioned budget for the Lexicon MILE PGDM program is divided into month-wise allocations to facilitate planning and maintain effective cash flow.
- **Budget Committee Approval:** Any proposed expenditure requires approval from the budget committee. The process for obtaining approval is as follows:
  - The department raises a requisition on a requisition/budget form, detailing expenditure for approval.
  - Authentication from the accounts department for stipulated expenditure is necessary.
  - Expenditure proposals exceeding a stated limit must be supported by triple quotations and forwarded to the Budget Committee for final approval.
  - Final approval is sanctioned by the Central Budget/Finance Committee.
- **Settlement:** Once the expenditure is incurred, necessary invoices duly authenticated by concerned authorities in the campus are submitted to the accounts department for reconciliation of the utilized expenditure.
- In particular, five key systems are essential for effective budget execution at Lexicon MILE PGDM:
  - Authorization of Budget
  - Funds Release
  - Accounting
  - Auditing
  - Reporting

By following this structured process, Lexicon MILE ensures efficient utilization of budgetary resources for the PGDM program, promoting transparency and accountability in financial management.

#### **2.2.1.3. Availability of the Audited Statements on the Institute's Website (15)** - The copy of audited report is available on institute website

|                    |   |            |
|--------------------|---|------------|
| <b>CRITERION 3</b> | <b>Program Outcomes and Course Outcomes</b> | <b>100</b> |
|--------------------|---|------------|

### **3.1. Establish the linkage between the Course Outcomes, and the Program Outcomes (POs) and Program Specific Outcomes (PSOs) (20)**

The curriculum for the program is designed by the Board of Studies (BOS) in consultation with Industry experts and subsequent Course Outcomes (COs) are established for each course.

The institute has followed the guidelines for the Program Outcomes (POs) as prescribed. The Program Outcomes (POs) are observable and measurable statements of knowledge, skills, and behaviour that a student is expected to demonstrate upon program completion. The Program Outcomes (POs) provide useful guidance at the program level for the curriculum design, syllabus of courses, delivery, and assessment of students' learning.

#### **3.1. (a) List of the Program Outcomes (PO)**

**Table: 3.1. (a) Program Outcomes**

| <b>Code</b> | <b>Program Outcomes Statement</b>  |
|-------------|--|
| PO 1        | <i>Apply</i> knowledge of fundamental business management principles in marketing, finance, human resources, and business analytics. |
| PO 2        | <i>Evaluate</i> business strategies, market research, and develop data-driven recommendations to achieve organizational goals.       |
| PO 3        | <i>Demonstrate</i> effective communication, interpersonal, and leadership skills in a multicultural environment.                     |
| PO 4        | <i>Adapt</i> with new skills, technologies, embracing innovation, and demonstrating ethical conduct in professional practices.       |
| PO 5        | <i>Understand</i> impact of business practices on stakeholders with sustainable businesses.  |

#### **3.1. (b) List of the Program Specific Outcomes (PSO)**

**Programme Specific Outcomes (PSOs):** Describe the specialised knowledge, skills, and competencies that students are expected to acquire and demonstrate upon completion of the programme. The PSOs reflect the students' ability to achieve discipline-specific outcomes and are determined by the combination of courses offered by the Institute under each specialisation.

**Table: 3.1. (b) Program Specific Outcomes**

After successful completion of the program the graduates will be able to:

| <b>Code</b> | <b>Program Specific Outcomes Statement</b>  |
|-------------|---|
| PSO 1       | Demonstrate Problem-solving skills to analyse complex business situations, formulate strategic recommendations, within a dynamic global business environment. |
| PSO 2       | Implementing strategic marketing plans aimed at brand awareness, acquiring customers, and revenue growth within a competitive global marketplace.             |

|       |  |
|-------|--|
| PSO 3 | Applying financial tools to analyse statements, provide investment recommendations, mitigate risks, and develop strategies for organizations.              |
| PSO 4 | Design effective human resource strategies aligned with organizational goals for talent acquisition, performance review, employee relations, and training. |
| PSO 5 | Demonstrating proficiency in analytics to address intricate business problems for strategic decision-making.   |

**The linkage between Program Outcomes (PO) and Course Outcomes (CO) is presented below.**

| PSO 1      | -   | -   | 601(CRLI)  |
| PSO 2      | -   | 601(CRLI)   | -  |
| PSO 3      | -   | -   | 601(CRLI)  |
| PSO 4      | -   | -   | 601(CRLI)  |
| PSO 5      | -   | -   | 601(CRLI)  |

**Note:** The above table depicts the linkage between the COs and POs 1, 2, and 3 are defined as:

| Level of Relevance | Slight | Moderate | Substantial |
|--------------------|--------|----------|-------------|
|                    | 1      | 2        | 3           |

### 3.1.1. Course Outcomes (COs) (5)

The course outcomes are researched by subject faculty with respect to outcome expected from the course and aligned with Bloom's Taxonomy action verbs. Every CO is framed based on up to six cognitive abilities, indicating the learning outcome of each course and is designed according to the needs and requirements of each course.

#### One course each Trimester and their Course Outcomes

**Table: 3.1.1.1. - TRI-I - PG 101 - 2022-24**

| Course Code | Course Name                   | Course Outcomes |   |
|-------------|-------------------------------|-----------------|---|
| PG 101      | <b>Economics for Managers</b> | CO101.1         | <i>Recall</i> fundamental economic concepts such as demand, supply, elasticity, production, cost, market structures, and basic macroeconomic indicators relevant to business decisions. |
|             |                               | CO101.2         | <i>Explain</i> microeconomic and macroeconomic principles, including pricing, market structures, government policies, and economic cycles, in a managerial context.                     |
|             |                               | CO101.3         | <i>Apply</i> economic tools and techniques to analyze real-world business data related to demand forecasting, production decisions, cost behavior, and pricing strategies.              |
|             |                               | CO101.4         | <i>Analyze</i> the impact of market structures, macroeconomic variables, and government interventions on firm performance and business decision-making.                                 |
|             |                               | CO101.5         | <i>Evaluate</i> economic policies, leadership decisions, and strategic business choices by considering ethical, global, and value-based perspectives in managerial economics.           |

**Table: 3.1.1.2. – TRI-II - PG 201 - 2022-24**

| Course Code | Course Name                 | Course Outcomes |  |
|-------------|-----------------------------|-----------------|--|
| PG 201      | <b>Financial Management</b> | CO201.1         | <i>Recall</i> fundamental concepts, terminology, and objectives of Financial Management and finance functions. |

|  |  |         |   |
|--|--|---------|---|
|  |  | CO201.2 | <i>Explain</i> financial statement analysis, working capital concepts, and cost of capital principles for managerial understanding. |
|  |  | CO201.3 | <i>Apply</i> time value of money, capital budgeting techniques, and ratio analysis to solve real business financial problems.       |
|  |  | CO201.4 | <i>Analyze</i> financial performance, capital structure, and working capital decisions to support managerial decision-making.       |
|  |  | CO201.5 | <i>Evaluate</i> financial strategies, investment proposals, and risk-return trade-offs to recommend value-maximizing decisions.     |

**Table: 3.1.1.3. – TRI-III - PG 301 - 2022-24**

| Course Code        | Course Name  | Course Outcomes |  |
|--------------------|--|-----------------|--|
| PG 301 / 501 / 601 | <b>Corporate Research Learning Internship (CRLI)</b> | CO301.1         | <i>Recall</i> and articulate fundamental principles, concepts, and methodologies learned during the Corporate Research and Learning Internship.  |
|                    |  | CO301.2         | <i>Comprehend</i> the applied business practices and strategies encountered during the internship, demonstrating a deeper understanding of their practical implications.               |
|                    |  | CO301.3         | <i>Apply</i> the theoretical knowledge gained in the PGDM program to real-world business situations, solving problems and making informed decisions within the internship context.     |
|                    |  | CO301.4         | <i>Analyse</i> and evaluate business processes, challenges, and opportunities observed during the internship, demonstrating critical thinking and problem-solving skills.              |
|                    |  | CO301.5         | <i>Assess</i> the effectiveness of different business strategies and practices witnessed during the internship, providing well-reasoned judgments and recommendations for improvement. |

**Table: 3.1.1.4. – TRI-IV - PG 401 - 2022-24**

| Course Code | Course Name                 | Course Outcomes |  |
|-------------|-----------------------------|-----------------|--|
| PG 401      | <b>Strategic Management</b> | CO 401.1        | <i>Recall</i> key concepts, terminology, and perspectives in Strategic Management, including strategic process and levels of strategy. |

|  |          |  |
|--|----------|--|
|  | CO 401.2 | <i>Explain</i> principles of strategy formulation, implementation, and control, including vision, mission, and ethical considerations. |
|  | CO 401.3 | <i>Apply</i> strategic tools such as Porter's Five Forces, BCG Matrix, Value Chain, and McKinsey 7S to real business situations.       |
|  | CO 401.4 | <i>Analyze</i> internal and external environments to assess competitive position and identify strategic issues.                        |
|  | CO 401.5 | <i>Evaluate</i> alternative strategic options and recommend suitable strategies for organizational growth and sustainability.          |

### 3.1.2. CO-PO Matrices of Courses Selected in 3.1.1 (One Matrix to be Mentioned for Each Semester/Trimester) (5)

The Course Outcomes (COs) are mapped with Program Outcomes (POs), by respective subject faculty with respect to the outcome expected from the course and its correlation with Program Outcomes (POs) as provided by National Board of Accreditation (NBA).

**CO-PO-PSO Mapping Matrix**

**Table: 3.1.2.1. - TRI-I - PG 101 (Economics for Managers) - 2022-24**

| CO     | PO 1 | PO 2 | PO 3 | PO 4 | PO 5 | PSO 1 | PSO 2 | PSO 3 | PSO 4 | PSO 5 |
|--------|------|------|------|------|------|-------|-------|-------|-------|-------|
| C101.1 | 2    | 1    | 1    | 2    | 1    | 2     | 2     | 2     | 1     | 1     |
| C101.2 | 2    | 2    | 1    | 3    | 1    | 3     | 3     | 2     | 2     | 2     |
| C101.3 | 3    | 3    | 2    | 2    | 2    | 3     | 2     | 3     | 1     | 3     |
| C101.4 | 3    | 3    | 2    | 3    | 2    | 3     | 2     | 3     | 2     | 3     |
| C101.5 | 2    | 2    | 3    | 3    | 3    | 3     | 2     | 3     | 2     | 2     |

**The CO–PO–PSO mapping for the subsequent Academic Cycle AY 2022–24 is presented above.**

For AY 2022–24, course-level CO–PO–PSO mapping is presented to reflect the overall contribution of each course to the Program Outcomes and Program Specific Outcomes. The CO–PO–PSO mapping for AY 2022–24 has been carried out in alignment with the approved curriculum framework and outcome philosophy adopted in the previous academic cycle. As there is no major structural revision in the Programme Outcomes (POs), Programme Specific Outcomes (PSOs), or Course Outcomes (COs), the mapping logic has been retained to ensure consistency and comparability of outcome attainment across academic years. Minor curriculum enhancements introduced during AY 2022–24 are incremental in nature and aimed at strengthening analytical, ethical, and governance-related competencies without altering the overall outcome structure. The correlation levels of 1 (Low), 2 (Medium), and 3 (High) indicate the extent of contribution of each CO towards the respective POs and PSOs and are determined based on course content coverage, learning objectives, and assessment strategies.

There is no major change in the CO–PO–PSO mapping framework for AY 2022–24 compared to previous academic years, as the curriculum structure, learning outcomes, and assessment mechanisms remain consistent.

### **Correlation levels**

1, 2, and 3 as defined below:

- 1: Slight (Low),
- 2: Moderate (Medium),
- 3: Substantial (High)

#### **3.1.3. Course-PO Mapping Matrix of all Courses in the Program (10)**

**Table No. 3.1.3.1. Batch 2022-24**

| Trimester | Course Type  | Course Code | Course Title            | PO 1 | PO 2 | PO 3 | PO 4 | PO 5 | PSO 1 | PSO 2 | PSO 3 | PSO 4 | PSO 5 |
|-----------|--------------|-------------|-------------------------|------|------|------|------|------|-------|-------|-------|-------|-------|
| 1         | General Core | 101         | Economics for Managers  | 3    | 3    | 1    | 2    | 3    | 2     | 3     | 1     | 3     | 2     |
|           |              | 102         | Research Methodology    | 2    | 3    | 2    | 2    | 1    | 3     | 2     | 3     | 2     | 2     |
|           |              | 103         | Managerial Accounting   | 3    | 3    | 1    | 2    | 2    | 2     | 3     | 1     | 3     | 2     |
|           |              | 104         | Organization Behaviour  | 3    | 2    | 3    | 3    | 2    | 3     | 1     | 1     | 3     | 2     |
|           |              | 105         | Essentials of Marketing | 3    | 3    | 2    | 3    | 2    | 3     | 3     | 1     | 1     | 2     |

|   |              |                        |                                       |   |   |   |   |   |   |   |   |   |   |

### Correlation levels

1, 2, and 3 as defined below:

- 1: Slight (Low),
- 2: Moderate (Medium),
- 3: Substantial (High)

### 3.2 Course Outcomes (40)

#### 3.2.1. Describe the Assessment Tools and Processes Used to Gather the Data upon which the Evaluation of Course Outcome is based (10)

Lexicon MILE tries to adhere to the Academic Calendar planned at the start of every new academic year. The Academic Calendar includes a schedule of all the activities which is communicated to faculty members as well as to students for organizing and participating to achieve desired Course Outcomes (COs) related to individual courses and Program Outcomes (POs), which typically includes achieving the objectives such as developing critical thinking abilities, effective communication skills, leadership capabilities, and a deep understanding of business concepts and practices.

**Table No. 3.2.1. (a) List of Activities**

|   |  |
|---|--|
| <b><i>Curricular Activities</i></b>       | Induction Program, Industry Visit  |
|   | Schedule of classroom sessions, Guest Sessions   |
|   | Course related Internal Evaluations (Continuous Concurrent Evaluation – CCE), Corporate Research Learning Internship (CRLI) Guidance Session & Viva-Voce |
| <b><i>Co-Curricular Activities</i></b>    | Guest Sessions, Mentorship Program, Seminars, Workshops, Conference  |
|   | Certification Program: Marketing, Finance, Human Resources Management and Research and Business Analytics  |
|   | Placement Sessions: Soft skills, Interview Preparation, Grooming activities  |
| <b><i>Extra-Curricular Activities</i></b> | Sports Week: Aarambh, Cultural and Management Fest: KALA, Lexicon Heart-Beat, Yoga-Wellness, Happiness Sessions and Alumni Meet                          |

Institute has developed following assessment methods and tools to measure the attainment of the Course Outcomes (CO's). Faculty members use the suitable criteria as the need of the subject for Internal Assessments (CCE) as mentioned in the table below:

**Table 3.2.1. (b) – Assessment Methods & Tools**

| <b>Method of Assessment</b>        | <b>Weightage</b> | <b>Tool</b>              | <b>Nature of Exam</b>   | <b>Frequency of data collection</b> |
|------------------------------------|------------------|--------------------------|---|-------------------------------------|
| <b>Internal Examination (CCEs)</b> | 50%              | MCQs Test                | For each subject 2 - 4 assessments are taken and mapped to the course objectives. | During Trimester                    |
|                                    |                  | Class Test               |   |                                     |
|                                    |                  | Presentations            |   |                                     |
|                                    |                  | Case Study               |   |                                     |
|                                    |                  | Role Plays / Simulations |   |                                     |

|  |     |                           |             |                               |
|--|-----|---------------------------|-------------|-------------------------------|
| <b>End<br/>Trimester<br/>Examination</b> | 50% | Theory Exam<br>(50 Marks) | Descriptive | At conclusion of<br>Trimester |
|--|-----|---------------------------|-------------|-------------------------------|

*Note: Tools of internal assessment are not restricted to the above methods only.*

**Determination of the attainment level of each course, Internal Assessment marks (CCEs) and External Examination (End Trimester Examination) marks of students for all the Trimester have been considered.**

- The formula to calculate the course attainment level is based on internal and external scores. The scores of all the students are considered, but the benchmark is set at minimum % of marks in internal and external assessments for measuring the attainment of COs.
- Considering all the values, the average attainment level is calculated as follows:
  - Internal Assessment (CCE) for each course is mapped to course outcomes.
  - External Assessment (End Trimester Examination) in end term exams for calculating attainment levels.

The benchmark for assessment is set keeping in view the average performance of the students as per the parameters below:

$(CO) = 60\% \text{ (Attainment level of External Exam)} + 40\% \text{ (Attainment level of Internal Evaluation)}$ .

*These standards are used for both internal and external assessments.*

- The final scores from both the External Assessment (End Trimester Examination) and the Internals Examination (Continuous Comprehensive Evaluations/CCEs), known as direct assessments, serve as metrics for evaluating the attainment of Course Outcomes (COs).
- The attainment of Program Outcomes (POs) is calculated by averaging the attainment of Course Outcomes (COs) mapped to the respective POs.

### **3.2.2. Record the Attainment of Course Outcomes of all courses with respect to set attainment levels (30)**

| <b>COURSE OUTCOMES</b>  |  |
|---|--|
| <b>Set Course Attainment Levels:</b>                                    |  |
| Attainment Level 1: Less than 50% students scoring 60% marks            |  |
| Attainment Level 2: 51 % – 60 % students scoring 60% marks              |  |
| Attainment Level 3: More than 61% students scoring 60% marks            |  |
| <b>Formula to compute Course Outcome:</b><br><b>CO Attainment Level</b> |  |

$A (CO) = 60\% \text{ (Attainment level of End Term Exam)} + 40\% \text{ (Attainment level of Internal Evaluation)}$

| CO Attainment Level | Method          | Tools                      |
|---------------------|-----------------|----------------------------|
| 80%                 | Direct Method   | CO Attainment Level        |
| 20%                 | Indirect Method | Feedback from stakeholders |

Institute has adopted the above parameters to justify the CO attainment levels and the following table depicts the attainment of the COs of all the courses in the PGDM program offered by the institute.

**Table No. 3.2.2. - CO Attainment Level: Batch 2022-24**

| Trimester | Course Type  | Course Code            | Course Title                          | CO Attainment Level | Target Level (2) Achieved (Y/ N) | Remedial Measures                              |
|-----------|--------------|------------------------|---------------------------------------|---------------------|----------------------------------|--|
| 1         | Generic Core | 101                    | Economics for Managers                | 2.16                | Y                                | Sustain and enhance the level of performance . |

| <b>Summary</b>   |
|--|
| <ul style="list-style-type: none"> <li>• Courses: Generic Core</li> <li>• Elective: Marketing (MKT) &amp; Finance (FIN)</li> </ul>                     |
| <p>Out of 31 courses, 31 courses attained the set target level of COs.<br/>       Attainment levels are set considering the PGDM syllabus 2022-24.</p> |

### **3.3. Attainment of Program Outcomes and Program Specific Outcomes (40)**

#### **3.3.1. Describe the Assessment Tools and Processes Used to Gather the Data to Evaluate and Program Outcomes and Program Specific Outcomes (10)**

The institute has followed the POs as prescribed by NBA. The respective subject teacher framed the COs and mapped it with respective POs for each course, benchmarking it with the Program Outcome Attainment Levels (POAL) of the previous Academic Year.

##### ***i. PO Assessment Tools and Processes***

Attainment of POs is done by adapting following evaluation process:

- The End Trimester Examination and Internal Examinations (CCEs) are evident tools to distinguish the institute's academic performance and to measure attainment of COs linked with POs.
- Internal Examination (CCEs) Score and End Trimester Examination Results are referred as direct method, and feedback from the stakeholders are referred as indirect method for measuring attainment of POs.
- The POs are achieved through a curriculum that offers Generic core, Specialization core and choice based elective courses. Each course has defined course outcomes that are linked to the POs and a set of performance criteria that are used to provide quantitative measurement of the attainment level of the COs.

- The attainment of COs provides direct quantitative evidence of attainment of the POs.

**ii. PO Attainment Level:**

- $PO = 80\% \text{ (CO Attainment by Direct Method)} + 20\% \text{ (Attainment by Indirect Method - through Feedback from all stakeholders.)}$
- **Direct Assessment:** The performance of the students in the examinations (Internal and External) during the trimester in each course was used to compute the PO attainment levels.
- **Indirect Assessment:** Feedback was collected from all the stake holders with respect to the development of the student in academics, employability skills, social awareness to compute PO attainment levels.

The feedback is collected via circulating a questionnaire with a combination of close and open-ended questions. Responses are collected with a three-point rating scale, offering options of Best, Good, and Average. Feedback is analyzed and considered for the calculation of indirect PO attainment levels.

### 3.3.2. POs and PSO Attainment levels (30)

Provides a consolidated Course–PO mapping for the programme curriculum, derived from trimester-wise mappings presented earlier.

**Table No. – 3.3.2.1. - POs Attainment**

### **Summary:**

1. Average attainment of POs for batch 2022-24 = **1.86**
2. On the scale of Slight (Low) = 1, Moderate (Medium) = 2, Substantial (High) = 3

Institute has achieved = **62%**

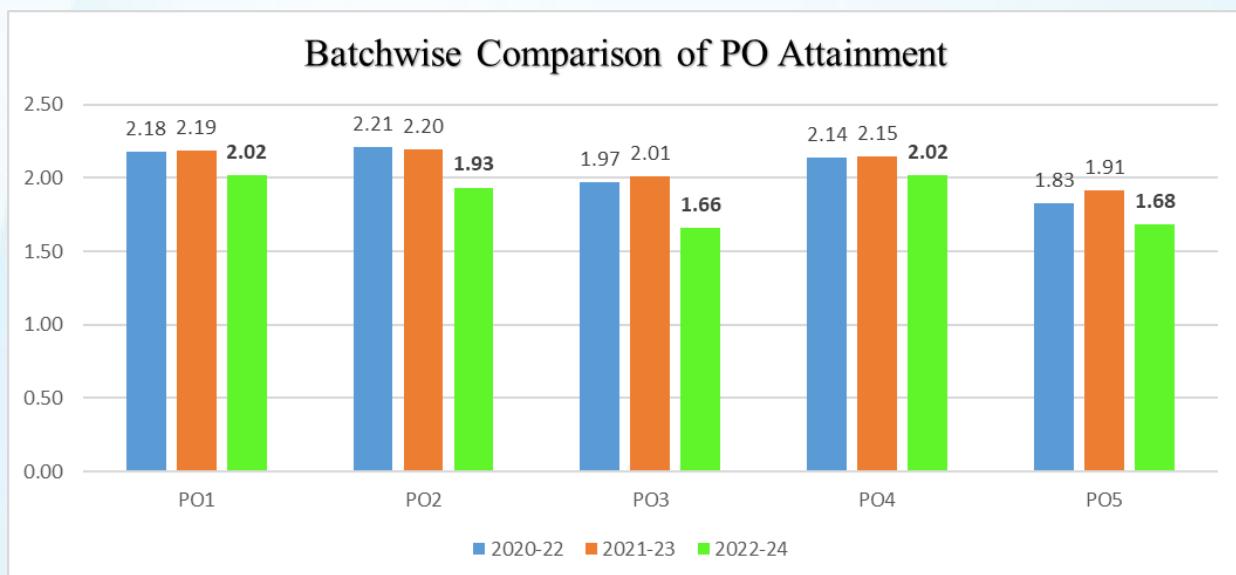

3. The Program Outcome Attainment Level (POAL) of previous batch (2021-23) are set as targets for the POAL for the next batch of 2022-24, and there is a marginal drop in POALs.

Following table and chart depicts the batchwise comparison of Program Outcome Attainment Level.

**Table No. – 3.3.2.2. Batchwise Comparison of POAL**

| Batchwise Comparison of POAL |      |      |      |      |      |
|------------------------------|------|------|------|------|------|
| Batch Details                | PO 1 | PO 2 | PO 3 | PO 4 | PO 5 |
| 2020-22                      | 2.18 | 2.21 | 1.97 | 2.14 | 1.83 |
| 2021-23                      | 2.19 | 2.20 | 2.01 | 2.15 | 1.91 |
| 2022-24                      | 2.02 | 1.93 | 1.66 | 2.02 | 1.68 |

### Chart No. – 3.3.2.1. Batchwise Comparison of POAL

**Observations:** PO attainment levels shown above are analysed and some of the observations related to PO attainment are:

- The batch-wise analysis of Program Outcome attainment indicates that PO1 and PO4 consistently show the strongest attainment across batches, highlighting the institute's effectiveness in developing managerial application skills and holistic problem-solving abilities among students. The average attainment across all POs remains close to the benchmark level of 2.0, reflecting stable academic performance with scope for targeted improvement.
- The attainment level of PO1 has remained relatively high across batches, with values of 2.18 in 2020–22, 2.19 in 2021–23, and 2.02 in 2022–24, resulting in an average attainment of 2.13 (71.0%). This indicates that students demonstrate a strong ability to apply management concepts and analytical frameworks to practical business scenarios. However, a marginal decline in the 2022–24 batch suggests the need for reinforcement through case-based learning and applied projects.
- The attainment level of PO2 shows a gradual decline over the three batches. It reduced from 2.21 (73.67%) in 2020–22 to 2.20 (73.33%) in 2021–23, followed by a more noticeable drop to 1.93 (64.33%) in 2022–24. While earlier batches demonstrated strong analytical and quantitative reasoning skills, the recent dip indicates a need to strengthen data-driven decision-making and analytical rigor through additional practice-based assessments.
- The attainment of PO3 has shown moderate performance with a declining trend. It decreased from 1.97 (65.67%) in 2020–22 to 2.01 (67.0%) in 2021–23, and further declined to 1.66 (55.33%) in 2022–24. This suggests that while earlier cohorts showed improvement in critical thinking and problem analysis, the latest batch requires focused academic interventions such as structured problem-solving exercises and interdisciplinary exposure.

- The attainment level of PO4 remains consistently strong across all batches. It recorded 2.14 (71.33%) in 2020–22, 2.15 (71.67%) in 2021–23, and 2.02 (67.33%) in 2022–24, with an average attainment of 2.10 (70.11%). This indicates effective development of teamwork, communication, and leadership competencies, contributing positively to students' professional readiness.
- The attainment of PO5, while comparatively lower, shows stable performance with slight improvement in the middle batch. It increased from 1.83 (61.0%) in 2020–22 to 1.91 (63.67%) in 2021–23, followed by a decline to 1.68 (56.0%) in 2022–24. This trend highlights the need to further strengthen ethical reasoning, sustainability awareness, and social responsibility through experiential learning and value-based modules.
- Overall, the batch-wise comparison reflects consistent attainment in core managerial and professional skills, with specific opportunities for enhancement in analytical depth, ethical decision-making, and advanced problem-solving competencies. The insights derived will guide curriculum refinement, pedagogical improvements, and targeted academic support initiatives for future cohorts.

**Table No. – 3.3.2.3. Change in POAL**

| <b>Batch</b>  | <b>PO 1</b>   | <b>PO 2</b>    | <b>PO 3</b>    | <b>PO 4</b>   | <b>PO 5</b>    |
|---------------|---------------|----------------|----------------|---------------|----------------|
| 2020-22       | 72.66%        | 73.69%         | 65.74%         | 71.35%        | 60.88%         |
| 2021-23       | 72.88%        | 73.23%         | 67.10%         | 71.54%        | 63.80%         |
| 2022-24       | 67.27%        | 64.49%         | 55.35%         | 67.27%        | 56.08%         |
| <b>Change</b> | <b>-7.70%</b> | <b>-11.93%</b> | <b>-17.51%</b> | <b>-5.98%</b> | <b>-12.10%</b> |

From the above table no.3.3.2 (c) it has been observed that:

- PO1 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 7.70%
- PO2 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 11.93%
- PO3 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 17.51%
- PO4 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 5.98%
- PO5 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 12.10%.

The average decrease in the attainment levels of POs across all the batches since 2023 is 11.05%.

**Table No. – 3.3.2.4. - PSOs Attainment**

Provides a consolidated Course-PSO mapping for the programme curriculum, derived from trimester-wise mappings presented earlier.

| Trimester | Course Type   | Course Code | Course Title                          | PSO 1 | PSO 2 | PSO 3 | PSO 4 | PSO 5 |
|-----------|---------------|-------------|---------------------------------------|-------|-------|-------|-------|-------|
| 1         | Generi c Core | 101         | Economics for Managers                | 2.08  | 1.72  | 1.88  | 1.20  | 1.56  |
|           |               | 102         | Research Methodology                  | 2.12  | 1.64  | 1.84  | 1.64  | 2.12  |
|           |               | 103         | Managerial Accounting                 | 1.44  | 0.96  | 1.56  | 0.84  | 1.20  |
|           |               | 104         | Organization Behaviour                | 2.12  | 1.48  | 1.68  | 2.12  | 1.80  |
|           |               | 105         | Essentials of Marketing               | 2.08  | 1.88  | 1.00  | 0.76  | 1.44  |

|          | 407             | Foreign Exchange Management                 | 1.92                                   | 0.96 | 2.04 | 0.68 | 1.76 |      |
|          | 408             | Security Analysis and Portfolio             | 1.48                                   | 0.73 | 1.88 | 0.63 | 1.56 |      |

|                               |                          |     |   |             |      |      |      |      |
|-------------------------------|--------------------------|-----|---|-------------|------|------|------|------|
|                               |                          |     | Management                                |             |      |      |      |      |
| 5                             | <b>Generi<br/>c Core</b> | 501 | Corporate Research<br>Learning Internship | 2.80        | 2.20 | 2.60 | 2.60 | 2.40 |
| 6                             | <b>Generi<br/>c Core</b> | 601 | Corporate Research<br>Learning Internship | 2.80        | 2.20 | 2.80 | 2.40 | 2.60 |
|                               |                          |     |   |             |      |      |      |      |
| Direct Attainment (Average)   |                          |     |   | 1.95        | 1.47 | 1.60 | 1.34 | 1.65 |
| Indirect Attainment (Average) |                          |     |   | 3           | 3    | 3    | 3    | 3    |
| Final PSOs Attainment         |                          |     |   | 2.16        | 1.78 | 1.88 | 1.67 | 1.92 |
| Average attainment of PSOs    |                          |     |   | <b>1.88</b> |      |      |      |      |

**Summary:**

1. Average attainment of PSOs for batch 2022-24 = **1.88**
2. On the scale of Slight (Low) = 1, Moderate (Medium) = 2, Substantial (High) = 3

Institute has achieved = **63%**

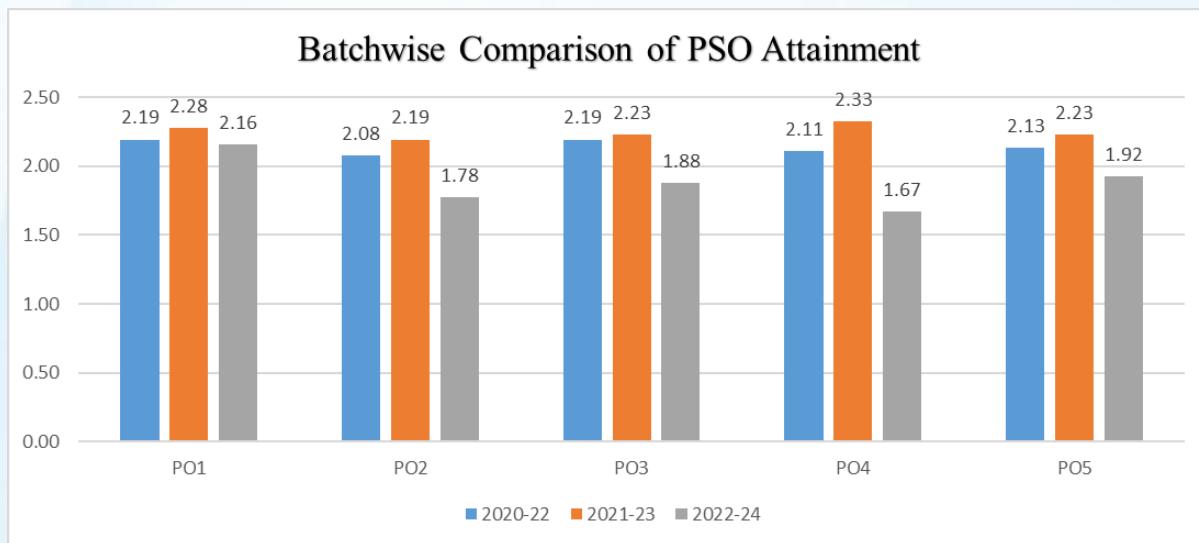

3. The Program Specific Outcome Attainment Level (PSOAL) of the previous batch (2021-23) are set as targets for the PSOAL for the next batch of 2022-24, and there is a marginal drop in PSOALs.

The following table and chart depicts the batchwise comparison of Program Specific Outcome Attainment Level.

**Table No. – 3.3.2. (e) Batchwise Comparison of PSOAL**

| Batchwise Comparison of PSOAL |      |      |      |      |      |
|-------------------------------|------|------|------|------|------|
| Batch Details                 | PSO1 | PSO2 | PSO3 | PSO4 | PSO5 |
| 2020-22                       | 2.63 | 2.49 | 2.63 | 2.53 | 2.56 |
| 2021-23                       | 2.73 | 2.63 | 2.67 | 2.79 | 2.67 |
| 2022-24                       | 2.16 | 1.78 | 1.88 | 1.67 | 1.92 |

**Chart No. – 3.3.2. (e) Batchwise Comparison of PSOAL**

**Observations:** PSO attainment levels shown above are analysed and some of the observations are as below:

- The 2021–23 batch demonstrates the strongest performance across all PSOs, with attainment values ranging between 2.19 and 2.33. This reflects effective curriculum delivery, improved assessment alignment, and enhanced learner engagement during the period, resulting in higher overall program outcome realization.
- PSO4 records the highest attainment value of 2.33 in the 2021–23 batch, indicating that students have developed strong application-oriented skills relevant to functional and strategic decision-making in organizational contexts. This suggests successful integration of experiential learning, case-based pedagogy, and industry-relevant activities.
- PSO1 and PSO3 show relatively stable performance across batches, with values remaining above 2.0 in most cases. This consistency indicates that the program effectively supports students in developing core conceptual understanding, analytical ability, and domain-specific competencies as intended in the program design.
- PSO2 shows comparatively lower attainment, particularly in the 2022–24 batch (1.78). This points toward the need for strengthened instructional strategies, additional practice-based learning, and focused academic interventions to improve students' applied and integrative skill sets linked to this outcome.
- A noticeable drop in attainment is observed for the 2022–24 batch across all PSOs, with values ranging from 1.67 to 2.16. This decline suggests the impact of transitional academic challenges and highlights the need for remedial measures such as mentoring, curriculum reinforcement, and enhanced continuous assessment mechanisms.
- Despite batch-wise variations, the overall PSO attainment levels remain close to or above the expected benchmark of Level 2, indicating that the program largely succeeds in achieving its stated learning outcomes. Continuous monitoring and targeted

improvement initiatives are expected to further enhance outcome attainment in subsequent batches.

**Table No. – 3.3.2. (f) Change in PSOAL**

| Batch         | PSO 1         | PSO 2          | PSO 3          | PSO 4          | PSO 5          |
|---------------|---------------|----------------|----------------|----------------|----------------|
| 2020-22       | 73.06%        | 69.17%         | 73.06%         | 70.28%         | 71.11%         |
| 2021-23       | 75.83%        | 73.06%         | 74.17%         | 77.50%         | 74.17%         |
| 2022-24       | 71.90%        | 59.19%         | 62.66%         | 55.68%         | 64.11%         |
| <b>Change</b> | <b>-5.19%</b> | <b>-18.98%</b> | <b>-15.52%</b> | <b>-28.15%</b> | <b>-13.56%</b> |

From the above table no.3.3.2. (f) it has been observed that:

- PSO 1 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 20.99%
- PSO 2 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 32.48%
- PSO 3 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 29.60%
- PSO 4 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 40.13%
- PSO 5 has shown a decrease in the attainment level from 2021-23 to 2022-24 by 27.96%

The average decrease in the attainment levels of PSOs across all the batches since 2023 is 16.28%.

The inclusion of attainment analysis for AY 2022–24 further validates the effectiveness of the outcome-based curriculum design under the trimester system. Comparative analysis of CO, PO, and PSO attainment across academic cycles demonstrates consistency in learning outcome achievement and reflects the Institute's commitment to continuous improvement through systematic assessment and feedback.

|                    |  |            |
|--------------------|--|------------|
| <b>CRITERION 4</b> | <b>Curriculum and Learning Process</b> | <b>125</b> |
|--------------------|--|------------|

#### **4.1. Curriculum (50)**

The curriculum of the PGDM program is designed based on the Lexicon MILE vision and mission and the creation of a “*day zero professional*”, the industry standard to be met. The student needs to be industry ready and the right blend of academics and internships ensures the right skill sets. A day zero professional is the one who requires minimal training when he joins the organization and is ready to contribute to the organization from the first day of his/her joining. This means that the Lexicon MILE academic and other processes are aligned to the requirements of the industry. The industry best practices form one of the fundamental processes of framing the program syllabus.

Lexicon MILE has been successfully running the PGDM program for the past 14 years.

The curriculum of a subject, Data Analysis and Decision Making (Tri-I), is enclosed herewith for reference.

#### **Trimester I** **Data Analysis and Decision Making**

| <b>Trimester</b> | <b>Course Code</b> | <b>Credits</b> | <b>Hours</b> | <b>Course Name</b>                |
|------------------|--------------------|----------------|--------------|-----------------------------------|
| I                | 1BAC01             | 3              | 30           | Data Analysis and Decision Making |

#### **Course Overview:**

This course is designed to equip students with the foundational knowledge and skills required to analyse data effectively and make informed decisions in a business context. Emphasis is given to the importance of data-driven decision-making, covering essential concepts such as data collection, cleaning, visualization, statistical analysis, and interpretation. Students will learn to apply analytical tools and techniques to solve real-world business problems and support strategic decision-making processes by applying quantitative reasoning and critical thinking.

#### **Course Outcomes:**

After completing this course, students will be able to:

| Sr. No | Course Outcomes   | Bloom's Level | Mapping of Program Outcomes<br>(Low: 1, Medium: 2, High: 3) |     |      |      |     |
|--------|---|---------------|---|-----|------|------|-----|
|        |   |               | PO1   | PO2 | PO 3 | PO 4 | PO5 |
| 1      | <b>Define</b> key concepts in data analytics, principles of data driven decision-making and statistical concepts. | Knowledge     |   |     | 1    |      |     |
| 2      | <b>Explain</b> the role of statistical thinking and decision analysis in solving managerial problems.             | Comprehension |   | 3   |      | 1    |     |
| 3      | <b>Apply</b> statistical techniques and decision models to real-world scenarios using MS Excel.                   | Application   | 3   | 3   |      | 1    |     |
| 4      | <b>Analyse</b> decision alternatives using data interpretation, probability, and modelling techniques.            | Analysis      | 2   | 2   |      | 2    | 1   |

|   |   |            |  |   |  |  |   |
|---|---|------------|--|---|--|--|---|
| 5 | <p><b>Evaluate</b> solutions using sensitivity, cost-benefit, and risk-return analyses to support business recommendations.</p> | Evaluation |  | 2 |  |  | 1 |
|---|---|------------|--|---|--|--|---|

**Topics to be covered:**

| Unit No.     | Contents   | Session (in Hours) |
|--------------|--|--------------------|
| 1            | Foundations of Data-Driven Decision Making: Importance of data in business, decision-making frameworks, types of business decisions, structured vs unstructured problems. Understanding business data: scales, variables and collection methods. | 5                  |
| 2            | Descriptive Analytics and Interpretation: Measures of central tendency and dispersion, data distribution patterns, identification of outliers, visualization tools (boxplots, histograms), business application of descriptive summaries.        | 6                  |
| 3            | Probability, Risk and Uncertainty in Business: Probability rules, conditional probability, Bayes' Theorem, expected value and payoff tables, decision criteria under uncertainty. Application of risk-based decision tools.                      | 6                  |
| 4            | Decision Modelling and Scenario Planning: Introduction to decision trees, scenario analysis, sensitivity analysis, what-if modelling. Using decision models to evaluate alternatives.  | 6                  |
| 5            | Statistical Inference and Ethics in Data Use: Hypothesis testing (t-tests, z-tests, chi-square), interpreting confidence intervals and p-values in managerial context. Ethical issues in data handling, misrepresentation and bias.              | 7                  |
| <b>Total</b> |  | <b>30</b>          |

| Scheme of Assessment *                       |                                  |             |
|--|----------------------------------|-------------|
| Comprehensive Concurrent Evaluation<br>(CCE) | Term End<br>Examination<br>(TEE) | Total Marks |
| Assessment 1                                 | 100 Marks                        |             |
| Assessment 2                                 |                                  |             |
| Assessment 3                                 |                                  | 0 Marks     |
| Assessment 4                                 |                                  |             |
| Assessment 5                                 |                                  | 100 Marks   |

**\* Note:** The course teacher shall prepare the scheme of comprehensive concurrent evaluation (formative assessment) before commencement of the term. Every course should have at least 3-4 evaluation components. The components of comprehensive concurrent evaluation (formative assessment) for respective subjects should be spelled out at the start of the trimester. The approximate time of conduct of these individual components needs to be spread across the full trimester. It is the sole responsibility of the student to bring to notice any discrepancy in internal marks as soon as it is shared with them. Any changes in submitted comprehensive concurrent evaluation (formative assessment) marks (after the respective teacher submitted to the Program Office) needs to have special permission and approval from the Program Director of the Institute.

## Annexures:

### Program Outcomes

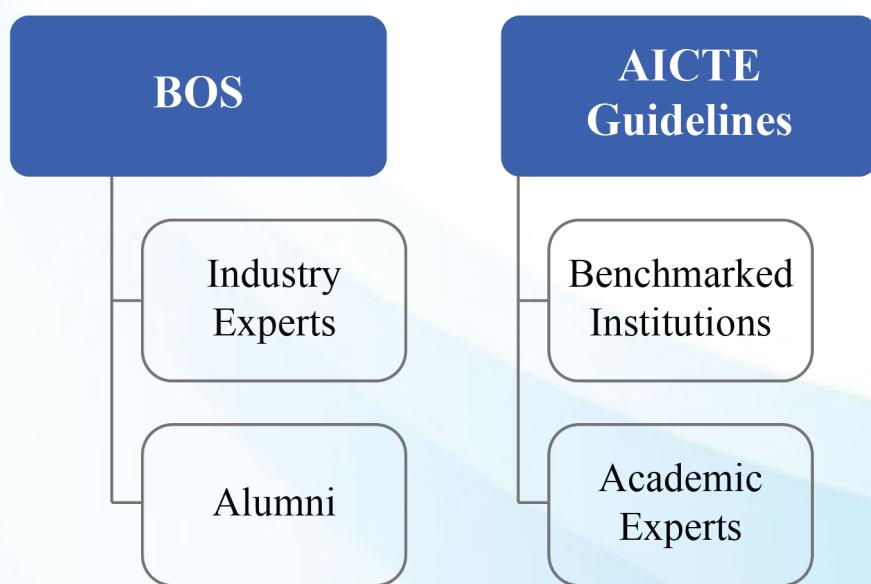

|      |   |
|------|---|
| PO 1 | Apply knowledge of management theories and practices to solve business problems.  |
| PO 2 | Foster Analytical and critical thinking abilities for data-based decision making.   |
| PO 3 | Ability to develop Value based Leadership ability   |
| PO 4 | Ability to understand, analyse and communicate global, economic, legal, and ethical aspects of business                           |
| PO 5 | Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment. |

The curriculum delivery is through a robust Academic Calendar which determines delivery of academic subjects, certification courses, seminars, research conferences, TEDx events, placement talks, etc.

#### 4.1.1. State the Process for Designing the Program Curriculum (10)

The inputs of the syllabus / curriculum updating and designing process are obtained from the following resources-

### Curriculum Designing Inputs

The Board of Studies initiates the syllabus designing process on a yearly basis. Industry Experts have a major say in the relevance and applications of the newly designed syllabus. Alumni from Lexicon MILE also feature in the curriculum designing process as they are aware of the institute's academic processes and their relevance in the industry. The curriculum designing process adheres to the AICTE system and standard of credits. Another important feature of curriculum designing is the process of benchmarking against the syllabi of reputed institutions like Universities, IIMs, etc. with their years of experience in the academic world, and other noteworthy institutions of repute, specialty and years of existence. The final constituents for designing the curriculum are experts from academia. Academic experts from premium institutions participate in the curriculum designing process.

**Composition of the Board of Studies (BoS) for AY 2021-23 & 2023-24**

|  |  |  |  |  |  |  |
|--|--|--|--|--|--|--|

The process of designing the program curriculum can be depicted as follows: -

The Lexicon MILE syllabus designing process takes place annually under the direction of the Board of Study (BoS). The annual process is necessitated by the dynamic nature of the industry requirements. An annual process ensures that the subjects are updated with current content, outdated subjects are dropped, relevant subjects are added, and the contents of the syllabus are designed by both industry and academic experts.

The Board of Studies (BoS) annually appoints the Syllabus Review Team (SRT) with relevant representation from academia and industry. The SRT undertakes the following activities as a part of the syllabus design process.

1. Review the existing syllabi.
2. The SRT then maps the syllabi to the industry requirements and current trends.
3. It identifies the gaps.
4. They work on syllabi that require modernization.
5. Delete those subjects that are found obsolete.
6. Add relevant subjects based on the industry-academia deliberations of the SRT.
7. Present updated program syllabus to the BoS for their approval.

The syllabus focuses on three categories of subjects: -

1. Core
2. Functional
3. Skill

The core subjects form the subject fundamentals that are core to the program. The functional subjects include the specialisms that the student opts for and the skill-based topics are certifications that are provided to the students to develop relevant occupational skills.

The Board of Studies (BoS) ensures alignment with the PEOs and PSOs. The Program Outcomes (POs) ensures the nature of measurement of various subjects through a robust evaluation system.

Since the PGDM is an AICTE approved program, the measurement of the course outcome is based on the internal and external assessments. The internal assessments include cases, presentations, industry visits, tests, movie reviews, etc. whereas the external assessment is based on assessments from written examinations. Both the internal and external assessments are created based on the parameters of Bloom's Taxonomy.

Alumni inputs are also central to a syllabus revisioning process.

#### 4.1.2. State the Components of the Curriculum (15)

| Tri - I | Tri - II | Tri - III  |
|---------|----------|------------|
| Core    | Core     | Core       |
| Skills  | Skills   | Functional |
| -       | -        | Skills     |

**TRI-I & II-** TRI-I & II focuses on fundamental core subjects that form the basic guiding principles of management. Skill-based certifications further add value.

**TRI-III & IV-** Trimester III & IV - focus on core, functional and skill-based certifications.

| Tri - IV   | Tri - V         | Tri - VI        |
|------------|-----------------|-----------------|
| Core       | Internship      | Internship      |
| Functional | Work Experience | Work Experience |
| Skills     | Research        | Research        |

**TRI V and VI-** These are the application-based trimesters wherein the students focus on learnings from internships to add on their learnings from the core, functional and skill-based certifications. Internships involve work in the industry and hence is an excellent way for checking learnings and their applications in various industry fit situations.

The curriculum structure is exhibited in Table- 4.1.2.

**Table 4.1.2. Components of the Curriculum 2021- 23**

| <b>Course Component</b>        | <b>Curriculum Content (% of the total number of credits of the program)</b> | <b>Total number of contact hours</b> | <b>Total number of credits</b> |
|--------------------------------|---|--------------------------------------|--------------------------------|
| Program Core                   | 29.98%  | 805                                  | 69                             |
| Program Elective               | 16.95%  | 455                                  | 39                             |
| Induction                      | NA  | NA                                   | NA                             |
| Skill based Certifications     | 4.47%   | 120                                  | 6                              |
| Internships                    | 48.6%   | 1305                                 | 65.25                          |
| <b>Total number of Credits</b> | <b>100%</b>   | <b>2685</b>                          | <b>172</b>                     |

#### **4.1.3. Transaction of the Curriculum (10)**

The two-year full-time PGDM program comprises 6 trimesters. The total number of courses in the PGDM Curriculum varies between 2022-24, 2023-25 and 2024 - 26, due to a dynamic and robust syllabus review process. The program begins in the month of July for 1<sup>st</sup> year as well as 2<sup>nd</sup> year. The institute follows the curriculum which is divided into 6 trimesters.

**Table 4.1.3- Structure of the Curriculum**

**Batch 2023-25  
Trimester -I**

| <b>Course Code</b> | <b>Course Title</b>                  | <b>Total Number of contact hours</b> |                      |                        |                    | <b>No. of Credits</b> |
|--------------------|--------------------------------------|--------------------------------------|----------------------|------------------------|--------------------|-----------------------|
|                    |                                      | <b>Lecture (L)</b>                   | <b>Tutoria l (T)</b> | <b>Practical # (P)</b> | <b>Total Hours</b> |                       |
| PG101              | Economics for Managers               | 20                                   | 5                    | 10                     | 35                 | 3                     |

#### 4.1.4. Overall quality and level of Program Curriculum (15)

The curriculum is the heart of any teaching / learning process. Lexicon MILE follows an annual process of syllabus revision under the directions of the Board of Studies (BoS). The curriculum is central for the AICTE approved PGDM – Marketing & Finance program. The relevance of the PGDM – Marketing & Finance program is according to the acceptance of this program from industry. Hence, the curriculum design focuses on the following areas: -

**1. Industry Compatibility** – Industry compatibility is the key for the PGDM – Marketing & Finance Program. The basic gap between industry and academia needs to be bridged and hence the BoS has decided on a period of an annual review for the syllabus of the program. The Annual review ensures-

- a. Change of Syllabi as per Industry Requirements.
- b. Updating contents of relevant subjects.
- c. Incorporation of new technological trends like Analytics and AI in education.
- d. Ensuring that there is no gap between industry expectations and academic deliveries.
- e. Participation of Industry in various academic processes through guest sessions, seminars, panel discussions, mock interviews, industry analysis sessions, etc.
- f. Involvement of Industry through theme based national and international research conferences in the PGDM program.
- g. Creating a system of industry mentors and assigning students to them so that they get the requisite industry exposure.
- h. Involvement of Industry in CRLI (Corporate Research & Learning Internship) design and deliverables. Alumni and corporate interface in syllabus creation ensures the right syllabus creation and deliverables.

## **2. Identification of New Subjects**

The identification of new subjects is necessitated by two main considerations.

- a. **The advent of new technology as per Industry 4.0 processes** – Industry 4.0 necessitates the incorporation of intelligent new technologies in the various industrial and manufacturing processes. The concepts like Robotics, Artificial Intelligence, IoT, Big Data Analytics etc., and such subjects with a futuristic orientation are now a part of the PGDM offerings

**b. The social relevance of new subjects and its impact on society** – Apart from technological upgrades of the syllabus, it is also necessary that the social relevance of the course contents be analyzed. Any academic course influences students, industry, and society in that order. Hence, it becomes necessary that the social relevance of the course is not lost. Lexicon MILE ensures social relevance through various projects like working with the traffic department, running social awareness campaigns, projects related to marketing of products made by the Jail inmates, hospitals, NGOs etc.

It becomes necessary to equate social relevance, technology, and student development so that students do not lose track of the larger picture.

**3. Change of contents of relevant subjects** - Once the SRT decides on retaining the relevant subjects the next task is to upgrade existing subjects as per contents. This task is assigned to the Syllabus Review Team (SRT) on an annual basis. The SRT has members from academia and industry with relevant experience. The syllabus review comprises for the following steps: -

- a. Review of the Subjects and Syllabus.
- b. Exploring Provisions for New Subjects based on Industry Trends.
- c. Updating the contents of the existing syllabus.
- d. Completion of the review and release of the syllabus for the new academic year.

The Syllabus Review Team (SRT) team comprises of the following: -

- a. A Convenor
- b. One in house academic / faculty of a respective discipline.
- c. The Industry Representative/s.
- d. A senior faculty with experience and exposure. Preferably from a premium academic institution or with a blend of academic and industrial experience.
- e. The specialism specific review team has a minimum of 4 members per specialism and hence the PGDM – Marketing & Finance course had a minimum of 8 members in their SRT Team. There is no cap on the maximum number that can be incorporated in the SRT as this is based on the needs of the review and the expertise of the team in question.
- f. The reviewed and updated syllabus is then handed over to the BoS for further delivery to the faculty team and students.
- g. Once the syllabus is vetted and reviewed, the faculty members responsible for teaching the subject have to create their independent Lesson/ Session Plans which is also distributed to the students. The Session Plan is now based on the reviewed syllabus.

#### **4. Creation of a Session / Lesson Plan**

The Session Plan is designed by the faculty resource teaching the subject. The faculty uses the syllabus as their basic instrument but devises the session plan using various pedagogical tools based on the subject, faculty expertise and exposure and the requirements of the topic under study.

Some common pedagogical tools that are used across the PGDM- Marketing and Finance Program are: -

- Case Studies
- Role Play
- Lectures
- Group Discussions
- Team Presentations
- Movie / Documentary Reviews
- Industry Projects
- MSME Trainings
- Social Projects
- Industry Professional Sessions
- Seminars
- Workshops
- Research Conclaves
- Guest Sessions from Experts
- Simulations
- Technology Based Learnings
- Research Projects
- Case Study Writings
- Internships
- Industry Visits
- Field Visits
- Assessment tools.
- Language Labs

## Sample Session Plan

### SESSION PLAN – PGDM BATCH 2025-27

TRIMESTER: I

COURSE CODE **1BAC01** TITLE: **Data Analysis and Decision Making**

CREDITS **3**

#### Introduction:

The Data Analysis and Decision Making course equips students with essential quantitative and analytical skills to make effective business decisions. It lays the foundation for understanding how data can be used strategically to drive decision-making across functional areas. This course introduces fundamental concepts such as data collection, organization, visualization, statistical analysis and business modelling.

Students will explore different types of decisions faced by managers, learn to identify structured vs unstructured problems and apply decision-making frameworks. With a strong focus on business context this course encourages critical thinking and data literacy. By the end, students will be prepared to apply data analytics to improve operational and strategic decision outcomes in diverse industries.

#### Course Objectives:

- a. **Remembering** – Define key concepts related to data, decision types, statistical terms and foundational analytics terminology.
- b. **Understanding** – Explain data-driven decision-making frameworks and the importance of data in solving business problems.
- c. **Applying** – Use MS Excel to perform descriptive and inferential statistical techniques to analyze data sets.
- d. **Analyzing** – Compare decision alternatives by analyzing probability distributions, payoff tables and scenario-based outcomes.
- e. **Evaluating** – Assess the effectiveness of business decisions using sensitivity analysis, cost-benefit analysis and risk-return tradeoffs.

#### Course Outcomes:

| At the end of the course the student will   | PO1 | PO2 | PO3 | PO4 | PO5 |
|---|-----|-----|-----|-----|-----|
| <b>CO1:</b> Define key concepts in data analytics, principles of data driven decision-making and statistical concepts.        | -   | -   | 1   | -   | -   |
| <b>CO2:</b> Explain the role of statistical thinking and decision analysis in solving managerial problems.                    | -   | 3   | -   | 1   | -   |
| <b>CO3</b> Apply statistical techniques and decision models to real-world scenarios using MS Excel.                           | 3   | 3   | -   | 1   | -   |
| <b>CO4:</b> Analyse decision alternatives using data interpretation, probability and modelling techniques.                    | 2   | 2   | -   | 2   | 1   |
| <b>CO5:</b> Evaluate solutions using sensitivity, cost-benefit, and risk-return analyses to support business recommendations. | -   | 2   | -   | -   | 1   |

|                              |  |

Using examples from Marketing, Operations, HR &amp; Finance.</p> |
| <b>Session 3</b>             |  |
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>Understanding Business Data</li> <li>Types of Variables: Categorical, Continuous, Ordinal, Nominal</li> <li>Scales of Measurement</li> </ul>  |
| <b>Teaching resources**</b>  | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Types of Data in Statistics – Nominal, Ordinal, Interval, Ratio</a></li> <li>In-class Worksheet on Variable Identification</li> </ul> <p><b>Delivery Plan</b></p> <p>Lecture + Excel demo with hands-on activity: Students label variable types in a sample business dataset (customer profile, sales data, feedback ratings, etc.)</p>   |

| Session 4                    |   |
|------------------------------|---|
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>Introduction to Statistics &amp; its types</li> <li>Measures of Central Tendency: Mean, Median, Mode</li> <li>Choosing the right measure for business problems</li> <li>Application of central tendency in business decision-making</li> </ul>   |
| <b>Teaching resources **</b> | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Central Tendency Explained</a></li> <li>Excel Data Sheet for computation</li> <li>Case Example: <i>Descriptive Statistics of an e-commerce store data.</i></li> </ul> <p><b>Delivery Plan</b></p> <p>Hands-on Excel activity: Students calculate mean, median and mode from sales data and discuss business implications (e.g., skewed data, choosing appropriate measures).</p>   |
| Session 5                    |   |
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>Measures of Dispersion: Range, Variance, Standard Deviation</li> <li>Coefficient of Variation</li> <li>Role of Dispersion in assessing Business Risks</li> </ul>   |
| <b>Teaching resources**</b>  | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Measures of Variability</a></li> <li>Excel Template for calculation</li> <li>Article: <a href="#">Measuring Customer Experience Variability</a> – Harvard Business Review</li> </ul> <p><b>Delivery Plan</b></p> <p>Students use Excel to compute and interpret standard deviation and compare risk implications for a business dataset.</p>   |
| Session 6                    |   |
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>Data Distribution Patterns: Symmetric vs Skewed</li> <li>Understanding Shape: Bell Curve, Kurtosis</li> <li>Business Applications of Normal Distribution</li> <li>Visualization Tool: Histogram</li> </ul>   |
| <b>Teaching resources **</b> | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Normal Distribution and Bell Curve</a></li> <li>Excel simulation of normal vs skewed data</li> <li>Pre-read: Chapter from <i>Statistics for Business and Economics</i> – “Data Distribution”</li> </ul> <p><b>Delivery Plan</b></p> <p>Interactive Excel visualization of normal and skewed distributions where students identify real-world business processes that may follow a bell curve (e.g., service times, sales response, etc.)</p> |

| Session 7                    |  |
|------------------------------|--|
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>Identification of Outliers</li> <li>Impact of Outliers on Business Analysis</li> <li>Methods to detect Outliers (IQR, Z-score)</li> <li>Visualization Tool: Boxplots</li> <li>Internal Evaluation – 1 (For topics covered till Session – 6)</li> </ul>  |
| <b>Teaching resources**</b>  | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Handling Outliers</a></li> <li>Excel Dataset with hidden outliers</li> <li>Case Discussion: <i>TBD</i></li> </ul> <p><b>Delivery Plan</b><br/>Hands-on session: Students identify outliers in a sales dataset and discuss whether they should be removed, investigated or corrected.</p>  |
| Session 8                    |  |
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>Basics of Probability in Business</li> <li>Types of Probability: Classical, Empirical and Subjective</li> <li>Probability Rules: Addition and Multiplication</li> <li>Mutually Exclusive and Independent Events</li> <li>Business interpretation of Event Relationships</li> <li>Business application of Probability in Forecasting and Decisions</li> </ul>  |
| <b>Teaching resources **</b> | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Probability in Business Statistics</a></li> <li>Pre-read: <a href="#">Introduction to Probability (Business)</a></li> <li>Case Example: <i>TBD</i></li> <li>Excel Worksheet on Probability experiments</li> <li>Practice problems on sales events and marketing campaigns</li> </ul> <p><b>Delivery Plan</b><br/>Interactive problem-solving in Excel (e.g., sales probabilities). Discussion on how businesses use likelihood to forecast customer behaviour or demand.<br/>Students solve real-world style probability scenarios using Excel or by hand such as the likelihood of sales promotions succeeding across regions.</p> |
| Session 9                    |  |
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>Conditional Probability</li> <li>Bayes' Theorem</li> <li>Business Use-Cases: Churn Prediction, Repeat Purchase Behavior</li> <li>Real-World Application in CRM and Marketing</li> </ul>   |

|                              |  |
|------------------------------|--|
| <b>Teaching resources**</b>  | <b>Teaching Resources</b> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Conditional Probability in Business</a></li> <li>Dataset: <a href="#">Customer Retention &amp; Churn</a></li> <li>Excel activity to calculate conditional probabilities</li> </ul>   |
|                              | <b>Delivery</b><br>Students analyze conditional probabilities using a business dataset (e.g., Probability of Churn given low Satisfaction Rating). Brief discussion on predictive modelling.   |
| <b>Session 10</b>            |  |
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>Internal Assessment - 2</li> </ul>  |
| <b>Teaching resources **</b> | Handson assignment covering the topics of Business Decisions, Descriptive Statistics & Probabilities.  |
| <b>Session 11</b>            |  |
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>Introduction to Decision Models</li> <li>Importance of Modelling in Decision Making</li> <li>Building a Simple Decision Model using Excel</li> </ul>  |
| <b>Teaching resources**</b>  | <b>Teaching Resources</b> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Decision Models Explained</a></li> <li>Pre-read: Chapter from <i>Business Analytics</i> – Albright &amp; Winston</li> <li>Excel Sample File: Dataset for performing hands-on practice.</li> </ul> <b>Delivery Plan</b><br>Walkthrough of a simple decision model in Excel. Students recreate it using new variables (e.g., cost, revenue, profit). Class discusses the structure of decision models. |
| <b>Session 12</b>            |  |
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>Scenario Analysis</li> <li>Creating Best-case, Worst-case, and Most-likely scenarios</li> <li>Using scenario tools in Excel (Scenario Manager)</li> </ul>   |
| <b>Teaching resources **</b> | <b>Teaching Resources</b> <ul style="list-style-type: none"> <li>YouTube: <a href="#">Scenario Planning in Excel</a></li> <li>Excel Tool: Scenario Manager</li> <li>Case Example: TBD</li> </ul> <b>Delivery Plan</b><br>Hands-on Excel practice: Students develop three financial scenarios for a product launch. Discussion on how scenarios influence planning and contingency design.  |
| <b>Session 13</b>            |  |
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>Sensitivity Analysis</li> <li>Identifying Most Sensitive Parameters</li> </ul>  |

|                              |   |
|------------------------------|---|
| <b>Teaching resources**</b>  | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>• YouTube: <a href="#">Sensitivity &amp; Scenario Analysis</a></li> <li>• Excel Add-in: Data Tables / Manual Simulations</li> <li>• Case Study: <i>Airline ticket pricing sensitivity to fuel cost</i></li> </ul> <p><b>Delivery Plan</b></p> <p>Students vary key parameters and observe effects on outcome. Visualize insights using charts. Class discussion on how small changes influence major decisions.</p>                                 |
| <b>Session14</b>             |   |
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>• <b>What-if Analysis</b></li> <li>• <b>Using Data Tables and Goal Seek in Excel</b></li> <li>• <b>Real-time experimentation with decision variables</b></li> </ul>  |
| <b>Teaching resources **</b> | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>• YouTube: <a href="#">What-if Analysis Tools in Excel</a></li> <li>• Excel Activity Sheet: Break-even point analysis</li> <li>• Practice Problems: Marketing ROI under changing costs</li> </ul> <p><b>Delivery Plan</b></p> <p>Students use What-if tools to assess how changes in cost, price or volume impact profit. Reflection on the importance of sensitivity in high-stake business decisions.</p>   |
| <b>Session 15</b>            |   |
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>• <b>Introduction to Statistical Inference</b></li> <li>• <b>Population vs Sample</b></li> <li>• <b>Central Limit Theorem</b></li> <li>• <b>Understanding Sampling Distributions</b></li> </ul>  |
| <b>Teaching resources**</b>  | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>• YouTube: <a href="#">Sampling Distribution Explained, Central Limit Theorem</a></li> <li>• Pre-read: Chapter from <i>Statistics for Business and Economics</i> (Anderson et al.)</li> <li>• Excel activity: Random samples and sample mean analysis</li> </ul> <p><b>Delivery Plan</b></p> <p>Demonstration using Excel to simulate sampling distributions. Class discussion on how sample-based inference helps in business decision-making.</p> |
| <b>Session 16</b>            |   |
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>• <b>Hypothesis Testing Fundamentals</b></li> <li>• <b>Null and Alternative Hypothesis</b></li> <li>• <b>One-tailed vs Two-tailed Tests</b></li> <li>• <b>Z Test</b></li> </ul>  |
| <b>Teaching resources **</b> | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>• YouTube: <a href="#">Basics of Hypothesis Testing</a></li> </ul>  |

|                              |   |
|------------------------------|---|
|                              | <ul style="list-style-type: none"> <li>• In-class examples on identifying types of hypotheses</li> <li>• Case Example: <i>Testing if change in personnel has resulted in delivery time in a restaurant.</i></li> </ul> <p><b>Delivery Plan</b><br/>Students formulate hypotheses for a given business scenario. Discuss the logic of test setup and interpretation of results.</p>  |
| <b>Session 17</b>            |   |
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>• Understanding Student's T Distribution</li> <li>• t-Tests</li> <li>• Business Applications: Before/After campaign analysis, A/B Testing</li> </ul>   |
| <b>Teaching resources**</b>  | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>• YouTube: <a href="#">z-Test vs t-Test</a>, <a href="#">What is T-Distribution</a></li> <li>• Excel Template with sample datasets</li> <li>• Case Study: <i>A/B test to compare two landing pages</i></li> </ul> <p><b>Delivery Plan</b><br/>Students perform t-tests in Excel and interpret output. Groups present conclusions based on p-values and business implications.</p> |
| <b>Session 18</b>            |   |
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>• Chi-square Tests for Independence</li> <li>• Application to Categorical Data</li> <li>• Business Use-Cases: Customer preference vs Region</li> </ul>   |
| <b>Teaching resources **</b> | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>• YouTube: <a href="#">Chi-Square Test Simplified</a></li> <li>• Dataset: Customer data by region and product preference</li> <li>• Excel Guide to Chi-square in Pivot Tables</li> </ul> <p><b>Delivery Plan</b><br/>Students conduct a Chi-square test on categorical data and evaluate if variables are dependent. Connect results to marketing or sales strategies.</p>        |
| <b>Session 19</b>            |   |
| <b>Topics*</b>               | <ul style="list-style-type: none"> <li>• Confidence Intervals and Margin of Error</li> <li>• Interpreting Interval Estimates in Business Context</li> <li>• Communicating Results with Uncertainty</li> </ul>   |
| <b>Teaching resources**</b>  | <p><b>Teaching Resources</b></p> <ul style="list-style-type: none"> <li>• YouTube: <a href="#">Confidence Intervals in Business</a></li> <li>• Excel Template: Confidence interval calculations</li> <li>• Case Study: <i>Market research survey result interpretation</i></li> </ul> <p><b>Delivery Plan</b><br/>Hands-on Excel activity: Students calculate and interpret 95% confidence intervals.</p>   |

|                              |   |
|------------------------------|---|
|                              | Discussion on how to communicate this to decision-makers.                 |
| <b>Session 20</b>            |   |
| <b>Topics *</b>              | <ul style="list-style-type: none"> <li>Internal Assessment – 3</li> </ul> |
| <b>Teaching resources **</b> | Hands on Case Study to evaluate on Hypothesis Testing.                    |

### Evaluation Rubrics

#### Home Assignments

| Criteria                          | Excellent<br>(100%)   | Good<br>(80%)  | Satisfactory<br>(60%)  | Needs<br>Improvement<br>(40%)   | Weightage<br>(%) |
|-----------------------------------|---|--|--|---|------------------|
| <b>Understanding of Concepts</b>  | Demonstrates a deep, accurate understanding of data analysis, decision-making frameworks and statistical concepts. Integrates theory with clear business context application.                                       | Shows a good grasp of key concepts with minor gaps or inaccuracies in application.           | Basic understanding with some errors or misconceptions.                              | Limited or incorrect understanding of data analysis and decision-making concepts. | 30%              |
| <b>Application &amp; Analysis</b> | Effectively uses analytical techniques (e.g., Excel, visualization, statistical analysis, sensitivity analysis) to solve structured and unstructured business problems, provides critical insights and comparisons. | Applies techniques appropriately but with limited depth in analysis or real-world relevance. | Some application of tools or frameworks but lacks critical thinking or completeness. | Minimal and/or incorrect application of tools, lacks analysis.                    | 25%              |
| <b>Clarity &amp; Structure</b>    | Well-organized, logical flow, clearly structured content with smooth transitions connecting   | Generally organized, with minor structural issues or inconsistencies.                        | Some structure but lacks clarity or logical flow in parts.                           | Poorly organized, difficult to follow, lacks logical flow or clarity.             | 15%              |

|                                      |  |  |  |  |     |
|--------------------------------------|--|--|--|--|-----|
|                                      | concepts, results and conclusions.   |  |  |  |     |
| <b>Research &amp; References</b>     | Integrates diverse, high-quality sources (textbooks, articles, web resources). Proper citation and strong evidence for claims. | Uses relevant sources but lacks diversity or depth in supporting research. | Limited references with weak connection to the topic or incorrect citations. | Lacks credible references or uses unreliable sources, poor citation. | 15% |
| <b>Presentation &amp; Formatting</b> | Professionally presented (consistent font, spacing, charts/visuals), fully adheres to guidelines and error-free grammar.       | Mostly follows guidelines, minor formatting or grammar issues.             | Some formatting or grammatical inconsistencies present.                      | Poor formatting, frequent errors, not aligned with guidelines.       | 15% |

**Note:** Internal Marks of Continuous and Concurrent Evaluation (CCE) must be submitted to the examination department for records as per the schedule.

The curriculum design process has already been described earlier. It depends upon primary feedback from recruiters, feedback from industry (The companies CITCO, TIAA etc. have suggested inputs to be added to the syllabus and have also asked for specialized trainings to be imparted to students prior to their joining), a process of benchmarking the syllabus against the syllabi of IIMs, premium institutions, and reputed Universities.

The POs are thus framed annually based on the industry trends on a case-to-case basis depending. Some major influences on curriculum design were factors like

**The following factors are considered when creating the program:**

- Advent of AI.
- Emergence of Analytics
- Various factors in line with Industry 4.0
- Introduction of simulations as an important pedagogical tool.
- Relevant job specific skills required based on India Skills Report of relevant years.
- Focus on creation of the, “Day Zero Professional” i.e. a student who becomes professional from the very first day at work.
- Understanding diversity of students and hence diversity and need of various pedagogical tools.

- Importance of mentoring students with seasoned industry and academic professionals.
- Awareness of students about societal needs through social awareness projects.
- Benchmarking the programs' quality to those given by major business schools in India and internationally.
- Industry Interface through Guest Sessions.
- Remedial class for students who are weak in languages.
- Yearly BoS reviews of academic curriculum
- Placement Training Sessions.

### **Revised Academic Structure**

In order to ensure industry compatibility, Lexicon MILE follows a dual system of courses. The first category includes the credit courses, and the second category includes various value-based certifications. The details of the credit-based courses and value-based certifications are already covered in the course structure earlier in this chapter.

A detailed list of value-based certifications is enclosed herewith.

#### **List of Value based certifications.**

| <b>Sr. Nos.</b> | <b>Name of Certification</b>                     |
|-----------------|--|
| 1               | MS - Office                                      |
| 2               | German Language                                  |
| 3               | Neuro Linguistic Programming                     |
| 4               | AI Powered Digital Marketing                     |
| 5               | Supply Chain Management                          |
| 6               | Tools for Research & Business Analytics          |
| 7               | Applications of HR Analytics in Corporate Sector |
| 8               | Financial Modelling                              |

**\*Certifications as per specializations are compulsory.**

**A Sample copy of the certification grade sheet of PGDM Batch 2021-23 is enclosed herewith.**

Following is the list of new courses added in the last three years:

- 1. Research & Business Analytics (RBA)**
- 2. Business Management**

#### 4.2. Learning Processes (75)

The advent of the covid pandemic in 2020 and the varying attention spans of the students necessitate a variety of learning processes that make learning impactful, creative, and engaging. The limited attention span of students in class thus makes the job of designing learning content very critical. This may seem like a limitation, but it makes the art of engaging teaching more critical. The art of teaching thus has to draw from the teacher's experiences, industry relevant examples, cases, role-plays etc.

##### 4.2.1. Describe Processes Followed to improve Quality of Teaching & Learning (20)

An overall analysis of the 2019-21 batch and subsequent batches indicate the following: -

- 1. Basic Degrees-** Maximum number of enrolled students are from the BBA/BBM background. This is followed by the students with B. Com who are in the second position. Coming in third are the students doing B.Sc. followed by the exceptional students who had pursued the B.A. degree. In the minority there are students who have Engineering/ Technology degrees and those with Pharmacy as their basic graduation. It is also rare to get a student who already has completed a postgraduation in some other discipline apart from Management.
- 2. Dwindling Attention Span-** A classic feature of the Gen.Z students is a very short attention span. At the same time, they have access to some of the best and relevant

information through the internet and other platforms. This makes the task of designing the learning content very challenging.

- 3. Fluctuation in Lecture Durations-** At Lexicon MILE, we experimented with lecture times that were of 2 hours per class. It was then reduced to 1.5 hours to make the learning impactful. The propensity of students to sit for longer hours was also a challenge.
- 4. Students with Work Experience –** The students who have valid work experience were also a minority. The majority of the students enrolled for the PGDM program were freshers with no or less work experience.
- 5. The ROI Paradigm-** The Return-on-Investment paradigm means that the student is interested only in paying the fees. The fees become the benchmark for the expected placement figures. The mentality to work for placements is lost. The ROI paradigm insists on a placement figure that is closer to the fees paid. The work and excel platform were losing sheen.

## AN OVERVIEW OF THE LEARNING PROCESSES

### Trimester-I

The Trimester-I is on basic management fundamentals and hence is a blend of traditional basic management subjects along with the latest trends like Business Analytics. Since the students are having separate graduation subjects like Business Management, Commerce, Arts, Science etc. it is necessary to get them on the fundamental management platform. This is the task accomplished by TRI-I. Apart from the core subjects, this Trimester also focuses on skill-based certifications like Basics of Excel, German Language, NLP, etc. English Language training sessions are also a part of training in TRI-I.

### Trimester-II

The Trimester-II emphasizes core subject learnings. This Trimester also has skill-based certifications. This Trimester focuses on the transition between basic management subjects to application-based subjects. The skill-based certifications also have the flavor of specialisms like Digital Marketing, NLP etc. The industry visits are normally planned during Trimester-II. Following companies have been visited-

### Industrial Visits

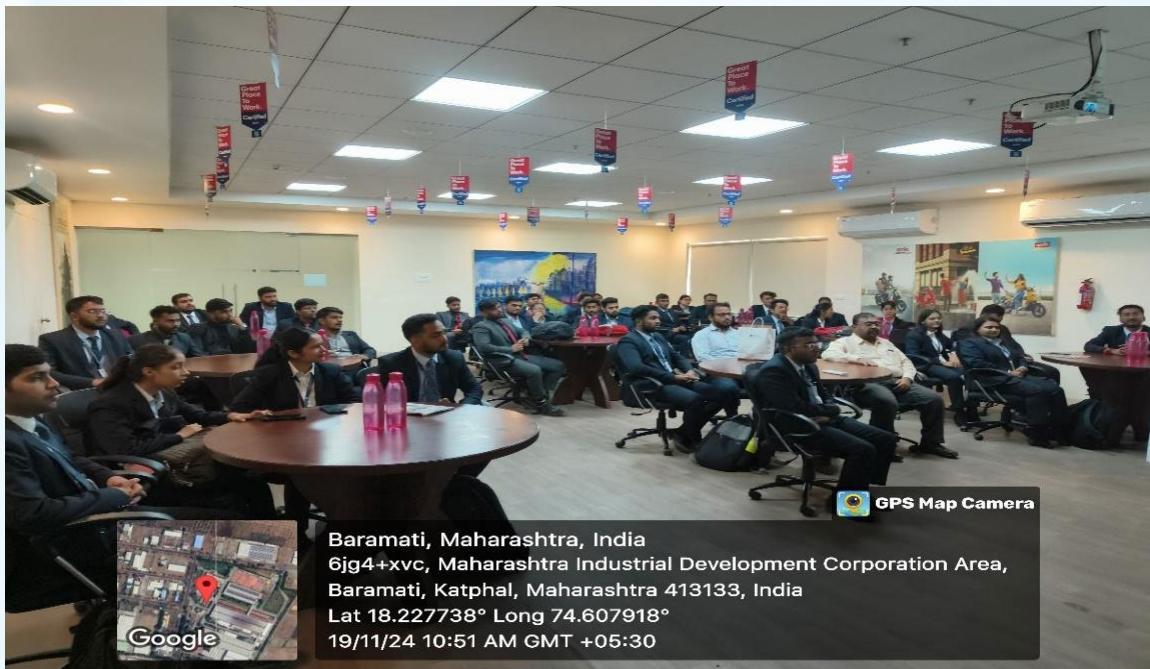

Some of the industry visits which were planned during Trimester-I to IV, are as follows

1. Piaggio Vehicles Pvt. Ltd.
2. Pushpak Steel Industries Pvt. Ltd.
3. Amul
4. Praj Industries Ltd.
5. Armacell
6. Kalyani Maxion Wheels (P) Ltd.

**Industrial Visit to Amul on 13<sup>th</sup> September 2022**

### Industrial Visit to Piaggio on 19<sup>th</sup> November 2024

### Industrial Visit to KALYANI MAXION WHEELS PRIVATE LTD on 08<sup>th</sup> July 2024

#### Trimester-III & IV

Trimester-III involves core, functional and skill enhancing certifications.

Major events during TRI-III & IV are TED and Research Conferences.

### Trimester-V and VI

The trimesters V and VI are unique at Lexicon MILE. This is the part where the application orientation of the students is tested through industrial internships. The Internships total a period of nine months which are divided into 3 trimesters each. The students have a discretion of conducting valid research on a topic which is of relevance to the company where they intern or if the same is not possible, they can undertake research on a relevant area that culminates into a research report. These internships are strictly monitored through a team of academic and industrial mentors.

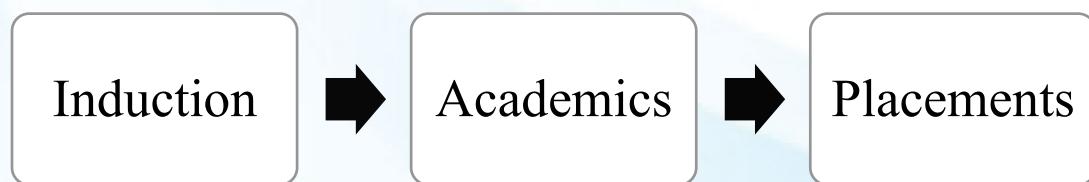

The internships are known as Corporate Research and Learning Internships or more popular as the acronym - CRLI. The mentor studiously monitors the student progress week wise through weekly review meetings. These meetings are mostly online due to the geographical diversity of these internships. Every mentor creates a WhatsApp group of his/her mentees and carries out weekly progress meetings which are then shared with the Faculty Resource who heads CRLI. Continuous student monitoring thus ensures better quality research reports.

### Learning Processes

1. Internships
2. Classroom Learning
3. Research and other conferences
4. TED events
5. Projects
6. Winter Internship Projects with Dept. of Forests
7. Robust Assessment Systems
8. GD/PI and Placement Training
9. Psychometric Tests
10. Events
11. Soft Skill Development
12. Language Labs including Foreign Languages
13. Simulations
14. Analytical Skill Trainings

### The Academic Calendar-

The Academic Activities at Lexicon MILE can be broadly classified in to 3 phases.

#### Phase- I – Induction

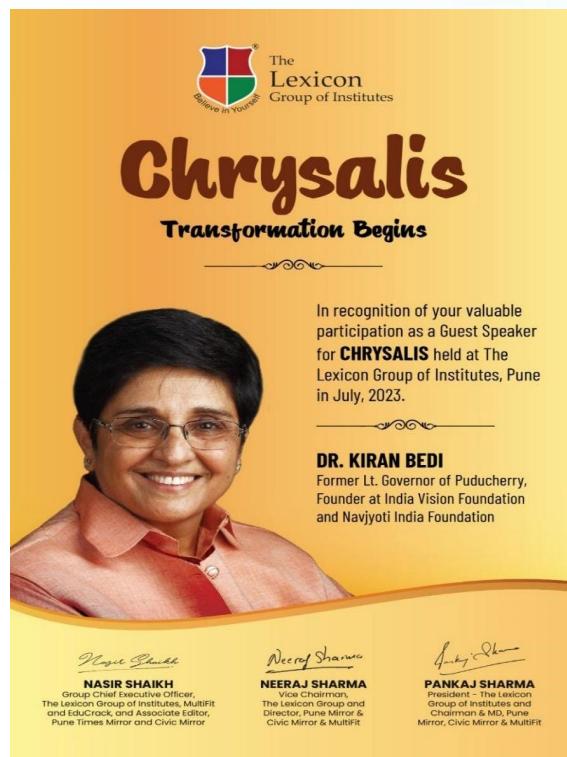

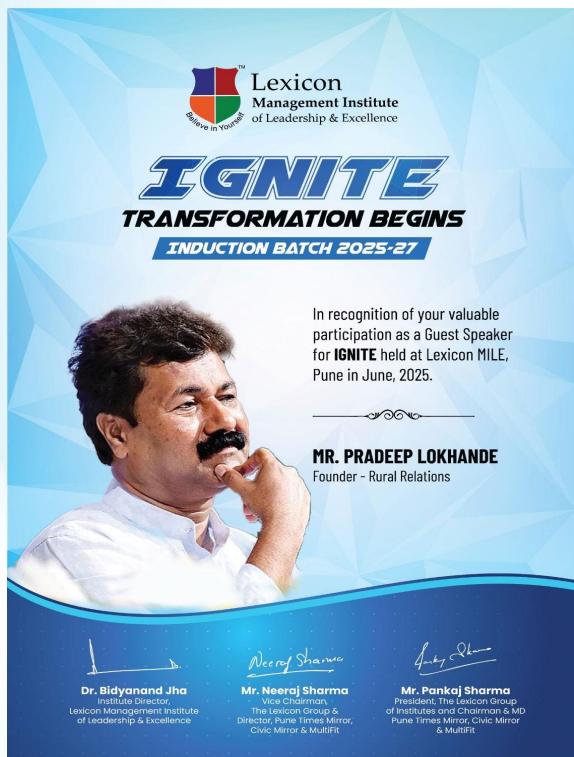

The Induction at Lexicon MILE aims at becoming a life changing event for students. It has myriad experiences like exercises, Yoga, aerobics, Zumba, meditation, sessions on health and stress, etc. This part focuses on health, wellbeing, healthy eating habits, lifestyle changes etc.

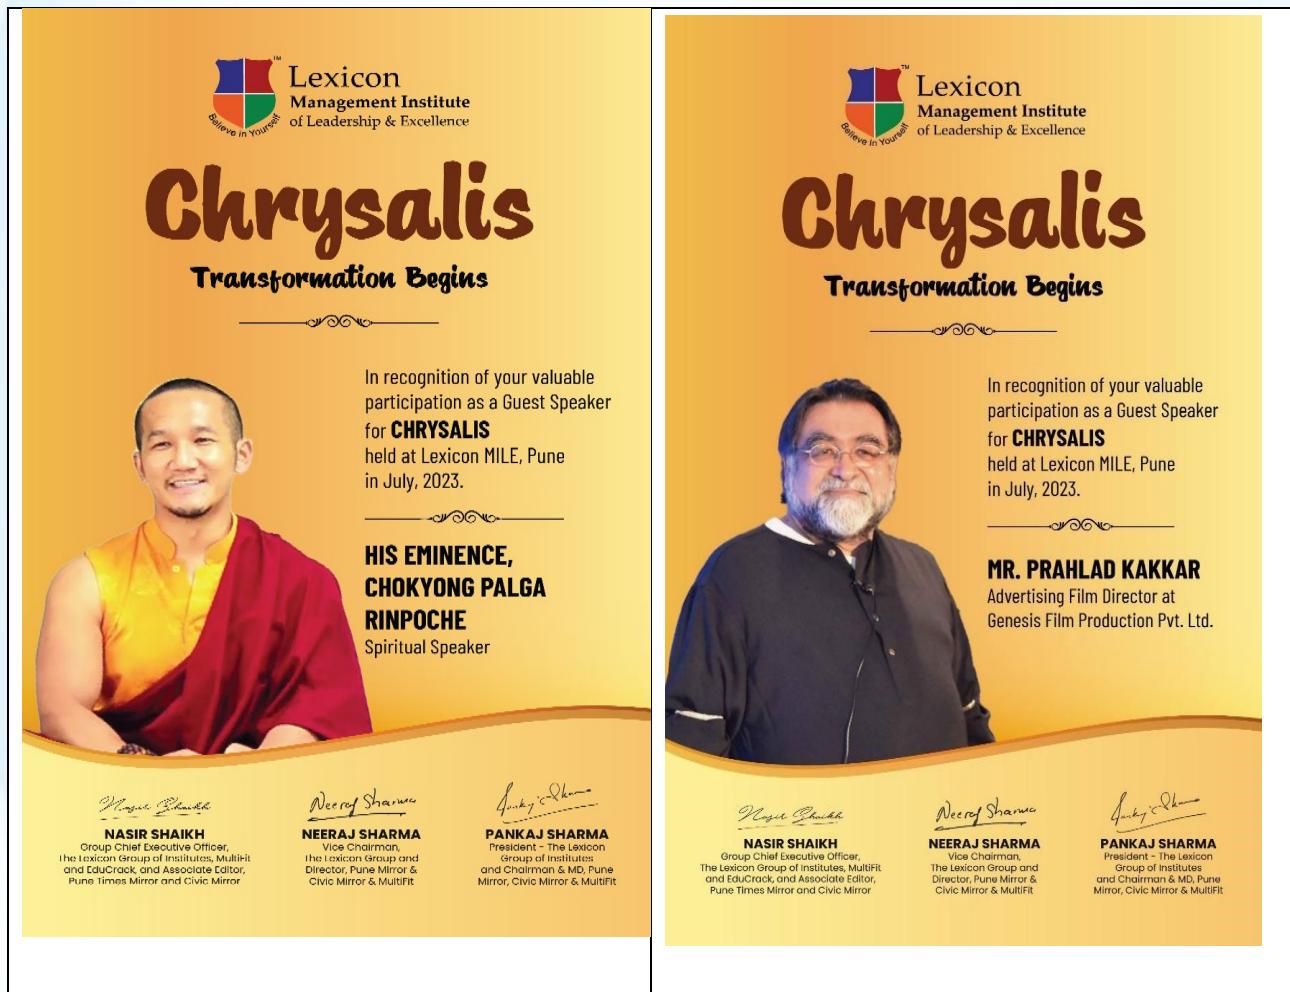

The second part focuses on interactions with industry leaders, entrepreneurs, social leaders, experts on learning styles, stalwarts, etc.

Sessions on self-help and improvements are also a major part of the induction sessions which also include outbounds, treks, games, sports and other group activities.

Induction is a combination of student development and growth through various individual and group activities. A primary assessment of their English language spoken and written also takes place during induction so that the right support system can be given to students with a poor language orientation.

The induction program has a duration of 21 days with the underlying logic that all life changing habits require 21 days to acquire. Some personalities who have graced the Induction event over the years are as follows: -

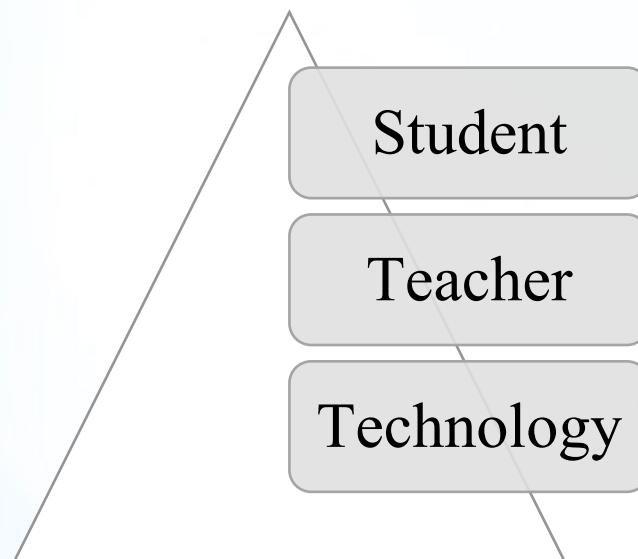

7. Sessions on students' development, GD/PI preparation, mock training for interviews, aptitude tests, alumni interactions etc.

### Phase-III- Placements

The Placement part will be explained in detail in the subsequent chapters. This part will focus on getting the students' placement ready. Some of the initiatives for making the student's placement ready are as follows:

1. Improvement in spoken and written English that will enable them to crack interviews and be an active member of Group Discussions.
2. Importance of reading, especially newspapers.
3. Corporate Interphases
4. HR Conferences
5. Alumni Interactions
6. Training on various assessment tests. Etc.

**The Teaching- Learning Triad can be explained as follows:**

The Quality of the Teaching-Learning Process depends upon

1. Student Quality
2. Teacher Training & Development
3. Technology and Tools used in the classroom

#### I. Student Quality

A measure of the incoming quality of students can be measured as follows: -

##### 1. Intake of Students

| Year           | 2021-23 | 2022-2024 | 2023-25 | 2024-26 |
|----------------|---------|-----------|---------|---------|
| Intake (M & F) | 95      | 179       | 170     | 153     |

The 2021-23 batch had a batch size of 95. It increased to double to 179 in the academic year 2012-23. In the batch 2023-25, the intake was at 170. Finally, the intake in the academic year 2024-26 was 153.

## 2. Graduation wise break up of incumbent students

| Academic Year/ Graduation Break ups | 2021  | 2022  | 2023  | 2024  |
|-------------------------------------|-------|-------|-------|-------|
| B. Com                              | 41.13 | 34.03 | 48.24 | 51.63 |
| BBA and similar splns.              | 34.03 | 30.30 | 29.41 | 27.45 |
| B.Sc.                               | 12.57 | 11.78 | 14.71 | 8.50  |
| B.Tech.                             | 7.33  | 6.73  | 2.94  | 3.27  |
| B.A.                                | 5.24  | 2.02  | 1.76  | 3.27  |
| B. Pharm.                           | 2.62  | 2.69  | 0.00  | 1.31  |
| B.E.                                | 0.52  | 3.37  | 1.76  | 1.31  |
| B.C.A.                              | 3.66  | 0.67  | 0.00  | 1.31  |
| Others                              | 0.00  | 0.34  | 1.18  | 1.95  |
| PG                                  | 0.00  | 0.00  | 0.00  | 0.00  |

The students with B.Com. form the major number of incumbents followed by BBA and similar courses.

An analysis of students over the years indicates the following developmental issues that needed to be rectified.

1. Spoken English Proficiency.
2. Training to clear Aptitude Tests.
3. Personal Interview Sessions.
4. Group Discussion Training.
5. Less Mathematical aptitude.
6. Goal Setting Sessions required.
7. Sessions on business etiquette needed.

## 3. Teacher Training & Development

**Faculty Feedback** - Faculty feedback of both full-time and visiting faculties are undertaken after every 3<sup>rd</sup> and every 6<sup>th</sup> session. These are so time to enable faculty to bring corrections in their teaching style or contents based on student's feedback. It also plays an important role in appreciating excellent teaching resources. Teachers who receive excellent feedback are awarded with the Kamal Sharma Award for Academic Excellence which is conducted annually on Teacher's Day.

**Table: Academic Research and Publications**

| Sr. No. | Research Publication       | No. of Publication |
|---------|----------------------------|--------------------|
| 1       | Research Papers            | 101                |
| 2       | Books Publication          | 18                 |
| 3       | Books Chapter Publication  | 7                  |
| 4       | Patents Filed / Awarded    | 8                  |
| 5       | Articles Publication       | 10                 |
| 6       | Case Studies Publication   | 11                 |
| 7       | Ph.D. / Fellowship Awarded | 2                  |

#### 4. Technology & Tools Used in Classroom

1. Transitioning to MS TEAMS platform to enable online sessions.
2. All classrooms are equipped with state-of-the-art Digi boards.
3. WORDS WORTH Language Labs to facilitate spoken English.
4. Simulation Exercises with Cesym.
5. All classrooms / auditoriums are air conditioned.
6. Library Automation like Autolib, Webopac, Delnet,

Physical Infrastructure at Lexicon MILE is as follows: -

**A classroom at Lexicon MILE**

**TEDX event at the Auditorium at Lexicon MILE**

### **Adherence to Academic Calendar**

An academic calendar is a schedule or timetable that outlines the important dates and events within an academic year for Lexicon MILE. It serves as a guide for students, faculty, and staff, providing a framework for the organization and management of academic activities. The academic calendar typically includes key dates such as:

1. Term Plan of various academic events.

2. Examination Period.
3. Holidays, Vacations and Breaks.
4. Administrative Dates.
5. Convocation Date.
6. Administrative Deadlines

The academic calendar is a blueprint that defines the way in which Lexicon MILE runs. It helps students to plan their study and extracurricular time accordingly. It defines the time for academic events and other institute events. The Academic Calendar gives the students, faculty, the administrative and the placement teams scope to understand all activities that are lined up.

### **Use of various instructional methods and pedagogical initiatives**

Faculty members devise an appropriate mix of instructional and pedagogical tools to deliver the lecture, which varies from course to course based on the nature and learning objectives. Faculties use the traditional lecture method as well as other innovative tools to make the teaching and learning process effective.

#### **Some such methods are as follows:**

**Lecture and interactive learning** – Lectures can be traditional, or by an esteemed guest or by a subject expert or be simply interactive in nature. This is evidenced in the session plan for the subject.

**Business Simulation**- Lexicon MILE has adopted the simulation tools designed and developed by Cesym. Cesym has designed similar simulations for various reputed institutions including IIMs.

**Case Studies** – Apart from routine case studies that are a part of the academic structure, the students are encouraged to focus on issues at their workplace and write live cases on them. Case Studies also brings in the important angle of group studies as multiple perspectives can be developed in a student group.

**Roleplays**- Role plays work effectively as a pedagogical tool in subjects that have a situational context to understand various possible outcomes. These are very popular amongst students.

**Group Assignments** – Indicates the importance of Teamwork and helps in developing team skills.

**Field Trips** – Field trips are an important avenue of learning.

**Students on a field visit**

**Live Projects-** Students can take the advantage of various live projects, working with faculty and industry mentors.

**Flipped Classroom Model**-Using pre-recorded lectures to help students learn concepts and focus on applications.

**Professional Development Workshops** – To improve interview skills, aptitude tests, group discussion preparation and so on.

**Career Counselling Sessions** - These sessions enable students to finalise specialism, understand career prospects, identify sectors and companies to work with.

#### **Methodologies to spruce up non-focused students and further fortify focused students.**

Some of the major weaknesses that are observed in students based on company feedbacks are as follows-

1. Challenges in English language speaking and writing.
2. Lack of corporate etiquette.
3. Weak in clearing Aptitude Tests.
4. No/Less reading of newspapers.
5. Not readers by taste or through hobbies.
6. Weak in extracurricular activities.
7. CVs are very ordinary with no distinctions.
8. Less sense of responsibility and flippant attitude.
9. Lack of listening to News or reading Newspapers.
10. Low Mathematical proficiency.

Some of the major strengths of students of Lexicon MILE are as follows-

1. Ready to take up challenges.
2. Goal Oriented.
3. Not typical 9am to 5pm workers. Committed to organizational goals.
4. Focused.
5. Into some sort of reading – books, periodicals, blogs, newspapers etc.
6. Good English Language proficiency.
7. Listening to productive material using online apps like Spotify.
8. Usually take initiatives in various events organized at the institute.
9. Thirst for improvement.
10. Good in research and analysis.
11. Showing a strong propensity towards current subjects like Data Analytics, AI, etc.

### **Measures to improve focus amongst students.**

1. **Specialized training in English language** – both written and spoken through specialized workshops.
2. **Workshops for Aptitude** – The students are able to acclimatize to the aptitude tests of various companies and become aware of the kind and type of questions asked.
3. **Alumni Interactions**- These work in a major way when students can see alumni in various roles in the industry. Alumni interactions and mentoring help non-focused students to set their goals.
4. **Academic Mentorship** – Each student has a specific faculty mentor whom he/she can reach out to.
5. **Wellness Sessions**- These focus on healthy living, good dietary habits, time management, focus, exercise, yoga, Zumba etc.
6. **Various Extracurricular Events**- Events like conferences, TED, corporate connect sessions help students connect to corporate leaders.
7. **Flipped Classroom Approach** – This helps students get the benefit of previously recorded sessions by industry and academic stalwarts.

### **Quality of classroom teaching and actions taken**

1. **Yearly Curriculum Upgrades** – Ensures syllabus compatibility with industry requirements.
2. **Faculty Feedback Instruments** – Ensures that student feedback is given importance.
3. **Flexible work timings** – Due to the location of the institute in the suburbs, travel to and fro can be a challenge for the teaching & administrative staff.
4. **Parental Involvement** – Parents are kept updated on student progress in terms of attendance, examination status, general conduct etc.
5. **Additional Services for Students**- Includes language and aptitude sessions with corporate grooming and conferences.
6. **Dynamic Learning Strategies** – These include cases, group tasks and presentations, movie reviews, documentaries etc.
7. **Regular Assessments & Feedback** - Students are given continuous feedback on attendance and their assessments.
8. **Student Centric Teaching**

9. **Technology Interfaces** – Through flipped classrooms, online sessions, online examinations, digi-boards, app-based attendance etc.
10. **Classroom Management**- Through class teachers and student class representatives
11. **Student Council** – The selection of the student council happens through an elaborate investiture ceremony. The council members have defined tasks and play the role of an effective interphase between the students, the teaching staff and management.

**Student Council, Batch 2023-25**

#### 4.2.2. Quality of Continuous Assessment and Evaluation Processes (40)

Assessment is a way of assessing a student's performance to determine if they have achieved a specific level of performance on given parameters. Parameters related to the acquisition of knowledge, skills, abilities, and attitudes through various pedagogical and non-pedagogical interventions.

- The performance assessment of the students is divided into two parts as follows:

**Table 4.2.2.a – Type of Assessments (A.Y.2022-24)**

| Type of Assessments            | Weightage |
|--------------------------------|-----------|
| Internal/Continuous Assessment | 50%       |
| End Term Examinations          | 50%       |

**Table 4.2.2.b – Type of Assessments (A.Y.2023-25)**

| Type of Assessments            | Weightage |
|--------------------------------|-----------|
| Internal/Continuous Assessment | 50%       |
| End Term Examinations          | 50%       |

**Table 4.2.2.c – Type of Assessments (A.Y.2024-26)**

| Type of Assessments            | Weightage |
|--------------------------------|-----------|
| Internal/Continuous Assessment | 50%       |
| End Term Examinations          | 50%       |

The continuous to end term assessment was 30%:70% for the batch 2019-21 and was later revised to 40%:60% after deliberation in between the Bos and the Academic Team. This gives the academic teaching team a greater liberty to select from various classroom activities to identify and select for continuous assessment. The end term assessment is in the form of an online /offline examination which has been majorly divided into 2 or 3 sections assessing the subject fundamentals and subject applications in line with the suggestions of Blooms Taxonomy and the recent NEP.

**Continuous assessment:**

Continuous assessment is a central phase of classroom activities. Therefore, to ensure quality, faculty must assess student performance throughout the trimester through multiple interventions. The course-related examination system is spread over the entire trimester. Provides feedback on the teaching-learning process. As part of ongoing assessment, students are continuously assessed by the institution to ensure that student learning is progressive.

Internal Assessments are a combination of the following metrics to ensure continued student progress:

- Classroom Participation
- Tasks/Reports
- Group chat
- Mini Projects
- Case studies
- Quiz/Test (announced or unannounced)
- Computer exercises
- Presentation/debates
- Analysis
- Viva-Voce

Classroom attendance is given major precedence during the continuous assessment activities.

**Absences / failure to send internal reviews:**

Absences and failure to submit student internal grades are the responsibility of the faculty. In the event of the student's absence from courses and internal examinations, and subject to notification of his absence to the department's faculty, the department's faculty may make the appropriate decisions, including granting such students a new opportunity.

**Evaluation criteria:**

To pass the course, the student must achieve at least 50% of the internal exam and 50% of the final exam. There are three continuous assessment criteria given for internal assessment. Lecturers generally ensure that continuous assessment is evenly distributed throughout the trimester.

**Note:** Due to the pandemic and due to a subsequent review, the weighting of internal and final exam grades has been changed to encourage active participation and interaction during online classes.

#### 4.2.3 Quality of Student Reports/ Dissertations (15)

As already explained previously, Lexicon MILE does not follow a dissertation system. It follows an active internship system that is spread over 3 trimesters. The advantages of the internship systems are as follows –

1. Relevant Corporate Work Experience for students.
2. Chances of getting absorbed in the internship organizations.
3. Paid internships ensure better accountability from both the corporate and the interns.
4. The Internship Assessment is through the Corporate Research and Learning Internships (CRLI) pattern. The format of the internship pattern is enclosed. The internship monitoring system has already been discussed earlier.

#### Corporate Research and Learning Internship (CRLI)

The internship program at Lexicon MILE has been rated by students as the most popular. It has two main dimensions-

1. The experiential and earning aspects for students giving them an experiential advantage. It is unlike the typical internships associated with most of the MBA/PGDM programs.
2. The research experience aspect that exposes students to most of the real-world business situations. They need to apply themselves through research to find out possible solutions to business situations. Hence, this exercise also increases aptitude for conducting research.

**CRLI Summer Internship Project** is a thorough undertaking that encourages students to engage in multidisciplinary research projects. As part of this assignment, students apply their knowledge of business management from the trimesters before to provide a persuasive analysis of a business situation. By tackling an issue or problem in business or industry, or by conducting extensive study on current business management issues/topics, this project ensures the integration of knowledge/application in multiple areas of management. Exploring fresh research-based ideas, understandings, and information is very pertinent in a management course.

#### The project's relevance includes its ability to:

- To develop concepts and conceptual models.
- To help pupils improve their analytical and critical thinking abilities.
- To give the student a chance to show off their aptitude for conducting independent research.
- To build theoretical viewpoints, respond to research issues with secondary data, or examine and create practical solutions for the subject field.

The Placement Department facilitates the placement of industry internships. The project's significance includes application of the skills and knowledge acquired in the first year, further enhancing one's comprehension, knowledge, and abilities, gaining a better understanding of an organization, its management functions, and decision-making process; appreciating the connections between various activities; and creating realistic managerial perspectives of organizations, their reality, and their functions.

### **Process for monitoring and evaluation**

To help students complete the given report in time, the entire CRLI report is broken down in fortnights. This way it becomes easy to monitor students' progress and effective evaluation by the faculty. The faculty guides and mentors allotted students during each fortnight & helps the student to submit completed fortnight reports in time & assign marks against the fortnight.

| <b>Sr. No.</b> | <b>Fortnight No.</b>      | <b>Details of the Task</b>   | <b>Marks Allocated</b> |
|----------------|---------------------------|--|------------------------|
| 1              | 1 <sup>st</sup> Fortnight | Objective of the Study   | 50                     |
|                |                           | Questionnaire Framing & Research Data Source Identification  | 50                     |
|                |                           | Sector Profile with strategic tools like BCG /Ansoff/GE/ etc. (Maximum 4 Pages), Company & Product Profile (2-3 Pages) | 100                    |
|                |                           | Total Marks  | 200                    |
| 2              | 2 <sup>nd</sup> Fortnight | Literature Review  | 100                    |
|                |                           | Data Collection  | 50                     |
|                |                           | Total Marks  | 150                    |
| 3              | 3 <sup>rd</sup> Fortnight | Completion of Data Collection  | 100                    |
|                |                           | Research Methodology   | 150                    |
|                |                           | Total Marks  | 250                    |
| 4              | 4 <sup>th</sup> Fortnight | Data Analysis  | 100                    |
|                |                           | Findings, Suggestions, Conclusion  | 50                     |
|                |                           | Total Marks  | 150                    |
| 5              | 5 <sup>th</sup> Fortnight | Final Report Readiness for viva  | 100                    |
|                |                           | Submission of One Pager  | 50                     |
|                |                           | Plagiarism Report  | 100                    |
|                |                           | Total Marks  | 250                    |
|                | Total Marks               |  | 1000                   |

|   |                         |      |
|---|-------------------------|------|
| 6 | External Viva-Voce Exam | 100  |
|   | <b>Total Marks</b>      | 1100 |

The final report is scored for 1000 marks based on factors including its objectives, sector profiles, the explanation of its goals and methodology, data analysis, interpretations, findings, and conclusions. The evaluation of the viva-voce includes 100 marks for communication, presentation abilities, overall presentation organization, substance, and question handling prowess.

### **Quality of Dissertation**

Strict requirements are given to the students in advance to maintain the quality of the dissertation through SIP. Students are given access to the evaluation rubrics so they may get a good concept of how to write an excellent report. The students are given advance notice of the acceptable range for plagiarism so that their reports fall within it. Faculty mentors make sure to schedule regular meetings with their mentees so they may check in on the status of the projects in a timely manner and according to the format specified. To ensure that students concentrate on producing high-quality work, project heads for each project conduct briefings.

The CRLI processes have been further modified from the batch 2022-24 to include Research Papers, Process Patents, and Live Case Studies.

| CRITERION 5 | Students Quality and Performance | 100 |
|-------------|----------------------------------|-----|
|-------------|----------------------------------|-----|

The Lexicon Management Institute of Leadership and Excellence adopts a mentoring approach to assist students in their academic journey. This includes guidance on fundamental academic processes, evaluation methods, induction, internships, and exposure to managing various events. The institute offers opportunities and support to students to enhance their management skills.

The following table shows the Student's Intake and Success Rate of Students.

**Table No. 5.A. Student Intake.**

| Item                            | CAY       | CAYm1     | CAYm2     | CAYm3     | CAYm4     |
|---------------------------------|-----------|-----------|-----------|-----------|-----------|
|                                 | (2024-25) | (2023-24) | (2022-23) | (2021-22) | (2020-21) |
| Approved Intake                 | 180       | 180       | 180       | 180       | 180       |
| Number of students admitted (N) | 153       | 170       | 179       | 95        | 103       |

**Table No. 5.B. Success Rate.**

| Year of entry                 | Number of students admitted (N) | Number of students who have completed |         |
|-------------------------------|---------------------------------|---------------------------------------|---------|
|                               |                                 | I Year                                | II Year |

|                               | Batch 2019-21 - 160             | -                                     | 151     |

**CAY: Current Academic Year**

**CAYm1: Current Academic Year minus 1**

**CAYm2: Current Academic Year minus 2 = Last Year Graduate (LYG)**

**CAYm3: Current Academic Year minus 3 = Last Year Graduate minus 1 (LYGm1)**

**CAYm4: Current Academic Year minus 4 = Last Year Graduate minus 2 (LYGm2)**

### 5.1. Enrolment Ratio (Admissions) (20)

Enrolment Ratio(ER)= Number of students admitted/ Sanctioned intake

**Table No.5.1.1. Enrolment Ratio**

| <b>Item</b>  | <b>Marks</b> |
|--|--------------|
| (Students enrolled at the First-Year Level on average basis during the last three years starting from current academic year) |              |
| Enrolment Ratio (2024-25): $153/180 = 85.00\%$   |              |
| Enrolment Ratio (2023-24): $170/180 = 94.44\%$   |              |
| Enrolment Ratio (2022-23): $179/180 = 99.44\%$   | 20*          |
| Enrolment Ratio (2021-22): $95/180 = 52.78\%$  |              |
| Enrolment Ratio (2020-21): $103/180 = 57.22\%$   |              |

\*20 Marks  $\geq 90\%$  students enrolled at the First-Year Level on average basis during the previous three

years starting from current academic year

Table 5.1.1. shows Students enrolled at the First-Year Level on average basis during the last three years starting from the current academic year

- In the last five years, i.e., 2020-21, 2021-22, 2022-23, 2023-24 and 2024-25 the sanctioned intake has been 180 and the number of students admitted each year is 103, 95, 179, 170 and 153 respectively.
- Therefore, the institute has enrollment ratios is 57.22%, 52.78 %, 99.44 %, 94.44 % and 85.00 % respectively for the five years.
- Students enrolled at the First-Year Level on an average basis during the last three years starting from the current academic year is  $((99.44+94.44+85.00)/3) 92.96\%$ .

### 5.2. Success Rate (Students clearing in Minimum Time) (10)

Success Rate (SI)=Number of students completing the program in minimum duration / Number of students admitted

Average SI = Mean of Success Index (SI) for the past three batches

Success rate = 10 \* Average SI

**Table No. 5.2.1. Success Index**

| <b>Item</b>   | <b>Last Year of Graduate, LYG</b> | <b>Last Year of Graduate minus 1, LYGM1</b> | <b>Last Year of Graduate minus 2, LYGM2</b> |
|---|-----------------------------------|---|---|
| <b>Batch (2021-23)</b>  | <b>Batch (2020-22)</b>            | <b>Batch (2019-21)</b>                      |   |
| Number of students admitted (N)   | 95                                | 103   | 160   |
| Number of students who have graduated within the stipulated period of a program | 87                                | 98  | 151   |
| Success Index (SI)  | 0.9158                            | 0.9515                                      | 0.9437                                      |

|                     |             |
|---------------------|-------------|
| Average SI          | 0.937       |
| <b>Success Rate</b> | <b>9.37</b> |

Table 5.2.1 shows the Success Index for year 2019-21, 2020-22, and 2021-23

- In the last three batches, i.e., 2019-21, 2020-22, and 2021-23 the Success Index (SI) for the students completed program in minimum duration are 0.9437, 0.9515, and 0.9158 respectively.
- The Average Success Index (SI) for the past three batches is **0.937**.
- Therefore, the Success Rate is **9.37**.

### 5.3. Final Year Academic Performance (Percentage marks scored) (10)

Academic Performance = Average Academic Performance Index (API)

**API** = ((Mean of final Year Grade Point Average of all successful Students on a 10-point scale) or (Mean of the percentage of marks of all successful students in final year/10)) \* (number of successful students/number of students appeared in the examination).

Successful students are those who have passed all final-year courses.

**Table No. 5.3.1. Academic Performance**

| Academic Performance  | CAYm1       | CAYm2     | CAYm3     |
|---|-------------|-----------|-----------|
|   | (2023-24)   | (2022-23) | (2021-22) |
| Mean of final Year Grade Point Average of all successful Students on a 10-point scale (X) | 7.91        | 7.41      | 7.18      |
| Total no. of successful students (Y)  | 158         | 87        | 99        |
| Total no. of students who appeared in the examination (Z)                                 | 179         | 95        | 103       |
| API = X * (Y/Z)   | 6.982       | 6.786     | 6.901     |
| Average API = (AP1 + AP2 + AP3)/3   | <b>6.89</b> |           |           |

Table 5.3 shows Academic Performance for the year 2021-22, 2022-23 and 2023-24.

- In the last three years, i.e., 2021-22, 2022-23 and 2023-24 the Academic Performance Index (API) of all successful students in the final year 6.901, 6.786 and 6.982 respectively.
- The Average API of successful students who have passed all final-year courses for the past three batches is **6.89**.

### 5.4. Placement, Higher Studies, and Entrepreneurship (40)

Lexicon Management Institute of Leadership and Excellence understands the expectations of the corporate and is able to help the students with the paradigm shift from academics to practice. The course is marked with the right mix of classroom learning and industry with 9 Months of Internship.

#### 5.4.1. Placement (30)

Assessment Points = 30 \* Average placement;  
N is the total number of students admitted in the first year.

The following table provides the placement index and average placements for the past three batches at the institute:

**Table No. 5.4.1.1. Placement, Higher Studies, and Entrepreneurship**

| Item   | CAYm1<br>(2023-24) | CAYm2<br>(2022-23) | CAYm3<br>(2021-22) |
|--|--------------------|--------------------|--------------------|
| Total Number of students admitted in the First Year of the program (N)                   | 179                | 95                 | 103                |
| No. of students placed in companies or Government Sector (X)                             | 134                | 83                 | 93                 |
| No. of students pursuing Ph.D. / Higher Studies (Y)                                      | 0                  | 0                  | 0                  |
| No. of students turned entrepreneurs (In the areas related to management discipline (Z)) | 3                  | 4                  | 4                  |
| X + Y + (1.2*Z) =  | 137.6              | 87.8               | 97.8               |
| Placement Index : (X + Y + (1.2*Z)) / N  | 0.7687             | 0.9242             | 0.9495             |
| Average placement= (P1 + P2 + P3) / 3  | 0.8808             |                    |                    |
| <b>Assessment Points = 30 * Average placement</b>  | <b>26.424</b>      |                    |                    |

**\*Annexure 5.1 provides the information regarding students turned entrepreneurs**

Table 5.4.1.1. shows the details about the placement index and average placements for the past three batches at the institute

- In the last three batches, i.e., 2020-22, 2021-23 and 2022-24 the Placement Index are 0.9495, 0.9242 and 0.7687 respectively.
- The Average placement for the past three batches is **0.8808**.
- Therefore, the Assessment Points (30 \* Average placement) is **26.424**.

#### 5.4.2. Quality of Placement (10)

The average salary package offered is around 7 LPA. BNY Mellon, Eclerx Services Ltd., Teachers Insurance and Annuity Association of America (TIAA), Ocwen Financial Corporation, Bajaj Allianz General Insurance Company Limited, S&P Global Market Intelligence, IDFC First Bank, Allstate Corporation, XI Dynamics, Wolters Kluwer and SG Analytics are top recruiters. Investment Banking, Operations Manager, Associate Sales Manager, etc., are the top roles offered by the Companies.

**Table No. 5.4.2.1. Quality of Placement**

| Item                        | CAYm1<br>(2023-24) | CAYm2<br>(2022-24) | CAYm3<br>(2021-22) |
|-----------------------------|--------------------|--------------------|--------------------|
| No. of students placed:     | 134                | 83                 | 93                 |
| Median Salary for Placement | 6,00,000           | 3,88,000           | 5,99,025           |
| Highest Salary              | 12,00,000          | 15,00,000          | 9,00,000           |

**\*Annexure 5.2 provides the information regarding highest placed students & top recruiting Companies**

Table 5.4.2 shows the quality of placement for the last three batches i.e. 2020-22, 2021-23 and 2022-24.

In the last three batches, i.e., 2020-22, 2021-23 and 2022-24 number of students placed are 93, 83, and 134 respectively.

- Median Salary for the last three batches, i.e., 2020-22, 2021-23 and 2022-24 are 5,99,025, 3,88,000 and 6,00,000 respectively.
- Highest Salary for the last three batches, i.e., 2020-22, 2021-23 and 2022-24 are Rs.9,00,000, 15,00,000 and 12,00,000 respectively.

**5.4.a. Provide the placement data in the below-mentioned format with the name of the program and the assessment year:**

The following table depicts the placement data along with employer details:

**Table 5.4.a.**

| S.no. | Name of the student placed | Enrollment No. | Name of the Employer | Appointment Letter - Reference no. with date |
|-------|----------------------------|----------------|----------------------|--|
| 1     | Aayush Kumar Singh         | 1-31512582835  | Wolters Kluwer       | 7-Jan-2024                                   |

### 5.5. Student Diversity (5)

Diversity in the classroom can have benefits such as educating social awareness, critical thinking skills, academic outcomes, and learning prospects by exposing students to different viewpoints and proficiencies. Lexicon Management Institute of Leadership and Excellence has a diverse group of students concerning Experience, Gender diversity, Qualification and Geographic diversity (within state and outside state). This facilitates students to appreciate individual uniqueness while learning from other students from diverse backgrounds.

Mentioned below are some of the students' diversity clusters:

**Table No. 5.5.1. Student Diversity**

\* Minimum 2 years

#### 5.5.1. Experience Wise Diversity

**Table 5.5.1. Experience Wise Diversity**

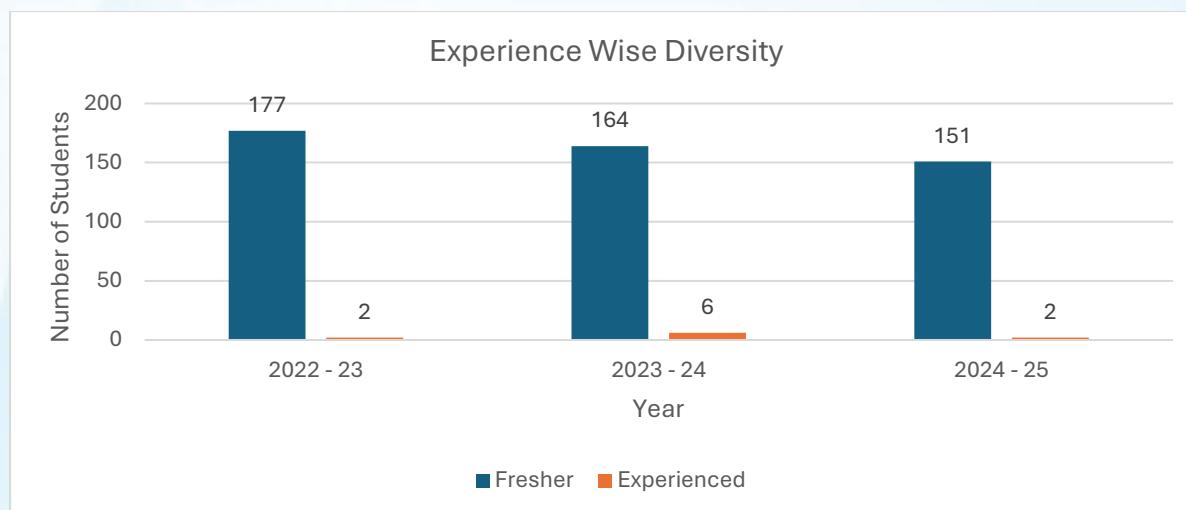

Table 5.5.1. provides information on the diversity of students based on their experience for the years 2022-23, 2023-24, and 2024-25. The data considers students who have a minimum of two years of experience.

- In the year 2022-23, out of 179 students, 177 were fresher and only 2 students had prior experience.
- In the following year, 2023-24, out of 170 students, 164 were fresher, and 6 students were experienced.
- In the year 2024-25, out of 153 students, 151 are fresher, while 2 students had some prior experience.

### 5.5.2. Gender Diversity

**Table 5.5.2. Gender Diversity**

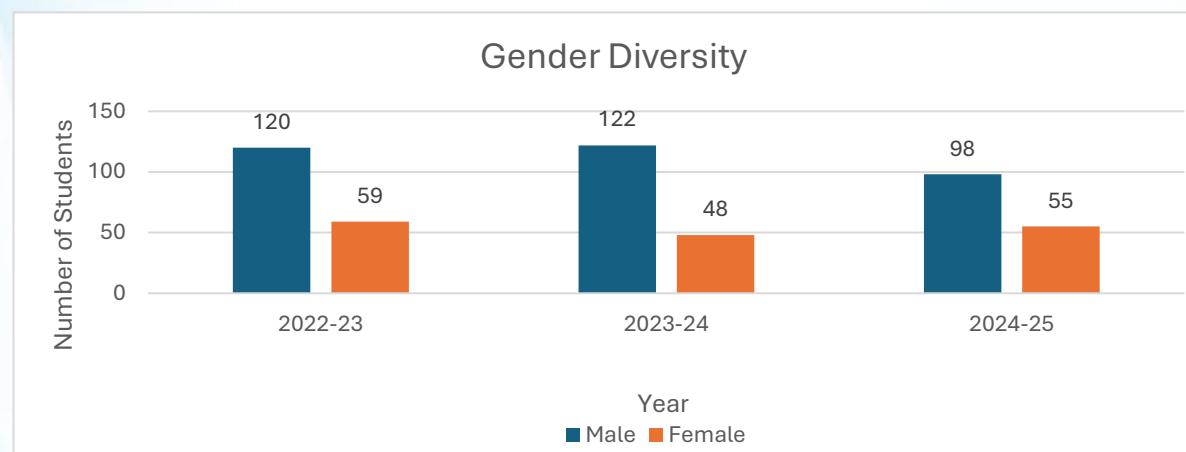

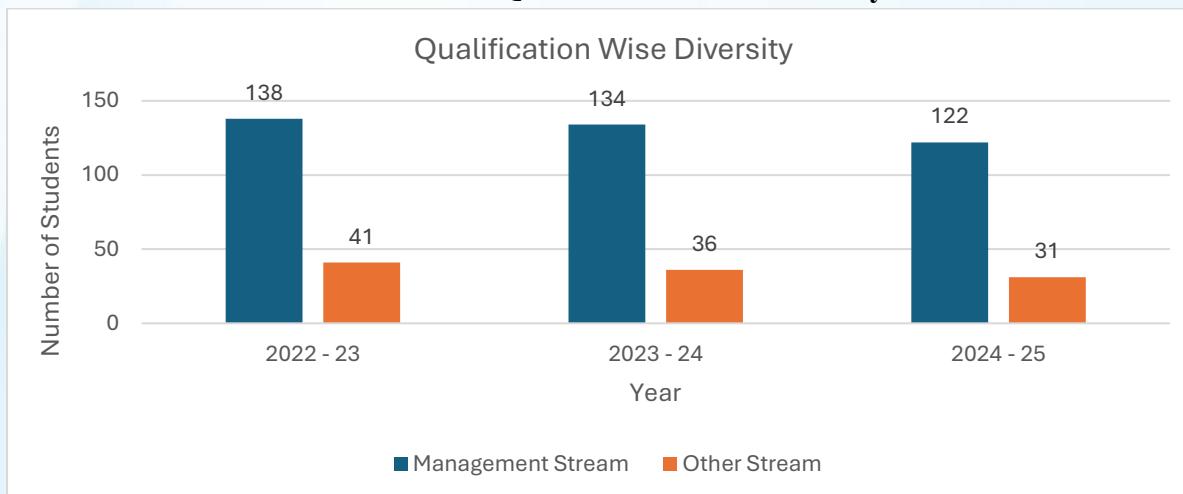

Table 5.5.2. provides information on Gender diversity for the years 2022-23, 2023-24, and 2024-25.

- In 2022-23, there were 179 students, out of which 120 were male and 59 were female.
- In 2023-24, there were a total of 170 students, out of which 122 were male and 48 were female.
- In 2024-25, there are 153 students, out of which 98 are male and 55 are female.

### 5.5.3. Qualification Wise Diversity

**Table 5.5.3. Qualification Wise Diversity**

According to Table 5.5.3., the data for the years 2022-23, 2023-24, and 2024-25 provides information on the diversity of students based on their qualifications. The data considers students from the management stream who have completed their graduation with B.Com, BBA, BRM, BMS, BCCA, BBM, BBA LLB, BBE, and BHM.

- In the year 2022-23, out of 179 students, 138 were from the management stream, and the remaining 41 students were from other streams.
- Similarly, in the following year, 2023-24, out of 170 students, 134 students belonged to the management stream, and 36 students were from other streams.
- Finally, in the year 2024-25, out of 153 students, 122 students are from the management stream, and 31 students are from other streams.

#### 5.5.4. Geographic Diversity

**Table 5.5.4. Geographic Diversity**

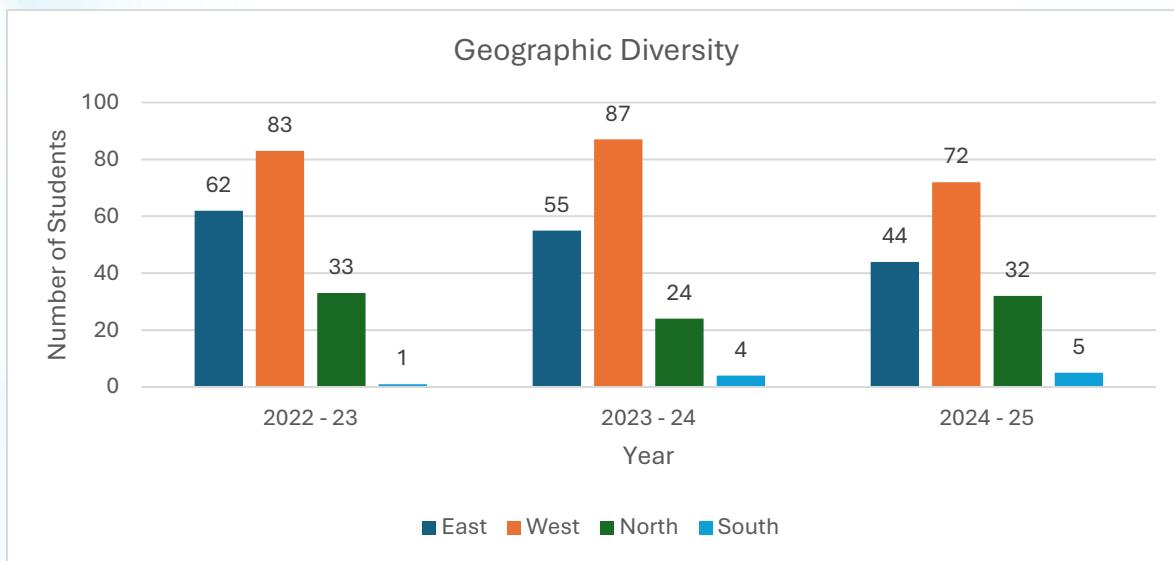

Table 5.5.4., provides geographic diversity information according to East Zone, West Zone, North Zone and South Zone for the years 2022-23, 2023-24, and 2024-25.

- In 2022-23, out of 179 students, 62 students were from East Zone, 83 Students were from West Zone, 33 students were from North Zone and 1 students were from South Zone.
- In 2023-24, out of 170 students, 55 students were from East Zone, 87 Students were from West Zone, 24 students were from North Zone and 4 student was from South Zone.
- In 2024-25, out of 153 students, 44 students were from East Zone, 72 Students were from West Zone, 32 students were from North Zone and 5 students were from South Zone.

### 5.6. Professional Activities (15)

#### 5.6.1. Students' participation in Professional societies/chapters and organizing management events (10)

Lexicon Management Institute of Leadership and Excellence celebrates the diversity of our students from all walks and communicates of life. Festivals and cultural programs are regularly celebrated by the students and are organized by the Student Events Committee. Students are invited and encouraged to wholeheartedly conduct, organize, and execute all the management fests and cultural fests such as the Gala Night, TEDx, International Conferences & various business conclaves with gusto and enthusiasm. The institute has events like WOW Wednesdays in which students showcase their talent as well teachers also show their skills. Several academic and non-academic competitions are held to improve management skills amongst students such as organizing, leadership, networking, use of technology, etc.

**Table 5.6.1. - Students' participation in Professional societies/chapters and organizing management events**

| Year | Number of Events Organized (Internal Events) and Participated (External Events) by Students |             |                |                     | Total |
|------|---|-------------|----------------|---------------------|-------|
|      | Institute Level   | State Level | National Level | International Level |       |
| 2020 | 9   | 2           | -              | -                   | 11    |
| 2021 | 1   | 2           | -              | 1                   | 4     |
| 2022 | 12  | 3           | 2              | -                   | 17    |
| 2023 | 10  | 1           | 6              | -                   | 17    |
| 2024 | 27  | 1           | 1              | -                   | 29    |
| 2025 | 05  | 1           | 1              | -                   | 07    |

**Table 5.6.1. a. Events organized by students**

| Year | Name of the Event  | Place of the Event | Date of the Event             | Participants                        |
|------|--------------------|--------------------|-------------------------------|-------------------------------------|
| 2020 | Lohri celebrations | Lexicon Playground | 13 <sup>th</sup> January 2020 | 1 <sup>st</sup> Year Students       |

### 5.6.2. Students' Publication (05)

Journals often have refined distribution networks, assigning work to libraries, organizations, and institutes, and through mailboxes of readers around the world. Research is to guide action, gather proof for theories, and contribute to the improvement of knowledge in data analysis.

Lexicon Management Institute of Leadership and Excellence promotes and motivates students to work on research publications.

The following table depicts the Details of various research publications by Students under the guidance of their Mentors during the past 3 years:

**Table 5.6.2. – Students’ Publications**

| <b>Year</b> | <b>Name of Author</b> | <b>Name of Co-Author</b>                            | <b>Title of Research Paper</b>  | <b>Journal/Book/Magazine</b>                 |

### 6.1. Student-Faculty Ratio (SFR) (10)

The student-faculty ratio significantly impacts on the quality of education and learning experience of the institute. The ratio of students to faculty is just one of the factors that impact the overall quality and effectiveness. Our faculty members guide students regarding their academic and career goals, helping them make informed decisions.

**Table 6.1.1. PGDM COURSE**

| Year                                     | 2024-25      | 2023-24    | 2022-23    |

**6.1.1. Provide the information about the regular and contractual faculty as per the format mentioned below:**

**Table 6.1.1.1. Information About Regular and Contractual Faculty**

| Academic Year | Total number of regular faculty in the department | Total number of contractual faculty in the department |
|---------------|---|---|
| 2024-25       | 30  | 10  |
| 2023-24       | 25  | 5   |
| 2022-23       | 31  | 5   |

**6.2. Faculty Cadre (20)**

The faculty cadre at Lexicon MILE plays a vital role in delivering high-quality education and maintaining the institution's reputation. They are responsible for designing the curriculum, guiding students, publishing research papers, and contributing to the growth and development of the institute. Additionally, they also undertake various administrative roles and responsibilities to ensure the smooth functioning of the institute. Our faculty comprises Director, HOD, Professors, Associate Professors, Assistant Professors, and Contractual Faculties to provide students with real-world insights and practical knowledge.

The reference Faculty cadre proportion is 1(F1):2(F2):6(F3)

F1: Number of Professors required =  $1/9 \times \text{Number of Faculty required to comply with 20:1 Student-Faculty ratio based on no. of students (N)}$  as per 6.1

F2: Number of Associate Professors required =  $2/9 \times \text{Number of Faculty required to comply with 20:1 Student-Faculty ratio based on no. of students (N)}$  as per 6.1

F3: Number of Assistant Professors required =  $6/9 \times \text{Number of Faculty required to comply with 20:1 Student-Faculty ratio based on no. of students (N)}$  as per 6.1

**Table 6.2.1. Faculty Cadre**

| Year               | Professors  |           | Associate Professors |           | Assistant Professors |           |
|--------------------|-------------|-----------|----------------------|-----------|----------------------|-----------|
|                    | Required F1 | Available | Required F2          | Available | Required F3          | Available |
| 2024-25            | 4           | 3         | 8                    | 3         | 24                   | 34        |
| 2023-24            | 3           | 4         | 7                    | 2         | 20                   | 24        |
| 2022-23            | 3           | 3         | 7                    | 3         | 20                   | 30        |
| Average Number     | 3.33        | 3.33      | 7.33                 | 2.67      | 21.33                | 29.33     |
| Cadre Ration Marks | <b>17.7</b> |           |                      |           |                      |           |

$$\text{Cadre Ration Marks} = [(AF1/RF1) + (AF2/RF2*0.6) + (AF3/RF3*0.4)] * 10$$

$$= [(3.33/3.33) + (2.67/7.33*0.6) + (29.33/21.33*0.4)] * 10$$

$$= [1 + 0.22 + 0.55] * 10$$

$$= 17.7$$

- If  $AF1 = AF2 = 0$  then zero marks
- Maximum marks are to be limited if they exceed 20.

### 6.3. Faculty Qualification (20):

$FQ = 2.0 * [(10X + 4Y)/F]$  where

- X is the no. of regular faculty with Ph.D.,
- Y is the no. of regular faculty with MBA,
- F is the no. of regular faculty required to comply with the 1:20 Faculty-Student ratio (no. of faculty and no. of students required are to be calculated as per 6.1).

**Table No. 6.3.1. Faculty Qualification**

|                           | X | Y  | F  | $FQ=2.0 x[(10X +4Y)/F]$ |
|---------------------------|---|----|----|-------------------------|
| <b>2024-25</b>            | 6 | 24 | 30 | 10.40                   |
| <b>2023-24</b>            | 7 | 18 | 25 | 11.36                   |
| <b>2022-23</b>            | 8 | 23 | 31 | 11.10                   |
| <b>Average Assessment</b> |   |    |    | <b>10.95</b>            |

### 6.4. Faculty Retention (20):

Retaining faculty is essential for the success of Lexicon MILE. Achieving this requires a comprehensive approach that considers not only financial aspects but also the overall work environment and well-being of the faculty which is being adopted at Lexicon MILE. This is one of the most critical factors contributing to success and makes a conscious effort to keep its faculty retained by providing competitive compensation and regular salary reviews.

**Table 6.4.1. Faculty Retention**

| Item                                     | 2024-25 | 2023-24       |
|--|---------|---------------|
| No. of Faculty Retained                  | 12      | 21            |
| Total No. of Required Faculty in 2022-23 |         | 31            |
| % of Faculty Retained                    | 38.71%  | 67.74%        |
| <b>Faculty Retained</b>                  |         | <b>53.23%</b> |

**\*8 Marks, if Faculty Retention  $\geq 50\%$  of faculty retained during the period of assessment keeping CAYm2 as base year**

### 6.5. Faculty Initiatives on Teaching and Learning (15)

The institute has initiated the continuous improvement of teaching and learning practices to enrich student engagement and improve overall educational outcomes.

**The faculty initiatives on teaching and learning at Lexicon MILE are aligned with the following:**

**a) Objectives and goals:**

- Enhancing the quality and relevance of education through innovative teaching methodologies. Promoting active learning and student engagement.
- Fostering a culture of research and critical thinking among faculty and students.
- Incorporating technology in teaching and learning processes to support personalized and interactive learning experiences.
- Assessing and addressing the diverse learning needs of students through inclusive teaching practices.
- Encouraging interdisciplinary collaboration and experiential learning opportunities.

**b) Initiatives Implemented:**

The following initiatives have been implemented by the faculty at Lexicon MILE to achieve the objectives and goals:

- **Professional Development:** Management institutes typically support faculty professional development through workshops, seminars, conferences, and teaching fellowships. These opportunities help faculty stay updated on the latest trends and innovations in teaching and learning.
- **Technology Integration:** Faculty members have incorporated technology tools and platforms, such as learning management systems, virtual classrooms, and multimedia resources, into their teaching practices. This integration has facilitated blended learning approaches and provided students with flexible access to course materials and interactive learning activities.
- **Virtual Classrooms:** A virtual classroom is an online teaching and learning environment where teachers and students can present course materials, engage, and interact with other members of the virtual class, and work in groups together. The key distinction of a virtual classroom is that it takes place in a live.
- **Information and Communication Technology (ICT):** It plays a crucial role in enhancing various aspects of teaching and the overall learning experience. ICT-enabled classrooms include computers, projectors, speakers, software, and mobile applications. ICT is used in the classroom for giving students opportunities for effective learning.
- **Classroom Lectures:** Faculty deliver lectures on various topics and theories for the development of students. These lectures provide students with knowledge and theoretical understanding.
- **Case Studies:** Case studies analyze real-world business scenarios. Students develop problem-solving skills, critical thinking abilities, and decision-making capabilities.

- **Group Discussions:** Faculty use the group discussion method to encourage our students to engage in collaborative learning. They share their perspectives, analyze different viewpoints, and develop communication and teamwork skills. Group discussions also help in improving the presentation skills of our students.

- **Presentations:** The faculty gives equal opportunity to each student to give presentations on various topics. This helps them develop effective communication skills, their ability to present ideas and information and build confidence in public speaking.

- **Conferences and Conclave:** The institute organizes conferences and conclaves by industry experts, permanent faculty, and visiting faculty. These sessions provide current business practices, emerging trends, and industry-specific knowledge, supplementing the academic curriculum of our institute.
- **Research-Based Teaching:** Faculty members have actively engaged in research contributing to the development of new knowledge in their respective fields. They have encouraged students to participate in research projects through CRLI (Corporate Research and Learning Internship) projects. The institute has its own Lexipedia Journal in which faculty and students contribute their research papers.

- **Continuous Evaluation & Assessment:** Faculty uses continuous evaluation & assessment methods to evaluate the performance and progress of their students. Some commonly used assessment methods such as quizzes, assignments, case studies, presentations, and examinations are used to assess the students.

Overall, faculty initiatives on teaching and learning in management institutes are geared towards fostering student engagement, critical thinking, practical skills development, and a deep understanding of business concepts and principles.

## 6.6. Management Development Programme (05)

The MDP program has been instrumental in equipping professionals with essential management skills and enhancing their leadership capabilities. MDP aims to develop the management and leadership abilities of faculty members, administrators, and other key personnel involved in the institute's operations. MDPs provide various opportunities to learn and develop essential managerial skills such as strategic thinking, decision-making, problem-solving, communication, and teamwork to the professionals.

The MDP has proven to be a valuable resource for developing the capabilities of our employees and driving the overall growth of our organization.

## **6.7. Faculty Performance, Appraisal and Development System (15)**

### **Faculty Performance Appraisal**

A performance appraisal is a systematic and periodic process of measuring an individual's work performance against the established requirements of the job. It's a subjective evaluation of the employee's strengths and weaknesses, relative worth to the organization, and future development potential.

The faculty performance appraisal system is a structured mechanism designed to evaluate and assess the performance of faculty members. It aims to provide a comprehensive understanding of a faculty member's teaching effectiveness, research contributions, and professional development.

The faculty performance appraisal system is an essential tool for promoting excellence in teaching, research, and service at our Institute. It serves as a feedback mechanism to measure faculty member's overall performance and provide guidance for their professional growth. The system typically involves a combination of self-evaluation, student feedback, feedback from the HOD, the Director, the Registrar, HR Head and the final assessment of CEO.

A scoring pattern is used to determine final scores after consulting faculty members to evaluate their performance.

### **Faculty Development System:**

A faculty development system is a structured framework designed at the institute to support and enhance the professional growth and development of faculty members. It is typically implemented at our institute to ensure that faculty members have the necessary skills, knowledge, and resources to excel in their roles as educators, researchers, and mentors.

The main objective of a faculty development system is to provide faculty members with opportunities for continuous learning, skill-building, and career advancement.

**Seminars, Conferences, Workshops, Webinars, and Faculty Development Program:** We Support our faculty members to participate in seminars, conferences, webinars, and faculty development programs to expand their professional networks and stay updated with the latest research and developments in their fields. The overarching aim is to create a culture of continuous learning and professional growth among faculty members, ultimately benefiting the institution and its students.

**Awards & Recognition:** Recognizing and rewarding faculty members for their professional achievements and contributions always act as a motivational factor at the institute. The institute has constituted a prestigious annual award named after founder trustee Kamal Sharma Award is conferred upon teachers from all academicians in west Maharashtra and India on teaching.

### **Implementation of faculty performance appraisal and development:**

Implementing faculty performance appraisal and development involves several steps to ensure its effectiveness and relevance to the institute's goals. Here's a structured approach to implementation:

### Implementation and effectiveness of Appraisals:

Implementing and effectiveness of faculty performance appraisal and development involves several steps to ensure its effectiveness and relevance to the institute's goals.

The institute has a comprehensive faculty performance appraisal and development system.

- The self-appraisal form is collected after the completion of the academic year.
- The self-appraisal report is evaluated by the Faculty and Head of the Department and forwarded to the Director.
- The Director reviews the performance of the faculty and provides feedback for further corrections/improvements and marks based on the above-said parameters to each faculty member and forwards to the Registrar and HR Head.
- Further Registrar and HR Head provide the marks and forward them to the CEO.
- On the recommendation of the CEO, the HR Head issues the final Increment/promotion letters.
- Counselling has been done by the HOD of the respective department and Director for the faculty who has obtained feedback below the desired points and constructive feedback is given to faculties.
- Finally, all the faculty members must give their commitment to teaching-learning methods, research, industry connect, and co-curricular activities for the upcoming academic years. Smt. Kamal Sharma Award for Academic Excellence and Employee of the month awards are given based on the above-mentioned parameters and outstanding contribution.

### Programs Participated: Awards and Recognition

### 6.8. Visiting / Adjunct Faculty (10)

Industry experts as visiting faculty is beneficial for our students. Students always give positive feedback about the visiting lectures taken by industry experts which help to ignite our students' ambition. Students see the practical application of their studies and get confidence in pursuing their career paths.

**Here are some reasons why we have industry experts as our visiting faculty:**

- Updated curriculum:** By involving industry experts as visiting faculty, we ensure that our curriculum remains up-to-date and relevant. These experts have first-hand knowledge of emerging trends and market demands. They help to shape the curriculum to meet the current needs of the industry, ensuring that students are equipped with the most recent skills and knowledge.
- Guest lectures:** Industry experts enrich the learning experience by delivering guest lectures on specific industry topics. These sessions give many opportunities to learn directly from professionals who are at the forefront of their fields. Students engage in interactive discussions, ask questions, and gain valuable insights that go beyond the standard curriculum.

## 6.9. Academic Research (70)

Academic Research plays a crucial role in the advancement of knowledge and the development of society. One of the key outcomes of academic research is the publication of faculty papers. These publications serve several important purposes and have numerous benefits. The institute supports our faculties in academic research and paper publication.

**Some key points highlight how we support & promote our faculty paper publication:**

- **Research Environment:** The Institute provides an environment conducive to academic research. We establish research facilities, libraries, and laboratories, which are equipped with the necessary resources and infrastructure to support research activities. The institute has research base library facilities for researchers such as books and journals (online & print) EBSCO and J Gate. Institute Library has around printed book volumes - 7817, e-book volumes-15722, printed journal-36, international journals -2, memberships of DELNET, and National Digital Library help our faculty a lot to pursue research in their academic fields.
- **Research Knowledge:** By publishing research papers, faculty members contribute to the advancement of knowledge within their respective fields. This dissemination of knowledge through publication enhances our intellectual capital and establishes it as a center of excellence in research and academia.

### Summary - Academic Research Publications

| Sr. No. | Research Publication       | No. of Publication |
|---------|----------------------------|--------------------|
| 1       | Research papers            | 101                |
| 2       | Books Publication          | 18                 |
| 3       | Books Chapter Publication  | 7                  |
| 4       | Patents Filed / Awarded    | 8                  |
| 5       | Articles Publication       | 10                 |
| 6       | Case Studies Publication   | 11                 |
| 7       | Ph.D. / Fellowship Awarded | 2                  |

### 6.10. Sponsored Research (20)

Sponsored research refers to research projects funded by external organizations or companies that are conducted by faculty members, researchers, or students within the institute. These projects are typically aimed at addressing specific research questions or challenges identified by the sponsoring organizations, and they often involve collaboration between the institute's academic community and industry partners.

Sponsored Research plays a crucial role in advancing knowledge, driving innovation, and addressing societal challenges. The institute provides guidance and support to researchers in securing funding for their projects. This includes laboratories, equipment, libraries, and other facilities that researchers require to conduct their studies. The institute supports researchers in publishing their work presenting at conferences and sharing their knowledge for their development.

### 6.11. Consultancy/Testing/Training (25)

Institute provides expert advice and guidance to individuals & organizations. It ranges from strategic planning and business development to specialized areas such as finance, marketing, or human resources. The Institute plays a valuable role as consultants to various industries by leveraging their expertise, resources, and research capabilities.

**Research and Development:** The Institute has dedicated research departments and facilities. We conduct research on behalf of industries to address specific challenges or explore new opportunities. This research provides valuable insights and helps industries make informed decisions.

**Training and skill development:** The Lexicon Center of MSME offers customized training programs to address the specific needs of industries. The institute develops and delivers industry-specific training modules to enhance the skills and knowledge of employees, ultimately improving their performance and productivity.

**Problem-Solving and Consultancy Services:** Industries frequently face complex challenges that require specialized knowledge and expertise. Institute offers consultancy services to help industries address these challenges. The institute provides expert advice, develops innovative solutions, and offers guidance on best practices.

**Market Analysis and Business Planning:** The Lexicon Centre of MSME conducts market research, analyses industry trends, and provides insights into consumer behaviour. This information assists in industries in making strategic business decisions, developing market entry strategies, and identifying growth opportunities.

**Collaboration and Partnership:** The Institute has collaborative partnerships with industries, creating a mutually beneficial relationship. Through joint projects and initiatives, we share knowledge, resources, and expertise, fostering innovation and driving economic growth.

### List of Consultancies

## 6.12. Faculty as a Consultant of the Industries (10)

Faculty members serve as consultants to industries. Also, Faculty members are engaged in consulting activities as they help bridge the gap between academia and industry, facilitate knowledge transfer, and provide real-world applications for academic research.

### Key points to consider regarding faculty members serving as industry consultants:

**Expertise and Specialization:** Faculty members often possess deep knowledge and expertise in their respective fields. This expertise can be valuable to industries seeking guidance and advice in areas related to the faculty member's research and teaching. Consultants can offer insights, recommendations, and solutions based on their academic knowledge and practical experience.

**Industry Collaboration:** Consulting helps our faculty members to collaborate with industries and gain first-hand experience of real-world challenges and opportunities. This collaboration enhances the relevance of their research, exposes them to emerging industry trends, and informs their teaching methods. Industry partnerships also lead to joint research projects, internships, and employment opportunities for students.

**Problem Solving and Innovation:** Faculty consultants assist industries in problem-solving and innovation initiatives. Faculty as consultants with various industries provide fresh perspectives, identify inefficiencies, and propose innovative strategies to enhance productivity, efficiency, and competitiveness.

**Professional Development:** Serving as a consultant enables our faculty members to broaden their professional network, establish relationships with industry leaders, and stay updated with industry's best practices. This exposure enriches their teaching by incorporating real-world examples and case studies into the classroom, creating a more relevant and engaging learning environment for students.

### 6.13. Preparation of Teaching Cases (10)

The preparation of teaching cases plays a vital role in business and management. Faculty members develop cases that have detailed descriptions of reality that are used as educational tools to stimulate critical thinking, decision-making, and problem-solving skills among students.

#### Key roles in preparing teaching cases:

**Enhancing practical applications:** Teaching cases developed by our faculty help our students deal with real-world scenarios that allow them to apply theoretical concepts learned in the classroom to practical situations. By analyzing and discussing these cases, students develop a deeper understanding of how to apply theoretical knowledge to real-life contexts.

**Encouraging critical thinking:** Teaching cases often present students with ambiguous or incomplete information, requiring them to think critically and fill in gaps through research and analysis. This promotes the critical thinking skills of our students to learn to question assumptions, consider different perspectives, and make logical arguments.

**Promoting teamwork and collaboration:** Many teaching cases are designed in that way by our faculty members which get discussed in groups, fostering teamwork and collaboration among students. Through group discussions, our students learn to listen to diverse opinions, negotiate and defend their viewpoints, and work together to arrive at well-reasoned conclusions.

**Bridging theory and practice:** Teaching cases developed and taught by our faculty members bridge the gap between theoretical knowledge and real-world application. They provide students with a context in which they can see how theoretical concepts play out in practical situations, helping them understand the relevance and applicability of what they have learned.

**Developing communication skills:** Analyzing and discussing teaching cases in the classroom involves presenting arguments, defending viewpoints, and engaging in debates. This helps our students develop effective communication skills, both orally and in writing, as they articulate their thoughts, listen to others, and construct coherent arguments.

The preparation of teaching cases serves as a powerful pedagogical tool to engage our students, promote active learning, and develop critical skills that are essential for their future professional careers.

#### List of Teaching Cases

### 7.1. Industry Connect (60)

The symbiotic relationship between academia and industry significantly enhances the integration of real-world experiences and practices into educational institutions, thereby nurturing the comprehensive growth of both faculty and students. There are numerous avenues available for institutes to forge connections with industries. For instance, Lexicon MILE has effectively established links with the industry through established protocols.

The dynamic interaction between academia and industry actively contributes to bridging the gap between theoretical knowledge and practical application. This collaboration not only enriches the learning environment but also empowers students with the skills and insights necessary for success in their respective fields. Additionally, such partnerships offer faculty members opportunities for professional development and exposure to current industry trends and practices. By fostering these synergistic relationships, educational institutions can ensure their relevance and effectiveness in preparing students for the ever-evolving demands of the workforce.

#### 7.1.1. Initiatives Related to Industry Interaction including Industry Internship /Summer Training/Study Tours/ Guest Lecture (15)

The institute is continuously taking efforts throughout the year to enhance the industry institute interaction. The initiatives taken by institute related to industry institute interaction are as:

a. **Internships:** The Internship may or may not have a Functional Focus, i.e. the student may take up an internship in his/her intended area of specialization or in any other functional area of management. Ideally the Internship should exhibit a cross-functional orientation. Internship can be carried out in a Corporate Entity / NGO / SME / Government Undertaking / Cooperative Sector. Internship may be a research project – based on primary / secondary data or may be an operational assignment involving working by the student on a given task/assignment/project/ etc. in an organization / industry. It is expected that the Internship shall sensitize the students to the demands of the workplace.

**Winter Internship Project** - Winter Internship Project at Lexicon MILE was undertaken for 10 days in association with the Ministry of Environment, Forest and Climate Change,

Government of Maharashtra. The students undertook in depth research on various social issues, collected data, analyzed the data and framed a report. Students worked at grassroot level to sensitize themselves on various social as well as environmental issues. Majorly four topics of research were given by the forest department:

- i. Impact of Publicity and awareness on public for 50 crore sapling plantation schemes.
- ii. Public opinion about roadside plantation, its utility and management.
- iii. Study of rainfall pattern, water management, harvesting and crop cultivation.
- iv. Ecotourism potential in rural areas and employment generation

Winter Internship Project was conducted at the five sites of forest department - Jalna (District: Aurangabad), Chikaldhara (District: Amravati), Pal (District: Jalgaon), Shahpur (District: Thane) and Kundal (District: Sangli)

| Name of the Place                | Boys | Girls | Total |
|----------------------------------|------|-------|-------|
| Jalna (District: Aurangabad)     | 10   | 20    | 30    |
| Chikaldhara (District: Amravati) | 20   | 10    | 30    |
| Pal (District: Jalgaon)          | 20   | 10    | 30    |
| Shahpur (District: Thane)        | 28   | 19    | 47    |
| Kundal (District: Sangli)        | 10   | 20    | 30    |

b. **Industry Visits:** The industry visits play a crucial role in bridging the gap between theory and practice. As part of its commitment to providing students with a holistic learning experience, Lexicon MILE organizes industry visits to renowned companies. These visits offer students the opportunity to witness real-world operations, gain industry insights, and develop a deeper understanding of business practices thereby enriching their learning experience.

The industry visit generally begins with an orientation session where students are provided with an overview of the company's background, its industry presence, and its core competencies. The students then embark on a guided tour of the company's facilities, where they witness firsthand the operational aspects of the business.

c. **Capacity Building through Industry Interactions (CBII):** Capacity Building through Industry Interactions is a systematic program designed by Lexicon MILE to expose the students to the latest concepts in various subjects, current trends in the industry and innovative practices followed by the established managers.

Main Features:

- It is spread over two years.
- Covers general management issues along with specialization skills.
- Inculcate the right value system in the students.
- Helps in personality development of the future managers.
- Develops an interface between industry and academics.
- Focused on management trends and practices.
- Helps students to become The Right Contender for the corporate world.
- Placement focused.

The program includes workshops, seminars, and certification courses. The seminars and workshops are developmental and co-curricular. Developmental seminars represent the extension of academics covering latest developments and recent trends within the subject. While co-curricular events are intended towards the practical inputs which are not covered in the syllabus but are required for sustainable development and growth of the students.

In the first two trimesters, common programs are done for all the students. It covers aspects like familiarization with each specialization, personality development and characteristics of a budding manager. It makes sure that the young bright students are ready to become energetic, matured future managers.

### Major CBII Programs conducted for first two trimesters

The first academic year is the foundation of a successful management career. Therefore, the programs under CBII are also designed keeping in mind both personality development and career avenues. Every week at least one eminent personality from the industry is invited for an interactive session with our students where they share their knowledge and experience. CBII also includes sessions on table etiquettes, presentation skills, how to participate in GDs and how to face interviews etc.

YUGMA - Lexicon MILE, Pune and Ozone Yugma signed a MoU to provide applied skills to its students. The course contents are as follows:

1. **EQ Test** - Literacy, competencies, values and beliefs and outcomes. This was done online with soft copy reports and hybrid briefing.
2. **Discovery Interviews** - These will be one on one interviews which are aimed at studying the intrinsic characteristics of a student- vis-a-vis his communication skills, body language, clarity of thought and vision, creativity, passion assertiveness etc. This will be about 25 min per student.
3. **Pre Summers** - 2 Hours of workshop the importance of Internship, how to leverage for interviews what companies and recruiters look for, how to balance job and Institute requirement.
4. **Business Modelling Sessions** - 1 session of three hours per division. This will cover Business acumen and business model canvas here.
5. **Individual PI** - PI about 20 min per student. This would be more of an HR Round and the inputs here would be used for placement grading.
6. **Leadership Lecture Series** - Under this lecture series, global leaders from different industries interacted with our management students.

### **7.1.2. Participation of Industry Professionals in Curriculum Development, Projects, Assignments as Examiners, in Summer Projects (15)**

The participation of industry professionals in curriculum development is a valuable and essential aspect of creating effective educational programs that align with the needs of the workforce and industry trends. Industry professionals bring real-world insights, upto-date knowledge, and practical experience to the curriculum development process, ensuring that students are well-prepared for the demands of their future careers.

**Table 7.1.2.1. - Participation of Industry Professionals**

| <b>Sr. No.</b> | <b>Activity</b>                           | <b>Nature of Participation</b>        |
|----------------|---|---------------------------------------|
| 1              | Induction Program                         | Industry Overview and Motivation Talk |
| 2              | Innovation Conclave                       | Judges                                |
| 3              | Leadership Talks                          | Panel Discussion                      |
| 4              | Guest Lectures                            | Interactive Sessions                  |
| 5              | Workshops                                 | Guest Sessions                        |
| 6              | Evaluation for Summer Internship Projects | Examiners for Viva-Voce               |
| 7              | Evaluation for Dissertation Projects      | Examiners for Viva-Voce               |
| 8              | Placement Activities                      | Hiring                                |
| 9              | Summer Internship Project                 | Guide                                 |
| 10             | Convocation Ceremony                      | Invited Dignitaries                   |

#### **a. Industry Experts**

- **Examiners** – The feedback received from the Industry Professionals as examiners for external assessments.
- **Recruiters** – Recruiters offer feedback on the performance and preparedness of the students they hire from the institution. They can highlight areas where the students excel and areas where improvement is needed. This feedback can inform curriculum adjustments to better prepare students for the workforce. The recruiters also suggest specific topics, technologies, or trends that should be covered in the curriculum to ensure students are up-to-date with the latest industry developments, this helps in keeping the curriculum relevant and cutting-edge.
- **Guest Speakers** – Guest Speakers make significant contributions to curriculum development by providing real-world insights, practical knowledge, and industry relevant perspectives. The speakers help identify these skills and ensure they are integrated into the curriculum. The Learning Facilitators and Faculty then align the courses with the specific skills and competencies needed in the job market.

### b. Alumni

Alumni can play a valuable role in the curriculum development process by providing their insights and expertise. The representation of Alumni on the Board of Studies, as Examiners and Guest Speakers ensures their contribution for the Curriculum Development.

The interaction with the stakeholders from the industry ensures;

- The curriculum is aligned with the needs of employers in the field. The curriculum is relevant to the real world as per the latest technologies and practices.
- Identify skills that are in high demand.
- Assess the quality of the curriculum.
- Feedback on the content, the learning outcomes, and the teaching methods.
- Bring new ideas and perspectives to the curriculum development process.
- Help faculty to think outside the box and to develop innovative and cutting-edge programs.

The Academic Council meets each year and relies on the strong participation of members to ensure the effective conduct of business. The Syllabus Revision Team (SRT) reports to the Academic Council, which oversees their work through summary reports, monitoring their minutes, and through items referred by the SRT for consideration. Some areas of authority are delegated to the Academic Council by the Governing Body, and the Academic Council's Member Secretary provides a regular brief to the Governing Body on items of academic significance raised at the Academic Council

**Table 7.1.2.2 - Industry Representatives - Board of Governors**

### 7.1.3. Initiatives Related to Industry including Executive Education, Industry Sponsored Labs, and Industry Sponsorship of Student Activities (15)

- Lexicon has incorporated Corporate Research and Learning Internship (CRLI) as one of the credit courses in the syllabus of the PGDM program. The CRLI is a mandatory internship which every student must undergo after completion of their first year.
- The students are placed in different business organizations through the Placement Cell of the institute, as per the specializations chosen by them.
- After completion of Trimester - 2, the students join the various business organizations where they are placed and work there as interns. While doing the CRLI projects students work on different tasks & jobs assigned by their Industry mentors.
- This is a good opportunity for students to get corporate exposure wherein they try to apply various management concepts learnt in the classroom and sharpen their managerial skills.

- They get an opportunity to learn a lot of insights & knowledge while on the job.
- They also get to interact with different executives of organizations and learn how to communicate with various stakeholders of the businesses.
- They learn many practical aspects of the businesses, and which can imbibe in their corporate work life.
- The CRLI have COs that are mapped to POs and are an important component of the overall PO attainment calculation.
- Every student is allocated a full-time faculty member as an internal guide and an industry mentor from his / her summer internship organization.

#### 7.1.3.1. Executive Education – Sponsorship Projects from Industry

| Sr . N . o. | Sponsored By                            | Title of Project   | Researcher                | Co- Researcher | Sponsor ship Amount (In Lac) | Duration  | Year    |
|-------------|---|--|---------------------------|----------------|------------------------------|-----------|---------|

#### 7.1.3.2. Industry Sponsorship of Student Activities - Live Projects

At Lexicon MILE, students engage in live projects as an integral part of their academic journey. These Projects provide hands-on experience and help students to apply theoretical concepts to real business scenarios. The experience enhances practical skills, industry readiness, and professional confidence. This approach ensures students graduate with relevant, real world experience. Students completed their live projects with companies like, CITTA, Multifit, Searchbourne, Rest the case Pune Time Mirrors and many more.

Batch 2024-26 - List of Students selected/Not Selected for Live Project

#### 7.1.4. Involvement of Industry Professional as Members of Various Academic Bodies/Boards (15)

The Academic Council meets each year and relies on the strong participation of members to ensure the effective conduct of business. The Syllabus Revision Team (SRT) reports to the Academic Council, which oversees their work through summary reports, monitoring their minutes, and through items referred by the SRT for consideration. Some areas of authority are delegated to the Academic Council by the Governing Body, and the Academic Council's Member Secretary provides a regular brief to the Governing Body on items of academic significance raised at the Academic Council

**Table 7.1.4.1 - Industry Representatives - Board of Governors**

## 7.2. International Connect (40)

(International Students, Student Immersion Programs, Faculty Exchange Programs and Collaborative Research Projects. These would also include online initiatives to engage with international academic communities)

### 7.2.1. International Students

Our institution recognizes the importance of adhering to AICTE regulations to maintain educational standards and compliance. Currently, we do not admit NRI / Foreign students as we do not have the requisite approvals or quota demarcated for admissions of NRI / Foreign students. Our institution is dedicated to achieving full compliance with AICTE regulations and is actively working towards obtaining the required approvals for NRI student admissions. We believe that these efforts will enhance our institution's credibility and educational quality in the long term.

### 7.2.2 Student Immersion Programs

**a. Foreign Language Certification** - The study of German as a foreign language plays a crucial role in enhancing student immersion programs. German, being one of the most widely spoken languages in Europe and a key language in academia and industry, provides students with invaluable opportunities for cultural and academic growth. Learning German opens doors to numerous academic opportunities, including scholarships from the German Academic Exchange Service (DAAD) and research fellowships. Professionally, German language skills are highly valued by employers, particularly in engineering, technology, and business sectors where Germany is a global leader.

| Batch | No. of Admitted Students | German Language           |                         |
|-------|--------------------------|---------------------------|-------------------------|
|       |                          | Basics in German Language | Applied German Language |

|         |     |     |     |
|---------|-----|-----|-----|
| 2019-21 | 160 | 160 | 160 |
| 2020-22 | 103 | 103 | 103 |
| 2021-23 | 95  | 95  | 95  |

**b. PILF-The Pune International Literary Festival** - is an annual celebration of literature held in Pune, India. Launched in 2013, PILF has quickly grown into a prominent event on the literary calendar, attracting authors, poets, publishers, and literature enthusiasts from around the world. The festival features a diverse range of activities, including panel discussions, book launches, poetry readings, and workshops, covering genres from fiction and non-fiction to poetry and children's literature.

It aids in a student immersion program as follows- Exposure to Diverse Perspectives: Students can engage with authors, poets, and thinkers from various cultural and literary backgrounds, broadening their understanding and appreciation of global literature.

Interactive Learning: The festival's interactive sessions, including panel discussions, workshops, and Q&A segments, allow students to actively participate, ask questions, and gain insights directly from literary experts.

Cultural Enrichment: The festival often features events that delve into various cultural traditions and contemporary societal issues, enriching students' cultural knowledge and awareness.

Overall, integrating PILF into a student immersion program can significantly enhance students' educational experience by merging literary exposure with interactive and practical learning opportunities.

75 students of Lexicon MILE participated in PILF in the year 2017, 2018 and 2019 but due to COVID restriction our students could not participate in PILF for the years 2020, 2021 and 2022.

### 7.2.3. Online initiatives to engage with international academic communities

In the digital age, online initiatives have become crucial for fostering international academic collaborations and engagement. Our institution has strategically implemented various online platforms and programs to connect with academic communities worldwide, enhancing our global presence and collaboration.

| Date       | Name of the Speaker | Details   | Topic                       |

## Introduction

The building of Lexicon Management Institute of Leadership and Excellence (Lexicon MILE) is located on a 2.92Acre. It offers comprehensive infrastructure with amenities like sports facilities, parking, and internal spaces including classrooms, faculty areas, administration offices, and a well-equipped library and auditorium.

### 8.1. Classrooms and Learning Facilities (25)

#### 8.1.1. Adequate, well-equipped classrooms to meet the curriculum. (10)

##### 8.1.1.1. Adequate Classrooms (5)

Lexicon Mile is an AICTE- approved management institute offering specialized courses in Marketing, Finance, HRM, and Research Business Analytics (RBA).

Institute provides a conductive learning environment with essential facilities to ensure effective education delivery. This includes enough classrooms specifically designed for conducting lectures.

| Sr. No. | Room No. | Floor  | Area Type | Area Sqm |
|---------|----------|--------|-----------|----------|
| 1       | 2B       | second | Classroom | 66.01    |
| 2       | 2C       | second | Classroom | 66.01    |
| 3       | 3B       | Third  | Classroom | 66.18    |
| 4       | 3C       | Third  | Classroom | 66.18    |
| 5       | 3D       | Third  | Classroom | 67.46    |
| 6       | 3G       | Third  | Classroom | 66.33    |

These classrooms are spacious and appropriately furnished, with all the necessary furniture, Acs, Fans, naturally light with IT equipment. The inclusion of IT resources allows for interactive simulations and online assessments, which engage students and deepen their understanding of the educational material and its practical application

##### 8.1.1.2. Well-equipped classrooms to meet the curriculum (5)

At Lexicon MILE, recognize the importance of a well-equipped classroom for effective learning. All classrooms are designed to promote involvement, cooperation, creativity, and critical thinking. Here's how:

**Comfortable Furniture:** Institute provide chairs and desks that support proper posture, reducing discomfort and distractions. Each student has sufficient desk space to work efficiently and organize their belongings.

**Adequate Lighting and Ventilation:** All classrooms have natural light and effective ventilation, promoting a comfortable learning environment. Good lighting enhances concentration and engagement in learning activities.

**Smart Boards:** Smart boards offer interactive learning experiences, incorporating multimedia components to engage students visually and enhance understanding.

**Audio-Visual Equipment:** use projectors, digital presentation tools, and speakers to display and communicate audio and video content clearly during lessons and presentations.

**Adequate Storage:** Designated spaces like cabinets and shelves ensure easy access to materials for both teachers and students, facilitating smooth classroom activities.

**Art and Craft Supplies:** Institute provide various art materials like glue, scissors, and beads to encourage creativity and artistic expression among students.

By providing these amenities, Institute aim to create an environment conducive to learning and academic achievement for all our students.

**Environmental Quality:** Classrooms are clean and well-maintained. Improve air quality and reduce noise levels for better concentration.

**Student Comfort and Well-being:** Control temperature and provide comfortable seating. Create a supportive and inclusive environment for all students.

### **8.1.2. Availability of E-learning facilities, utilization; initiatives ensure students' learning (15).**

The institute offers advanced e-learning facilities in classrooms, including smart boards, internet connectivity, LAN, Wi-Fi access points, overhead projectors with remotes, and cameras for lecture capture. These tools enhance the learning experience by integrating various electronic media and IT tools into education. All Classrooms have Acs and Fans for a regulated and temperature-controlled learning environment.

#### **8.1.2.1. E-learning Facilities (5)**

**1. Management Simulations through CESIM:** Students engage in management simulations using CESIM, a subject-specific platform. These simulations provide practical, hands-on experience in applying theoretical knowledge to real-world scenarios, enhancing students' understanding of management concepts.

**2. Online Certification Short Courses:** The institute offers online certification short courses through platforms like Udemy, NISM, and Coursera as part of the CRLI program. **LinkedIn Learning Courses:** Students and faculty were access to LinkedIn Learning Courses, which integrate online resources and multimedia content into the curriculum. These courses offer a comprehensive learning experience by combining traditional classroom instruction with online learning materials.

### 8.1.2.2.Utilization (5)

As a part of the CRLI program, students have participated in a multidisciplinary simulation game through CESIM. This immersive experience encouraged collaboration across different disciplines, fostering a holistic approach to problem-solving and decision-making.

Through Online Certification Short Courses students have explored additional learning opportunities to supplement their academic curriculum and develop valuable skills relevant to their field of study. As a part of the CRLI program, students have participated in a multidisciplinary simulation game through CESIM. This immersive experience encouraged collaboration across different disciplines, fostering a holistic approach to problem-solving and decision-making.

In addition, each subject's syllabus incorporates recommendations for pertinent YouTube channels and online resources, empowering students to engage in self-directed learning. This initiative encourages students to explore supplementary materials beyond the classroom, fostering a deeper comprehension of course concepts and nurturing their academic growth.

### 8.1.2.3.Initiatives to Ensure Student Learning (5)

#### Developing Research and Innovative Acumen among Students

#### Celebrating accomplishments and innovation

Pankaj Sharma and Deepak Mhaisekar, Divisional CP

Dr Vijay Bhatkar and SD Sharma

Dr Neeraj Sharma and Sunil Phulari, Additional CP

Dr SS Mantha and Swastik Sirsikar

The Lexicon International Innovation Conclave

The Lexicon Group of Institutes hosted its International Innovation Conclave at The Lexicon Campus in Wadala recently. The unique event was a gathering of great minds and greater accomplishments.

Innovation is a key element in the vision of the Lexicon Group and each institute's pedagogy is designed with innovation as the final outcome of

knowledge and understanding. All the students, from class I to post-graduation, are exposed to varying levels of innovation. The education system entirely focuses on innovations and discoveries and prepares students to look beyond textbooks. The students are encouraged to use their creative and analytical curiosity to imagine, design, and execute, which, in turn, leads to innovation.

Deepti Sharma and Shaji John

Raza Mured and Sunita Sharma

Sandeep and Abhilasha Khandelwal

The institute has established an Innovation Lab dedicated to fostering innovation and research among its students. Inaugurated on July 6, 2019, by Padma Bhushan Dr. Vijay Bhatkar, the lab aims to nurture entrepreneurial skills and provide specialized training in intellectual property rights

It equips students with the knowledge and skills necessary to effectively protect and commercialize their innovations. The lab's primary objective is to assist students in creating trademarks, patents, and copyrights through management training, emphasizing the institute's belief in the significance of innovation for achieving success.

Recently, the institute achieved a significant milestone by registering a patent for its groundbreaking product, the "FOLDABLE BAG: LAP-FAB." Designed for individuals seeking a more convenient lifestyle, this portable laptop bag offers unparalleled convenience and functionality.

### **Library Activity includes**

During library sessions, faculty members conduct various activities, such as reviewing newspaper and magazine articles, participating in group discussions, and holding quiz competitions. To cultivate reading habits among students, Lexicon MILE organizes intra and inter-collegiate book review competitions.

### **8.2. Library (20)**

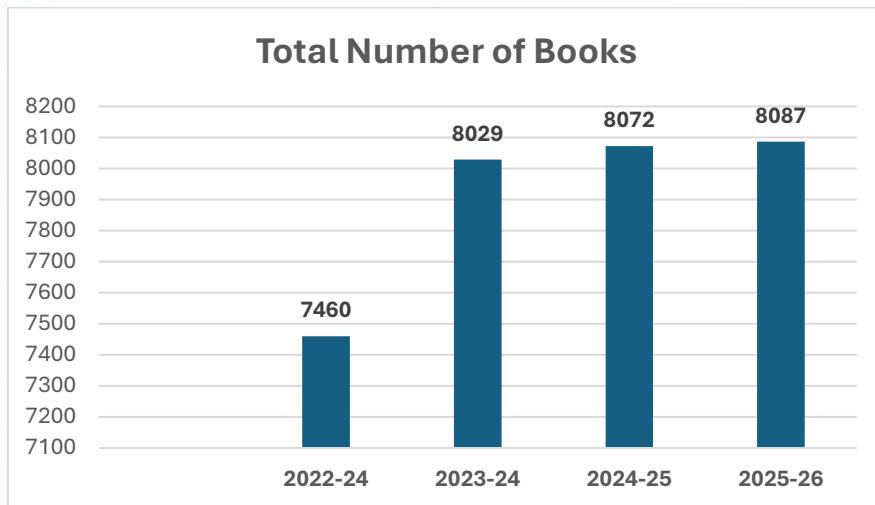

#### **8.2.1. Introduction**

The institute has a fully computerized library that supports the academic and research requirements of students and faculty of the management programme. The library maintains a satisfactory and balanced collection of print and electronic resources, including textbooks, reference books, journals, magazines, newspapers, e-books, and e-journals, covering all major functional areas of management.

Library operations such as acquisition, cataloguing, circulation, and stock management are carried out using AutoLib Library Management Software, ensuring systematic organization and easy access to learning resources. The library is equipped with 10 multimedia computers with internet connectivity, enabling students and faculty to access e-resources, online databases, and digital learning materials.

**Table 8.2.1. Shows the Availability of Learning Resources from The Academic Year 2020-21 to 2025-26 (till 27-January 2026)**

| Years   | Total Number of Books | Periodicals       |                        |           |            | e-Resources |                        |

| PG-211 H                         | Performance & Compensation Management       | 12     | 66             |
| PG 212 H                         | HR Information Systems and Management       | 5      | 11             |

### 8.2.3. Year wise subscription of Periodicals (Journals/Magazines/Newspapers) (5)

The library has subscribed to printed national and international journals and magazines and it has been renewed every year.

**Table 8.2.3. Journals and Magazines Subscribed from The Academic Year 2020-21 to 2025-26 (till 27-January 2026)**

| Academic Year | Journals | Amount Spent on Periodicals |
|---------------|----------|-----------------------------|
| 2022-23       | 46       | 160274/-                    |
| 2023-24       | 38       | 104139/-                    |
| 2024-25       | 42       | 108652/-                    |
| 2025-26       | 46       | 160274/-                    |

### 8.2.4. E-Resources and Digital Library (5)

The library is being subscribed to database packages for online resources. The library is a member of DELNET (Developing Library Network) and also a registered member of the National Digital Library of India (NDLI). These online databases and portals provide all digital resources, such as e-books, e-journals (abstract and full text), e-newspapers, e-magazines, e-articles, e-manuscripts, online courses and theses/dissertations to students and faculties. This digital infrastructure significantly enhances the teaching-learning process and supports research activities within the institution.

**Table 8.2.4. Library e-Resources and Digital Library Facility**

| Sr. No. | Particulars                | Details   |
|---------|----------------------------|---|
| 1       | E-Journal Database         | <b>EBSCOHOST – Business Source Elite (BSE):</b> 492 active full-text journals and magazines; 326 peer-reviewed journals; 166 peer-reviewed journals with no embargo; 282 journals indexed in Scopus/Web of Science; 4,341 indexed & abstracted journals, including 3,219 peer-reviewed journals |
| 2       | E-Book Databases           | EBSCO E-Book Business Core (2019) – approx. 9,115 e-books; EBSCO E-Book Core Collections (2025) – 12,521 e-books (EPUB & PDF formats)   |
| 3       | Digital Library Membership | National Digital Library of India (NDLI) – access to 90 million+ digital learning resources   |
| 4       | Library Network Membership | DELNET – access to e-books, e-journals, articles, theses, and bibliographic databases   |
| 5       | Digital Resources Coverage | E-books, E-journals (abstract & full-text), E-magazines, E-newspapers, Research articles  |
| 6       | Digital Library Facilities | Access through Multimedia Computers and Campus Network  |
| 7       | Number of Multimedia PCs   | 10  |
| 8       | Internet Access            | High-speed Internet available for Students and Faculty  |
| 9       | Remote Access              | Access remotely through Desktop, Laptop, Tablet & Mobile Devices using login credentials by clicking links  |
| 10      | Users                      | Students and Faculty Members  |

### **8.2.5. Accessibility to Students and Teachers (5)**

Library is open-access and available to students from 9 am to 6 pm on all working days. In addition, the institute has an evening reading room for students, which is open from 6:00 pm to 8:00 pm on all working days and until 10 pm during the examination period.

**Digital Accessibility-** Students and faculty can study their study and research remotely, without needing to be physically present at the library by clicking links. Additionally, out of syllabus e-books, case studies, and research articles are shared with faculty and students based on their study requirements or educational needs.

## WEBOPAC

The library software Autolib NG-Library Management System was updated with the latest version of the WEBOPAC system in 2016. WEBOPAC is beneficial to all faculty and students. Students and faculty can get library access anywhere within the campus premises by clicking following link <http://10.0.0.159/AutoLibWebOPAC/>

They can learn about the books available in the library. They know all the different titles and volumes that are available in the library. Students and faculty know about the national and international journals and magazines that are subscribed by library. After clicking on the Member tab and entering their user ID and password, students can find their book transaction history. They can renew their books themselves. Students and faculty are notified of new books that have arrived in library.

**Informational Accessibility-** Students are assisted in finding the perfect books for their required content, helping to locate exact resource materials for their study and assignments. They suggest precise journals for their research topics, and recommend specific magazines for gaining advanced business knowledge

### 8.3. IT Infrastructure and Learning Management System (30)

#### 8.3.1. Availability of Composite hardware, software, network resources and services required for the existence, operations and management of an institution's IT Environment (15)

Lexicon MILE Institute ensures the availability of robust and reliable composite hardware, software, network resources, and IT services essential for the effective functioning, operation, and management of its institutional IT environment.

##### 8.3.1.1. Composite Hardware (5)

The institute maintains adequate and well-functioning physical IT infrastructure to support academic and administrative operations. The key components include:

**Server Infrastructure:** The institute utilizes a reliable **Dell Server (2023 model)** to manage institutional data, applications, and workloads efficiently, ensuring high availability and minimal downtime.

**Storage Systems: Network Attached Storage (NAS)** system is deployed to provide secure centralized data storage, facilitating systematic backup and efficient data recovery.

**Networking Equipment:** High-quality networking devices including switches, routers, and related hardware are properly configured to ensure seamless internal communication and optimal network performance.

**Workstations:** All workstations are equipped with adequate computing resources such as processors, RAM, and storage to support daily academic and administrative tasks effectively.

**Power Supply and Backup: Uninterruptible Power Supply (UPS)** systems are implemented to safeguard IT equipment and ensure uninterrupted operations during power outages.

##### 8.3.1.2. Software Resources (5)

The institute employs licensed and up-to-date software solutions to support teaching, learning, and administrative functions:

**Operating Systems:** Supported operating systems include **Windows 10 and Windows 11**, providing a stable and secure computing environment.

**Application Software:** Essential applications such as **IDS software, Microsoft Office 365, Adobe Creative Cloud, and Word Worthy (Language Lab software)** are utilized to enhance productivity, creativity, and language learning outcomes.

**Security Software:** Robust cybersecurity is ensured through **Quick Heal Antivirus** and other comprehensive security solutions, protecting systems from malware and cyber threats.

**Management Software:** The institute uses an **ERP/Management Information System** to streamline administrative processes, improve efficiency, and support informed decision-making.

**Table 8.3.1. Institute using Management Software**

### 1) No Paper Form

**Purpose:** NPF likely serves as a digital platform for managing admissions processes without the need for physical paperwork.

**Functionality:** It could handle online applications, document uploads, applicant tracking, and admissions-related communications.

Utilizing NPF as lead management software and CRM tool streamlines lead generation for admissions. It facilitates seamless communication between the admissions cell and candidates, offering insights into future admission projections.

### 2) Superset

**Purpose:** Superset is likely a platform dedicated to managing placement activities, such as job postings, student resumes, employer interactions, and scheduling interviews.

**Functionality:** It likely streamlines the entire placement process, from job listings to final hiring decisions, improving efficiency and connectivity between students and potential employers.

Superset serves as the platform for internships and placements, enhancing the placement process's efficiency. It centralizes student information related to placements, applications for internships and full-time roles, and resumes. Additionally, it facilitates direct communication of placement opportunities from companies to students and provides comprehensive reports for performance assessment.

### 3) VAAVE - Alumni Portal:

**Purpose:** VAAVE appears to be specialized software for conducting examinations, possibly including online exams and assessment management.

**Functionality:** It may provide features for creating exam schedules, generating question papers, conducting exams online or offline, and analyzing exam results.

VAAVE facilitates alumni enrollment upon course completion, fostering alumni interaction and communication. It has served as a platform for alumni association activities and communication since the institute's inception.

### 4)AutoLib - Library Management System

**Purpose:** Autolib is likely a library management system, facilitating the organization and tracking of library resources.

**Functionality:** It may include features for cataloging books, managing borrowing and returns, tracking fines, and generating reports on library usage.

The institute's library operations are fully computerized and automated using AutoLib Library Management Software serves as user friendly Cataloging and Classification, search and advanced search, circulation management, acquisitions, accessioning, serials management etc.

### **5) Plagiarism Checker X:**

**Purpose:** This software is likely used to detect plagiarism in academic work, ensuring academic integrity.

**Functionality:** It likely allows users to upload documents for analysis and generates reports highlighting any instances of plagiarism or improper citation.

A licensed plagiarism checker is utilized to ensure academic integrity by verifying the originality of theses, project reports, research work, and CLRI project reports.

### **6) Tally 9.0:**

**Purpose:** Tally 9.0 is accounting software used for managing financial transactions and reporting.

**Functionality:** It likely includes features for recording transactions, managing accounts payable and receivable, generating financial statements, and facilitating tax compliance.

Tally 9.0 software is employed by the accounts department for efficient management of payments and receipts.

### **7) Wheebox**

**Purpose:** Wheebox appears to be a platform for alumni engagement and management.

**Functionality:** It may include features for alumni directory, event management, job postings for alumni, and communication channels to keep alumni connected with the institute.

Wheebox is web-based software used for online and hybrid examinations featuring remote proctoring. It ensures exam integrity through features like AI-driven detection, face detection, and mandatory camera usage.

### **8) Tap soft:**

**Purpose:** Tap soft-ERP is likely an ERP system tailored for human resources management.

**Functionality:** It may encompass modules for employee data management, payroll processing, attendance tracking, performance evaluation, and recruitment.

Tap soft, available on the Play Store for Android users, serves as a user-friendly HRM software. It manages employee details, attendance, leave, payroll, salary management, salary sheet generation, and pay slip generation.

### **9) Digi campus (formerly Coll-Poll):**

**Purpose:** Digi campus/ Coll-Poll seems to be a comprehensive platform for managing various academic activities.

**Functionality:** It likely covers aspects such as course management, class scheduling, student attendance tracking, grades management, and academic reporting.

It is a comprehensive software solution tailored for academic institutions to streamline various

administrative and academic processes. Here is some common functionality typically found in Coll Poll (Digi campus) for academic purposes:

### **8.3.1.3. Network Resources and Operations and Management Services (5)**

**Internet Connectivity:** The institute is supported by a high-speed 500 Mbps internet connection, facilitated through enterprise-grade switches, routers, and Wi-Fi access points, ensuring uninterrupted access to digital resources.

**Firewall and Security Measures:** Advanced security mechanisms such as Sophos web-based firewalls and cyber security solutions are implemented to prevent unauthorized access and protect data confidentiality and privacy.

**Advanced Network Management:** An OMADA Controller-based advanced security and network management system is employed for centralized monitoring and control.

**IT Support and Maintenance Services:** Dedicated IT support services provide prompt technical assistance to users. Regular hardware and software maintenance is carried out to ensure optimal performance and security compliance.

**Backup, Recovery and Monitoring Services:** Systematic backup and recovery mechanisms are in place to protect critical institutional data. Advanced monitoring tools enable real-time tracking of IT infrastructure health, facilitating proactive issue resolution. Remote desktop support is provided to address user issues efficiently.

### **8.3.2. Availability of Learning Management System (LMS) for Core Functionalities (15)**

At Lexicon MILE Institute, we use Microsoft Teams and Google Workspace to create an environment where students, faculty, and staff can communicate, collaborate, and stay productive. Here's how each platform helps:

#### **8.3.2.1. Microsoft Teams (7.5)**

**Classroom Communication:** Teachers set up Teams for each course where students can discuss, share resources, and work on projects together.

**Virtual Classes:** Institute conduct online classes using Teams Meetings, allowing for interactive lectures, discussions, and presentations with video and screen sharing.

**Assignment Management:** Assignments and coursework are organized within Teams, making it easy for teachers to distribute tasks, give feedback, and grade submissions.

**Collaborative Projects:** Teams Channels are used for group projects, providing a central space for teams to communicate, coordinate, and track progress.

**Integration with Microsoft 365:** Teams work seamlessly with other Microsoft 365 apps like One Drive and Office Online, ensuring easy access to documents and presentations.

#### **8.3.2.2. Google Workspace (7.5)**

**Email and Communication:** Institute depends on Gmail for emails and integrated chat, while Google Meet is used for video conferencing, making communication efficient and straightforward.

**Document Collaboration:** Google Docs, Sheets, and Slides enable real-time collaboration on academic projects, allowing students and faculty to work together from anywhere.

**File Storage and Sharing:** Google Drive provides secure storage for educational resources,

ensuring easy access to course materials and assignments from any device.

**Virtual Meetings:** Google Meet is go-to platform for virtual meetings and discussions, offering useful features like screen sharing and integration with Google Calendar.

By utilizing the collaborative capabilities of Microsoft Teams and Google Workspace, Lexicon MILE Institute cultivates an inclusive and engaging learning environment, empowering students to excel academically and professionally.

|                    |                                       |           |

### **9.1. Alumni Association (10)**

Lexicon MILE Alumni Association is called "**Lexicon Alumni Association of Believers.**" This association operates under a set of rules outlined in its bye-laws and is overseen by an Executive Committee comprising a President, Vice President, Secretary, and Treasurer. The Chairman of the Board of Governors serves as the Patron, and the Director acts as an Adviser. The association has both life and associate members, with PGDM program graduates being designated as life members, and faculty as Associate Members. With 13 graduating batches, the Lexicon MILE alumni association boasts a significant membership and remains actively engaged.

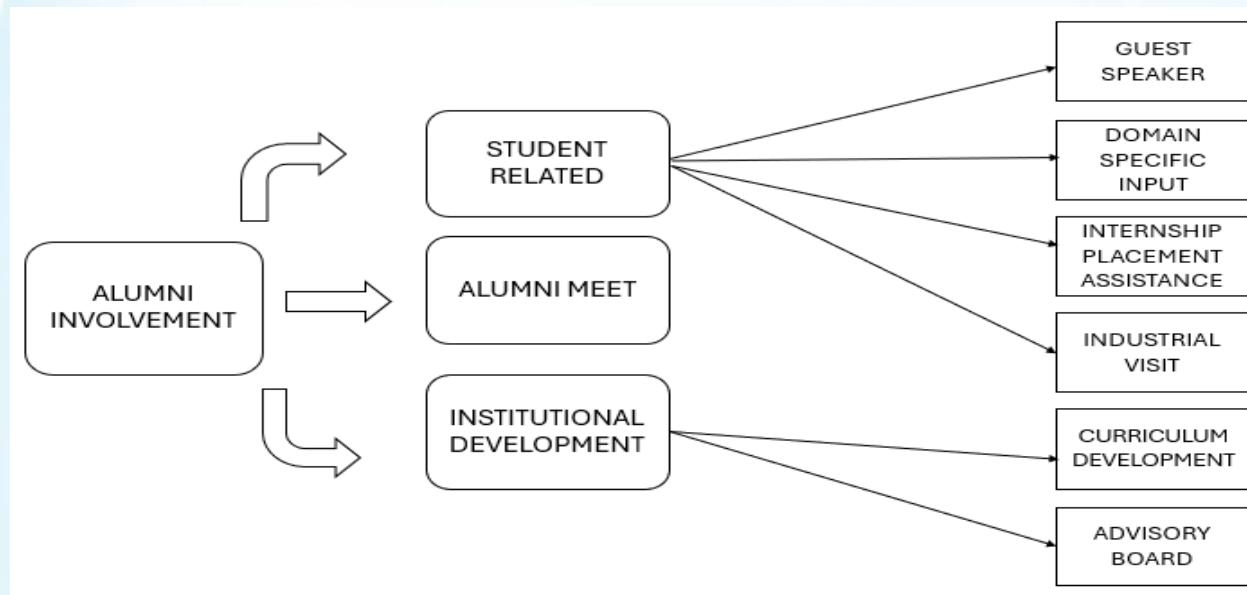

Currently, the alumni association consists of approximately 1040 members who actively contribute to the Institute in various ways, including:

| <b>Sr. No</b> | <b>Status of Formation</b>         | <b>Yes / No</b> | <b>Date</b>                    |

### **9.2. Involvement of Alumni (25)**

Alumni involvement at Lexicon Management Institute of Leadership and Excellence is crucial for the overall development and success of the institution. Alumni, being former students who have successfully completed their education and ventured into the professional world, bring valuable insights, experiences, and networks that can greatly benefit current students, faculty, and the college.

### 9.2.1. Alumni Meet

Robust Alumni Associations and connects are a necessary part of a dynamic institution. Lexicon MILE has a pool of alumni which it can connect to student development activities, trainings, placements and corporate interfaces.

Lexicon Management Institute of Leadership and Excellence celebrates an Annual Alumni event every year between the months of August and October. The event provides an opportunity for our Alumni to relive their old memories at the Institute by re-connecting with fellow batchmates and professors.

The latest alumni meet was organized on campus on 23<sup>rd</sup> August, 2025 from 2.30 pm onwards. The creativity of the event have been attached herewith.

## Lexicon MILE Alumni Homecoming 2025

**23rd August, 2025**

**2:00 pm to 6:30 pm**

**Venue: Lexicon Auditorium, Wagholi**

**2:00 PM - 2:30 PM**

Campus Tour &  
Alumni Lounge with Memory Cards

**2:30 PM - 2:32 PM**

Lamp Lighting

**2:32 PM - 2:37 PM**

Ganesh Vandana

**2:37 PM - 2:39 PM**

Lexicon Song

**2:39 PM - 2:45 PM**

Lexicon Group Video

**2:45 PM - 2:55 PM**

Flashback Video

**2:55 PM - 3:10 PM**

Welcome address by

**Mr. Neeraj Sharma**

Vice Chairman, The Lexicon Group and Director,  
Pune Times Mirror, Civic Mirror & MultiFit

**3:10 PM - 3:12 PM**

Alumni Achievements Slideshow

**3:12 PM - 3:17 PM**

Alumni Speech

**Ms. Ridhima Seth**

**3:17 PM - 3:32 PM**

**Panel Discussion Group 1**

Measures to make one  
placeable while on campus

**3:32 PM - 3:47 PM**

**Panel Discussion Group 2**

Lexicon Inputs that shaped  
your corporate careers

**3:47 PM - 3:52 PM**

Alumni Speech  
**Mr. Karan Kakade**

**3:52 PM - 4:02 PM**

Address by  
**Dr. Bidyanand Jha**  
Institute Director, Lexicon MILE

**4:02 PM - 4:07 PM**

Dynamic Alumni Awards

**4:07 PM - 4:10 PM**

Solo Singing

**4:10 PM - 4:15 PM**

Group Dance 1

**4:15 PM - 4:16 PM**

Poetry

**4:16 PM - 4:21 PM**

Solo Singing

**4:21 PM - 4:26 PM**

Group Dance 2

**4:26 PM - 4:36 PM**

Stage Crash - Impromptu Acts

**4:36 PM - 4:51 PM**

Farewell Gift

**4:51 PM - 4:56 PM**

Vote of Thanks  
**Dr. Raju Varghese**  
Director - Global Programs &  
International Campus, Lexicon MILE

### 9.2.2. Students Related

#### 1. Guest Speakers:

Many alumni by virtue of their senior positions in the organizations bring considerable value to the students when they are invited as Guest Speakers. They also participate as speakers in various Leadership talks besides the Inauguration and Orientation phases of the PGDM program. The orientation / Induction programme for the 2023-25 academic year was for three weeks.

**Alumni As Guest Speakers – Ms. Rashi Pathade Batch 2020-22**

### **Alumni As Guest Speakers – Mr. Karan Kakde Batch 2010-12**

#### **2. Domain specific Inputs:**

At Lexicon Management Institute of Leadership and Management Alumni are also involved in conducting sessions which are specific to each specialization in PGDM. Alumni with expertise in Finance, Marketing, HR are invited to conduct these sessions, these help students understand various roles and careers paths within their specializations.

#### **3. Industrial Visits:**

Drawing from their industry experience, alumni play a vital role in facilitating student visits to their respective organizations and others, providing practical insights into operational procedures. This exposure extends to various types of factories and establishments, offering students a comprehensive understanding of diverse business operations and processes.

#### **4. Internship and Placement Assistance:**

The alumni of Lexicon Management Institute of Leadership and Excellence render significant support to the placement of the Institute's students. The Institute can enlarge its lists of recruiters through the support extended by the alumni. Many of the regular recruiters are companies like Evalueserve, Lodha, Kolte Patil, TIAA, Ocwen Financial Solutions, eClerx, Knight Frank, Times of India where the alumni are positioned at the senior management levels. The advice and the counsel received from the alumni in the preparation of students for placement are invaluable.

**Alumni as Recruiters – Mr. Siddhant Raj - Batch 21-23 Reliance Retail**

**Alumni as Recruiters – Mr. Aditya Kakde – Batch 10-12 IDFC First Bank**

### **9.2.3. Institute Related**

#### **1. Curriculum Development:**

Alumni involvement in curriculum design is a strategic initiative that can significantly enhance the relevance and effectiveness of educational programs. Alumni bring current industry insights and trends to the table, ensuring that the curriculum remains up-to-date and aligned with the latest developments in the professional world. Their firsthand knowledge of industry demands helps in crafting courses that are directly applicable to the evolving needs of the job market.

#### **2. Advisory Role:**

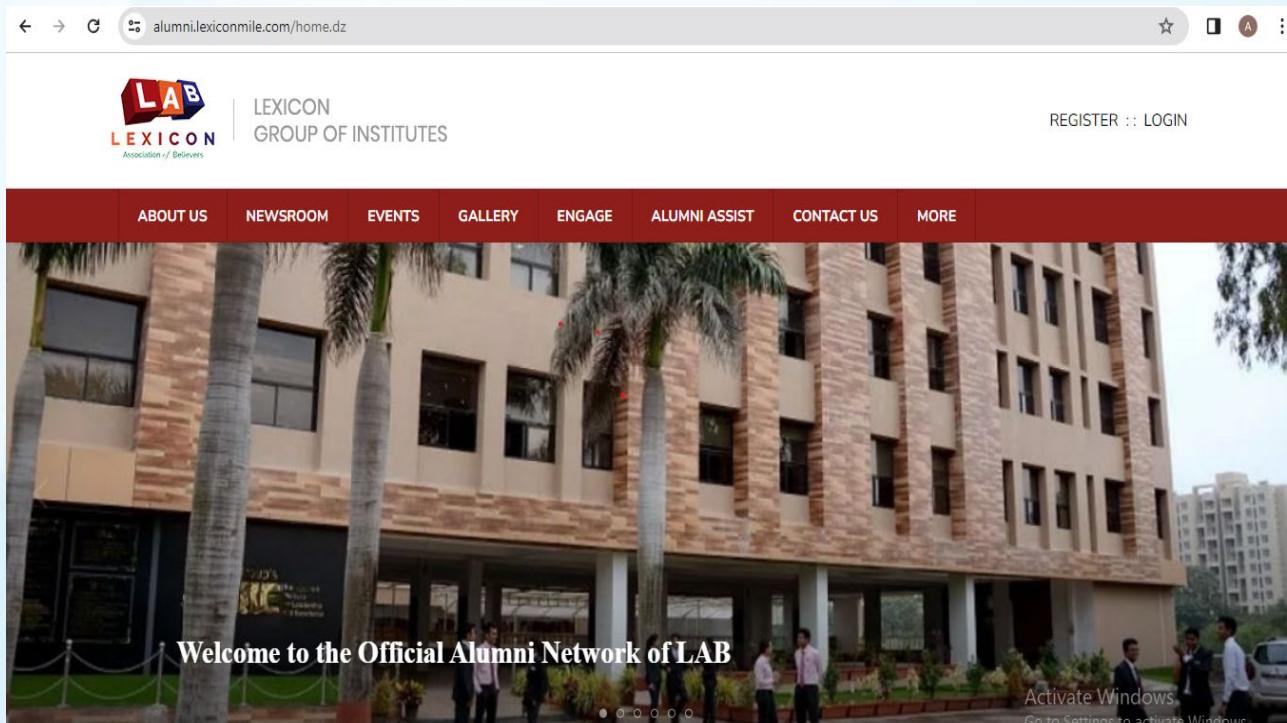

The Alumni at Lexicon MILE provide guidance on establishing a standard of quality education that aligns with industry expectations. They also suggest key elements to be incorporated into the governance ideology for effective management. The purpose of involvement of Alumni in this initiative is aimed at fostering the holistic development of students and help them be day zero professionals.

### **9.3. Methodology to Connect with Alumni and its Implementation (15)**

The exclusive Alumni Portal provides a continuous interface for interactions amongst the Alumni Members. Every year the alumni meet is organized during September / October.

|---------------------|-------------------------------|-----------|

### **10.1. Actions taken based on the Results of Evaluation of Each of the POs and PSOs (20)**

The evaluation of Program Outcomes (POs) and Program Specific Outcomes (PSOs) constitutes the primary diagnostic tool for the program's health. This process moves beyond the superficial aggregation of grades to a deep, root-cause analysis of student competency. The Institute employs a robust **"Identify-Plan-Act-Review"** cycle, ensuring that every statistical deviation in attainment triggers a specific, measurable pedagogical or curricular intervention.

#### **10.1.1. Theoretical Framework and Assessment Methodology**

The assessment of outcomes is grounded in a dual-method approach designed to capture both the explicit demonstration of skills and the implicit perception of competence.

- **Direct Assessment (80% Weightage):** This component is derived from the granular evaluation of Course Outcomes (COs) across the curriculum. As detailed in Criterion 3, COs are mapped to POs & PSOs using a weighted correlation matrix (1: Slight, 2: Moderate, 3: Substantial). The attainment of POs is thus a direct function of student performance in internal Continuous Concurrent Evaluations (CCE) and external End Trimester Examinations.
- **Indirect Assessment (20% Weightage):** This component captures the experiential dimension of learning through structured surveys administered to graduating students (Exit Survey), alumni and employers. This triangulates the data, ensuring that high grades are corroborated by stakeholder satisfaction.

The attainment levels are standardized against a rigorous benchmark:

- **Level 1:** Less than 50% of students scoring the target marks ( $\geq 60\%$ ).
- **Level 2:** Between 50% and 60% of students scoring the target marks ( $\geq 60\%$ ).
- **Level 3:** More than 60% of students scoring the target marks ( $\geq 60\%$ ).

#### **10.1.2. Comprehensive Analysis of Program Outcome (PO) Attainment**

The POs are as follows: -

|            |   |
|------------|---|
| <b>PO1</b> | Apply knowledge of fundamental business management principles in marketing, finance, human resources, and business analytics. |
| <b>PO2</b> | Evaluate business strategies, market research, and develop data-driven recommendations to achieve organizational goals.       |
| <b>PO3</b> | Demonstrate effective communication, interpersonal, and leadership skills in a multicultural environment.                     |
| <b>PO4</b> | Adapt with new skills, technologies, embracing innovation, and demonstrating ethical conduct in professional practices.       |

|            |  |
|------------|--|
| <b>PO5</b> | Understand impact of business practices on stakeholders with sustainable businesses. |
|------------|--|

A longitudinal analysis of PO attainment over the past three academic cycles (2020-22, 2021-23, and 2022-24) reveals a dynamic landscape of student performance. This data serves as the baseline for all remedial interventions.

**Table No. 10.1.2.1. Comparative Analysis of PO Attainment Levels (2020–2024)**

| Program Outcome (PO) | Description                              | Batch 2020-22 | Batch 2021-23 | Batch 2022-24 | Trend Analysis (2021-23 vs 2022-24) |
|----------------------|--|---------------|---------------|---------------|-------------------------------------|
| <b>PO 1</b>          | Application of Management Fundamentals   | 2.18          | 2.19          | <b>2.02</b>   | Decline (-7.70%)                    |
| <b>PO 2</b>          | Critical Thinking & Data-Driven Analysis | 2.21          | 2.20          | <b>1.93</b>   | Decline (-11.93%)                   |
| <b>PO 3</b>          | Leadership, Communication & Teamwork     | 1.97          | 2.01          | <b>1.66</b>   | Significant Decline (-17.51%)       |
| <b>PO 4</b>          | Innovation, Ethics & Adaptability        | 2.14          | 2.15          | <b>2.02</b>   | Decline (-5.98%)                    |
| <b>PO 5</b>          | Sustainability & Social Responsibility   | 1.83          | 1.91          | <b>1.68</b>   | Decline (-12.10%)                   |
| <b>Average</b>       | <b>Aggregate Program Performance</b>     | <b>2.07</b>   | <b>2.09</b>   | <b>1.86</b>   | <b>Overall Drop: ~11.05%</b>        |

The data indicates a systemic dip in attainment levels for the 2022-24 cohort compared to the 2021-23 batch. While the attainment for PO1 (Management Knowledge) and PO4 (Ethics/Innovation) remains relatively robust (above the 2.0 threshold), notable vulnerabilities have emerged in PO3 (Leadership/Communication) and PO5 (Sustainability), which have dropped significantly below the target levels. This decline is not viewed as a failure of instruction but as a reflection of the unique "**post-pandemic transition**" challenges. The 2022-24 cohort spent significant formative years in remote learning environments, which appears to have impacted interpersonal communication (PO3) and the depth of analytical engagement

(PO2). The Institute has treated this quantitative signal as a mandate for the comprehensive "Quality Restoration Plan" detailed in the subsequent sections.

### 10.1.3. Detailed Remedial Actions for PO Attainment Gaps

The Institute has implemented specific, targeted interventions for each PO where attainment fell below the target or showed a concerning downward trend.

#### PO 1: Application of Management Knowledge

- **Status:** Attainment dropped from 2.19 to 2.02.
- **Gap Analysis:** While students demonstrate a reasonable grasp of theoretical concepts, the application of these concepts in complex, unstructured business scenarios needs reinforcement. The diversity of the intake (with significant non-commerce backgrounds) creates initial disparities in foundational understanding.
- **Remedial Interventions:**
  1. **Zero-Credit Bridge Courses:** To address the heterogeneity of the incoming batch, mandatory "Zero-Credit Bridge Courses" in *Accounting* and *Economics* were institutionalized during the induction phase. This ensures that students from B.Tech, B.A., or B.Sc. backgrounds possess the requisite foundational vocabulary to engage with core management subjects like *Managerial Accounting* and *Financial Management* from day one.
  2. **Pedagogical Shift to Active Learning:** For subjects mapped heavily to PO1 (e.g., *Economics for Managers*), faculty have shifted from traditional lectures to "Flipped Classroom" methodologies. Students review theoretical concepts pre-class, allowing classroom time to be dedicated to solving applied problems, thereby directly enhancing the "application" aspect of PO1.

#### PO 2: Critical Thinking and Data-Driven Decision Making

- **Status:** A significant decline (-11.93%) to 1.93.
- **Gap Analysis:** Students struggled with subjects requiring high analytical rigor, such as *Advanced Business Analytics* and *Marketing Research*. The gap analysis revealed insufficient proficiency in modern analytical tools (Excel, SPSS, R), leading to an inability to process data effectively for decision-making.
- **Remedial Interventions:**
  1. **Tool-Based Pedagogy:** The pedagogy for *Marketing Research* (Course Code 202) was thoroughly overhauled. The focus shifted from theoretical methodology to lab-based execution. Training on **R** and **Advanced MS Excel** was integrated directly into the coursework. This ensures students can execute real-time data analysis, transforming abstract concepts into tangible skills.
  2. **Live Industry Projects:** To bolster critical thinking, students were assigned live auditing and financial analysis projects with industry partners like *Kshitij Management Consultants*. These projects required students to audit real financial data, forcing them to apply critical scrutiny to genuine business artifacts rather than

hypothetical textbook cases.

3. **Data Visualization Workshops:** Recognizing that analysis is only as good as its communication, workshops on data visualization (using Tableau/PowerBI) were introduced to help students present their analytical findings effectively.

### PO 3: Leadership, Teamwork, and Communication

- **Status:** This PO witnessed the steepest decline (-17.51%), falling to 1.66.
- **Gap Analysis:** This is a critical area of concern. Feedback from recruiters and the academic audit indicated that while students were disciplined, they lacked assertiveness in communication and leadership in group settings. The "passive learning" habits formed during online education years contributed significantly to this gap.
- **Remedial Interventions:**
  1. **Targeted Soft Skills Clinics:** The placement team initiated intensive, small-group **Group Discussion (GD) and Personal Interview (PI)** training workshops. Unlike generic sessions, these were "clinics" addressing specific individual weaknesses identified in mock drills, focusing on voice modulation, assertive body language, and structured thinking.
  2. **Experiential Leadership Simulations:** The Institute implemented **Management Simulation Games** and outbound training modules. These high-pressure simulations compel students to take charge, negotiate, and resolve conflicts in real-time, thereby actively practicing leadership rather than just studying it.
  3. **Peer-Led Collaborative Projects:** Collaborative group projects were mandated in courses like *Organizational Behavior* (Course Code 104) and *HRM*. Crucially, a peer-grading component was introduced, enforcing accountability and leadership within student teams.

### PO 4: Innovation, Ethics, and Adaptability

- **Status:** Relatively stable at 2.02, but with scope for improvement in the "Ethical Conduct" dimension.
- **Gap Analysis:** Students often viewed ethics as a theoretical constraint rather than a practical framework for decision-making. The "Adaptability" component also required strengthening in the face of rapid technological change.
- **Remedial Interventions:**
  1. **Corporate Governance Lecture Series:** Guest lectures by industry veterans were organized to discuss real-world ethical dilemmas and corporate governance failures. This moved the discourse from abstract deontological ethics to the gritty reality of boardroom decisions.
  2. **Ideation Bootcamps:** To foster innovation and adaptability, the Center of Design Thinking & Entrepreneurship organized "Ideation Bootcamps." Students were challenged to pivot business models in real-time based on changing market constraints, directly exercising their adaptability muscles.

## PO 5: Social Responsibility and Sustainability

- **Status:** Low attainment (1.68).
- **Gap Analysis:** The disconnect between business profitability and social impact remains a challenge. Students struggled to conceptualize "Sustainability" beyond mere compliance.
- **Remedial Interventions:**
  1. **CSR Field Immersion:** Integration of field visits to NGOs and rural centers within the *Rural Marketing* and *Sustainability* courses. This experiential learning bridged the gap between classroom concepts and societal realities, making the "Social Responsibility" aspect of PO5 tangible.
  2. **Social Impact Analytics:** In the *Social Media Analytics* course, assignments were framed around analyzing social campaigns and public sentiment regarding sustainability issues, thereby linking technical skills with social awareness.

### 10.1.4. Program Specific Outcome (PSO) Analysis

Beyond the broad Program Outcomes, the Institute rigorously monitors the Program Specific Outcomes (PSOs) associated with the specialized tracks in Marketing and Finance. The analysis of PSO attainment reveals domain-specific nuances that have driven targeted curricular refinements.

**The Program Specific Objectives specified in Chapter 3 were as follows-**

|             |  |
|-------------|--|
| <b>PSO1</b> | Problem-solving skills to analyse complex business situations, formulate strategic recommendations, within a dynamic global business environment.          |
| <b>PSO2</b> | Implementing strategic marketing plans aimed at brand awareness, acquiring customers, and revenue growth within a competitive global marketplace.          |
| <b>PSO3</b> | Applying financial tools to analyse statements, provide investment recommendations, mitigate risks, and develop strategies for organizations               |
| <b>PSO4</b> | Design effective human resource strategies aligned with organizational goals for talent acquisition, performance review, employee relations, and training. |
| <b>PSO5</b> | Demonstrating proficiency in analytics to address intricate business problems for strategic decision-making.   |

The Analysis of PSOs is as follows:

**Table No. 10.1.4.1. - Progression of PSOs over the last three academic years**

| Batchwise Comparison of PSOAL |      |      |      |      |      |
|-------------------------------|------|------|------|------|------|
| Batch Details                 | PSO1 | PSO2 | PSO3 | PSO4 | PSO5 |
| 2020-22                       | 2.19 | 2.08 | 2.19 | 2.11 | 2.13 |

|         |      |      |      |      |      |
|---------|------|------|------|------|------|
| 2021-23 | 2.28 | 2.19 | 2.23 | 2.33 | 2.23 |
| 2022-24 | 2.16 | 1.78 | 1.88 | 1.67 | 1.92 |

**(Reference – Chapter 3)**

\* RBA introduced in 2020

**Table 10.1.4.2. PSO Attainment Gaps and Remedial Actions**

| PSO Focus Area                                  | Attainment (2022-24)       | Remedial Actions Implemented   | Impact/Outcome   |
|---|----------------------------|--|--|
| <b>PSO 1: Global Business Problem Solving</b>   | <b>2.16 (Level 2)</b>      | <p><b>Interdisciplinary Case Studies:</b><br/>Adopted for 17 subjects scoring low on PSO1.</p> <p><b>Global Simulations:</b><br/>Introduction of business strategy simulations mimicking global market dynamics.</p> | Enhanced ability to handle unstructured, global business problems as evidenced in the improved quality of Capstone Projects. |
| <b>PSO 2: Marketing Strategy &amp; Research</b> | <b>1.78 (Below Target)</b> | <p><b>Tech Integration:</b><br/>Introduction of digital marketing tools (SEO/SEM analyzers) in <i>International Marketing</i>.</p> <p><b>Field Assignments:</b><br/>Mandatory "Market Visit" assignments</p>         | Improved grasp of consumer behavior metrics and data-driven marketing planning.  |

|  |                            |  |  |
|--|----------------------------|--|--|
|  |                            | <p>to analyze retail formats for the <i>Retail Management</i> course.</p>  |  |
| <b>PSO 3: Financial Analysis &amp; Risk Mgmt</b> | <b>1.88 (Below Target)</b> | <p><b>Certification Support:</b> Subsidized access to NISM/NCFM certifications.</p> <p><b>Financial Modeling Workshops:</b> Dedicated sessions on building valuation models using Excel.</p> <p><b>Sectoral Training:</b> Special sessions on "American Pension Policies" (advised by TIAA).</p> | Increased placement conversion in financial analyst roles (e.g., BNY Mellon, eClerx) and better readiness for specialized finance roles. |
| <b>PSO 4: HR Strategies &amp; Talent Mgmt</b>    | <b>1.67 (Critical Gap)</b> | <p><b>HR Tech Exposure:</b> Sessions on HRIS and payroll software.</p> <p><b>Legal Workshops:</b> Workshops by practicing labor lawyers for <i>Employee Relations</i>.</p> <p><b>Conflict Resolution:</b> Role-plays on grievance handling.</p>  | Better preparedness for HR Generalist roles; improved understanding of compliance and labor laws.  |
| <b>PSO 5: Business Analytics</b>                 | <b>1.92 (Near Target)</b>  | <b>Data Visualization:</b> Exercises using   | Students developed portfolios of   |

|  |  |   |   |
|--|--|---|---|
|  |  | <p>Tableau/PowerBI.</p> <p><b>Live Projects:</b><br/>Collaborative projects with industry partners to clean and analyze raw datasets.</p> | analysis projects, significantly aiding in recruitment for analyst roles. |
|--|--|---|---|

## 10.2. Academic Audit and Actions Taken thereof during the period of Assessment (10)

The Academic Audit at the Institute is not viewed as a periodic compliance checkbox but as a rigorous, multi-tiered quality assurance mechanism. It operates on the principle of "360-degree scrutiny," integrating feedback from the curriculum, the classroom, the corporate world, and the alumni network to ensure the program remains agile, relevant, and aligned with industry standards.

### 10.2.1. Audit Architecture and Governance

The audit process is governed by the Internal Quality Assurance Cell (IQAC) and executed through the Syllabus Review Team (SRT). The audit cycle is annual, with mid-term reviews to allow for course correction. This structure ensures that the feedback loop is closed efficiently and that insights from one semester can influence the next.

#### Structure of the Academic Audit:

- Internal Audit:** Conducted by senior faculty and the Academic Dean. This level focuses on course file compliance, session plan adherence, and the verification of CO attainment calculations.
- External Audit:** Conducted by academic peers from other universities and industry experts. This level focuses on curriculum relevance, assessment quality, and innovation in pedagogy.
- Stakeholder Audit:** A continuous feedback loop involving recruiters, alumni, and interns, providing the "market validation" of the academic product.

### 10.2.2. Audit of Academic Gaps and Curriculum Review

The most significant output of the academic audit is the annual **Curriculum Review**. This process benchmarks the Institute's syllabus against premier institutions and validates it with direct requirements from the industry. The audit identifies specific "lacunae" in the syllabus and mandates updates.

#### Specific Actions Taken Based on Curriculum Audit:

- Finance Syllabus Overhaul (Industry-Driven):** Following the audit feedback from **Mr. Girish Iyer (MD, CITCO)**, the Finance curriculum was significantly revised. The audit revealed a gap in practical trading knowledge. Consequently, concepts from the book **"After the Trade is Made"** by David Weiss were incorporated to teach the lifecycle of a

trade. This direct industry intervention bridged the gap between academic finance and investment banking operations.

- **Specialized Domain Training (TIAA):** Based on the audit of placement requirements for the financial services sector, **TIAA** advised the inclusion of specific training on *American Pension Policies*. The Institute responded by integrating this niche topic into the *Financial Services* elective, directly enhancing employability for US-based financial firms.
- **Customized Training Modules (IDFC):** Feedback from **IDFC** led to the creation of tailor-made training modules for students targeting banking roles. This ensured that graduates were "day-one ready" for the specific operational requirements of the banking sector.
- **Internship Integration (SearchBourne Consulting):** Input from the **SearchBourne Consulting LLC** representative on the Academic Council emphasized the need for longer practical exposure. This led to the formalization of the 9-month Corporate Research Learning Internship (CRLI) as a credit-bearing, rigorous academic component rather than just industry exposure.

#### 10.2.3. Audit of Internship and Placement Feedback

The Institute conducts a unique "performance audit" of students during their internships and placements. This qualitative audit provides unfiltered insights into the program's efficacy and student readiness.

##### A. Feedback from Interning Companies:

The audit collected structured feedback from internship supervisors at partner companies like *Citta Beauty*, *Kolte Patil*, and *Varroc*.

- **Strengths Identified:** Students were praised for their "multitasking skills," "dedication," and "networking abilities." For instance, **Trupti Gupta** (intern at *Kolte Patil*) was specifically commended for handling cross-departmental communication effectively and ensuring smooth project execution. Similarly, **Tarun Bansal** (*Citta Beauty*) was noted for his proactive attitude in business development.
- **Weaknesses Identified (Gaps):**
  - **"Earning over Learning":** The audit revealed a concerning trend where some interns prioritized stipends over learning opportunities.
  - **Lack of Research:** Companies noted that some students appeared for interviews without adequately researching the organization or job description.
  - **Interview Etiquette:** Issues with punctuality and "no-shows" for interviews were flagged as professional lapses.
- **Corrective Actions:**
  - **Pre-Internship Bootcamps:** Mandatory sessions on corporate etiquette and "Researching a Company" were introduced to ensure students approach internships with the right mindset.
  - **Strict Penalty Policy:** A policy was instituted where "no-shows" for interviews resulted in debarment from future placement drives, enforcing professional discipline.

## B. Feedback from Recruiters:

Recruiters highlighted specific technical and behavioral gaps during the placement process:

- **Gap:** "Low technical knowledge" and "Poor data interpretation."
- **Action:** This feedback directly triggered the introduction of the *Advanced Business Analytics* modules and mandatory Excel certification to improve data literacy.
- **Gap:** "Resigning without notice."
- **Action:** Ethics workshops focusing on professional commitment and contract law were added to the *Legal Aspects of Business* course to address this behavioral issue.<sup>1</sup>

### 10.2.4 Audit of Teaching-Learning Processes

The audit also evaluated the faculty's delivery mechanisms through student feedback and peer review.

- **Feedback:** Students requested shorter, more focused sessions (1.15 hours vs 1.45 hours) to maintain attention spans and improve retention.
- **Action:** The timetable was completely restructured to accommodate shorter, high-intensity sessions.
- **Feedback:** A demand for more than just classroom presentations.
- **Action:** Faculty were mandated to include "News Analysis" and "Market Visits" as graded components of the pedagogy. This ensures that learning extends beyond the classroom walls and engages with current events.

## 10.3. Improvement in Placement, Higher Studies and Entrepreneurship (10)

The ultimate validation of any continuous improvement initiative lies in the career trajectories of the graduates. The Institute tracks three core metrics: Placement Quality, Higher Education progression, and Entrepreneurial ventures. These metrics serve as the lagging indicators of the program's quality.

### 10.3.1. Improvement in Placements

The placement ecosystem has evolved from a transactional "job-seeking" process to a strategic "career-building" engagement. The data reflects a volatile market (post-Covid) but demonstrates the Institute's resilience and the effectiveness of remedial actions.

**Table 10.3.1.1: Placement Performance Trends (2021–2024)**

| Metric            | 2021-22  | 2022-23  | 2023-2024 |
|-------------------|----------|----------|-----------|
| Students Admitted | 103      | 95       | 179       |
| Students Placed   | 93       | 83       | 134       |
| Median Salary     | 5,99,025 | 3,88,000 | 6,00,000  |

|                         |          |           |           |
|-------------------------|----------|-----------|-----------|
| (INR)                   |          |           |           |
| Highest Salary<br>(INR) | 9,00,000 | 15,00,000 | 12,00,000 |

### Strategic Analysis of Placement Trends:

- **Salary Growth:** The most significant indicator of quality improvement is the **Median Salary**, which surged from **3.88 LPA (2022-23)** to **6.00 LPA (2023-24)**. This 154% jump indicates that top-tier companies are recognizing the premium quality of the Institute's top graduates. This validates the success of the rigorous "Specialization Tracks" and "CRLI" interventions, which have produced students capable of commanding market-leading compensation. Consistent placement percentage (~80%) demonstrates that the employability of the "average" student remains high, thanks to the generic skill enhancements (PO3, PO4) embedded in the curriculum.
- **Internship-to-PPO Conversion:** The 9-month internship model has been a game-changer. A significant percentage of students convert their CRLI internships into Pre-Placement Offers (PPOs), reducing the friction of final placements and ensuring a smoother transition to the workforce.

#### 10.3.2. Improvement in Higher Studies

The Institute encourages students who demonstrate research aptitude to pursue further specialization. The continuous improvement in academic rigor (PO2 - Critical Thinking) has enabled graduates to secure admissions in prestigious global universities.

#### Notable Progressions to Higher Education:

- **International Acceptances:** Students have successfully transitioned from the PGDM program to specialized Masters programs in the US, Canada, Germany, and Ireland.
  - *Nikunj Gabani (2012-14)* -> MBA, IU International University, Germany.
  - *Venkat Phanindra (2016-18)* -> Business Analytics, Trine University, USA.
  - *Sathish Kurapati (2017-19)* -> Data Analytics, North Texas University, USA.
  - *Himanshu Bundel (2021-23)* -> MSc Finance, North Eastern University, USA.
  - *Rajnish Borkar (2021-23)* -> MSc Business Analytics, Trinity College, Ireland.

**Institutional Support for Higher Studies:** To support these aspirations, the Institute has streamlined its administrative processes. The Examination Department facilitates expedited transcript processing for applicants. Furthermore, the requirement to publish research papers during the CRLI (Internship) significantly strengthens the students' profiles for application to research-intensive foreign universities.

#### 10.3.3. Improvement in Entrepreneurship

The Institute fosters an entrepreneurial mindset through its Centre of Design Thinking,

Innovation & Entrepreneurship. The curriculum's focus on "Innovation" (PO4) has borne fruit in the form of sustainable startups launched by alumni.

### **Successful Entrepreneurial Ventures:**

1. **Narendra Singh Rathore (2011-13):** Founder, *Zoopero Marketing Pvt. Ltd.*
2. **Himanshu Agarwal (2015-17):** Founder, *GreenDesk* (Sustainability-focused venture).
3. **Abhinav Temak (2019-21):** Founder, *Dinchak Dabba* (Innovative Food Service).
4. **Pradyum Rathi (2020-22):** Founder, *Dumplicious* (QSR Chain).
5. **Bhushan Baldota (2022-24):** Founder, *Mr. Picano*.

### **Support Actions Taken:**

- **Incubation Support:** The EDC provides mentorship from alumni entrepreneurs, creating a supportive ecosystem for budding founders.
- **Curriculum Integration:** Subjects like *Strategic Management* and *Legal Aspects of Business* were tweaked to include specific modules on "Starting a New Venture" and "IPR for Startups," equipping students with the legal and strategic toolkit needed for entrepreneurship.

### **10.4. Improvement in the quality of students admitted to the program (10)**

The quality of the educational output is intrinsically linked to the quality of the input. The Institute has progressively tightened its admission filters and enhanced its diversity outreach to ensure a vibrant, high-potential cohort. This strategic shift is designed to address the PO attainment gaps identified in Section 10.1 by selecting students who already possess key baseline competencies.

#### **10.4.1. Refinement of Admission Criteria: The Admission Evaluation Grid**

To address the attainment gaps in Critical Thinking (PO2) and Communication (PO3), the admission process was completely overhauled. The selection is no longer purely based on entrance scores, which often fail to capture holistic potential. Instead, a multi-parameter "**Admission Evaluation Grid**" (AED) was introduced to ensure a comprehensive assessment.

#### **Components of the Admission Evaluation Grid:**

1. **Academic Consistency (10 Marks):** The grid rewards consistent academic performance. A student with "All Distinction" receives 10/10, while "Second Class" performance receives only 4/10. This ensures that the incoming cohort has a history of academic discipline.
2. **Entrance Exam Weightage (Scalable):** High scores in premier exams like CAT/XAT are weighted heavily (90+ percentile = 10/10) to attract rigorous academic talent. This component ensures that the Institute remains competitive in attracting top-tier test-takers.
3. **Personal Interview (PI) Rigor (80 Marks):** The PI has been transformed from a casual conversation into a structured assessment of 8 distinct parameters, each scored out of 10:
  - *Communication Skills* (Directly addresses PO3 Gap)
  - *Problem Solving Approach* (Directly addresses PO1 Gap)

- *Industry Awareness*
- *Response to Stress* (Directly addresses PO4 Gap)
- *Leadership Potential*
- *Personal & Professional Achievements*
- *Experience*
- *Assessment of Current Affairs*.

4. **Work Experience (10 Marks):** Bonus points are awarded for work experience (>3 years = 10 marks). This is a strategic move to improve peer learning quality, as experienced students bring practical insights into the classroom.

5. **Case Study Analysis (30 Marks):** A written case analysis component was added to the selection process. This tests *Critical Analysis*, *Root Cause Identification*, and *Depth of Solution*—skills that are critical for PO2 (Critical Thinking). This ensures that admitted students have the raw cognitive ability to handle case-based pedagogy.

#### 10.4.2. Improvement in Academic Profile of Admitted Students

The implementation of the AED and the rigorous selection process has resulted in a measurable improvement in the academic baseline of the incoming batches.

**Table 10.4.2.1. Improvement in Graduation CGPA**

| Metric                      | Batch 2020-22 | Batch 2021-23 | Batch 2022-24 | Trend Analysis                       |
|-----------------------------|---------------|---------------|---------------|--------------------------------------|
| <b>Mean Graduation CGPA</b> | <b>7.18</b>   | <b>7.41</b>   | <b>7.91</b>   | <b>Significant Improvement (+7%)</b> |

The jump in mean Graduation CGPA to **7.91** in the 2022-24 batch is a significant indicator of improved student quality. It suggests that the Institute is successfully attracting students with better academic discipline and foundational knowledge. This creates a stronger foundation for attaining high PO levels in subsequent years, as the "raw material" entering the program is of a higher caliber.

#### 10.4.3. Diversity Analysis (Gender, Background, and Geography)

Diversity is a key driver of peer learning quality in a management program. The Institute has actively pursued strategies to enhance diversity across multiple dimensions.

##### A. Gender Diversity:

- **Challenge:** The gender ratio skewed heavily towards males during the pandemic years, with the male population reaching **67.22%** in the 2022-24 batch.
- **Corrective Action:** The Institute launched targeted initiatives to attract more female candidates:
  - *Scholarships*: Dedicated scholarships for meritorious girl students.
  - *Safety & Wellness*: Implementation of robust women's safety and wellness programs, including POSH sessions and health summits (e.g., Dr. Rashmi Bhamare's session).

- *Infrastructure:* Provision of dedicated, high-quality hostel facilities (Muktai PG Hostel) to reassure parents and students.
- **Impact:** The initiatives yielded results, with the female ratio improving from **18.95% (2021-23)** to **32.78% (2022-24)**. This restoration of gender balance enhances classroom dynamics and diverse perspectives.

### **B. Academic Background Diversity:**

- **Observation:** The cohort has historically been dominated by B.Com (51.63%) and BBA (27.45%) graduates. While this provides a strong commercial base, it can lead to homogenous thinking.
- **Strategy:** To enhance the analytical rigour of the class (PO2), the Institute actively targeted B.Tech, B.E., and B.Sc. graduates during its outreach.
- **Trend:** The admission data shows a positive shift, with **B.Sc. intake rising from 2.13% (2020) to 11.78% (2022)**. This influx of science graduates injects more empirical and analytical thinking into the peer group, challenging the commerce-centric viewpoints.

### **C. Geographic Diversity:**

The Institute has successfully transformed from a regional player to a national destination. The 2022-24 batch saw students admitted from **15 different states**. There is significant representation from non-traditional catchment areas like **Chhattisgarh, Gujarat, and West Bengal**, reducing the reliance on local Maharashtra domicile students. This geographic diversity enriches cultural exchange and prepares students for the multicultural workforce (PO3).

The thorough analysis conducted across various areas of continuous improvement provides a comprehensive view of the program's strengths and areas needing improvement. Through careful assessment and planning, key areas for focus such as refining the curriculum, innovating pedagogy, and enhancing student enrichment efforts have been identified. Detailed plans have been devised and put into action to tackle specific challenges, ensuring progress. Additionally, our robust internship program and dynamic placement strategies demonstrate our commitment to fostering comprehensive professional development. By incorporating feedback from industry, alumni, and academic assessments, we maintain our dedication to excellence. As we evolve, our commitment to continuous improvement drives us toward greater success, and we are grateful to all stakeholders for their contributions. Together, we envision a future where our program establishes new standards of excellence in management education.

The Institute remains committed to this trajectory of excellence, ensuring that every cycle of assessment feeds into a stronger, more resilient, and industry-aligned educational ecosystem. This Self-Assessment Report serves as a testament to that commitment.

## Declaration

I undertake that, the institution is well aware about the provisions in the NBA's accreditation manual concerned for this application, rules, regulations, notifications and NBA expert visit guidelines in force as on date and the institute shall fully abide by them.

It is submitted that information provided in this Self-Assessment Report is factually correct. I understand and agree that an appropriate disciplinary action against the Institute will be initiated by the NBA in case any false statement/information is observed during pre-visit, visit, post visit and subsequent to grant of accreditation.
